Robert R. Redfield

Wandering In Darkness Narrative And The Problem Of Suffering:

Wandering in Darkness Eleonore Stump, 2010-09-23 Virtually no one would deny the extent and intensity of suffering in the world Can one also consistently hold that there is an omniscient omnipotent perfectly good God This book argues that the difficult questions raised by the problem of suffering can be considered best in the context of biblical narratives **Evil and a Selection of its Theological Problems** Benjamin Arbour, John R. Gilhooly, 2017-01-06 Recent formulations of the inductive continual problem of evil require us to consider new responses to the charge that there is something irrational about believing in God given the type and amount of evil in the world Furthermore fresh approaches to the problem of evil offer suggestive ways to enter a new line of inquiry in regards to both theistic defences against various articulations of the problem of evil and also theodicy Finally developments in contemporary theology especially analytic philosophical theology likewise require new treatments of the problem of evil This volume on the problem on evil presents a series of essays that incorporate responses to these developments The articles fall into three broad sections The first critiques and examines the analytic inductive problem of evil on the basis of its modal underpinnings the discourse of possible worlds and issues related to hiddenness and vagueness The second part presents a narrative response to the problem of evil Its approaches attempt to show the way in which peculiar features of narrative such as dramatic irony verisimilitude and distinctions between person type propositions offer fresh ways to encapsulate our feelings about evil and our response to the theological problems raised by encounters with evil Such existential concerns are valuable for our thinking about these matters The third section relates the problem of evil to developments in contemporary analytic theology such as open theism idealism and the *felix culpa* theodicy **The Problem of Evil** Nick Trakakis, 2018 Eight leading philosophers of religion debate the problem of evil the problem of reconciling the existence of a perfectly good and loving God with the existence of sin and suffering in the world Their dialogues explore a range of imaginative and innovative approaches to the nature of divinity and its relationship to evil

The Church and the Problem of Divine Hiddenness Derek King, 2022-12-30 This book offers a theological and more specifically ecclesiological response to the philosophical problem of divine hiddenness It engages with philosopher J L Schellenberg s argument on hiddenness and sets out a theologically rich and fresh response drawing on the ecclesiological thought of Gregory of Nyssa With careful attention to Gregory s work the book shows how certain ecclesiological problems and themes are critical to the hiddenness argument It looks to the gathered church the church as the body of Christ and the scattered church the church as the image of God for relevance to the hiddenness problem The volume will be of interest to scholars of theology and philosophy particularly analytic theologians and philosophers of religion *The Image of God* Eleonore Stump, 2022 Eleonore Stump explores the role and value of suffering in human life by addressing the problem of evil in Christian ethics the role of relationships in human flourishing and the question of what constitutes one s true self

Atonement Eleonore Stump, 2018-11-22 The doctrine of the atonement is the distinctive doctrine of Christianity Over the

course of many centuries of reflection highly diverse interpretations of the doctrine have been proposed In the context of this history of interpretation Eleonore Stump considers the doctrine afresh with philosophical care Whatever exactly the atonement is it is supposed to include a solution to the problems of the human condition especially its guilt and shame Stump canvasses the major interpretations of the doctrine that attempt to explain this solution and argues that all of them have serious shortcomings In their place she argues for an interpretation that is both novel and yet traditional and that has significant advantages over other interpretations including Anselms well known account of the doctrine In the process she also discusses love union guilt shame forgiveness retribution punishment shared attention mind reading empathy and various other issues in moral psychology and ethics

Grains of Wheat Eleonore Stump,2025-02-24 There is a kind of knowledge that is non propositional one variety of it can be acquired in second person experience of another person but it can also be transmitted through narratives This narratively mediated kind of knowledge can be significant for philosophical and theological reflection Biblical narratives have prompted detailed reflection for so many centuries because they offer profound insights into the nature of the human condition and human flourishing This book brings together detailed examinations of narratives in the Hebrew Bible and the New Testament to yield one large emergent story which has something to teach that can be missed when the stories are taken in isolation from one another These are the stories of Job Samson Abraham Mary of Bethany the temptations of Christ the passion of Christ and the story from the book of Ecclesiastes Taken together these narratives depict a possible world in which there is a good for suffering human beings that outweighs their suffering and that could not be gotten without the suffering not even in a world without the Fall On this emergent larger story human suffering is defeated and peace and joy in human life are possible
