What About Me The Struggle For Identity In A Market Based Society:

What about Me? Paul Verhaeghe, 2014-03-31 According to current thinking anyone who fails to succeed must have something wrong with them The pressure to achieve and be happy is taking a heavy toll resulting in a warped view of the self disorientation and despair People are lonelier than ever before Today's pay for performance mentality is turning institutions such as schools universities and hospitals into businesses even individuals are being made to think of themselves as one person enterprises Love is increasingly hard to find and we struggle to lead meaningful lives In *What about Me* Paul Verhaeghe's main concern is how social change has led to this psychic crisis and altered the way we think about ourselves He investigates the effects of 30 years of neoliberalism free market forces privatisation and the relationship between our engineered society and individual identity It turns out that who we are is as always determined by the context in which we live From his clinical experience as a psychotherapist Verhaeghe shows the profound impact that social change is having on mental health even affecting the nature of the disorders from which we suffer But his book ends on a note of cautious optimism Can we once again become masters of our fate *The Bloomsbury Handbook of Culture and Identity from Early Childhood to Early Adulthood* Ruth Wills, Marian de Souza, Jennifer Mata-McMahon, Mukhlis Abu Bakar, Cornelia Roux, 2021-07-15 How do children determine which identity becomes paramount as they grow into adolescence and early adulthood Which identity results in patterns of behaviour as they develop To whom or to which group do they feel a sense of belonging How might children adolescents and young adults negotiate the gap between their own sense of identity and the values promoted by external influences The contributors explore the impact of globalization and pluralism on the way most children and adolescents grow into early adulthood They look at the influences of media and technology that can be felt within the living spaces of their homes competing with the religious and cultural influences of family and community and consider the ways many children and adolescents have developed multiple and virtual identities which help them to respond to different circumstances and contexts They discuss the ways that many children find themselves in a perpetual state of shifting identities without ever being firmly grounded in one potentially leading to tension and confusion particularly when there is conflict between one identity and another This can result in increased anxiety and diminished self esteem This book explores how parents educators and social and health workers might have a raised awareness of the issues generated by plural identities and the overpowering human need to belong so that they can address associated issues and nurture a sense of wholeness in children and adolescents as they grow into early adulthood It's NOT a Midlife Crisis It's an Opportunity Andrew G. Marshall, 2017-04-04 It's good to take stock from time to time but at forty or fifty something you can find that you're dissatisfied and bored The temptation is to take a wrecking ball to your life but that risks alienating your partner and your children without necessarily ending up any happier Just gritting your teeth doesn't work either anyway you've already tried that Fortunately there's another way to become fulfilled and lead the life that's right for you rather than what your parents

society or anybody else thinks If you re fed up with life questioning whether you should stay married or thinking you might be better off with someone else marital therapist Andrew G Marshall has a radical idea to help you move from the first half to the second of your life without messing everything up it s not a midlife crisis it s an opportunity He explains in part one The three central questions you need to answer and why everybody else is distracting themselves and avoiding facing them How to put what s happening now into the context of your whole life journey How to avoid the tempting short cuts that cause more heartache in the long term Why if you pass this midlife test everything is up from here Why you re not in the wrong If it s your partner who has turned grumpy critical and blames you for everything you will be feeling alone and full of despair Don t worry in part two of this compassionate book Andrew G Marshall explains A whole new vocabulary for discussing the midlife crisis without putting your partner s back up What s really going on in your partner s head What causes depression and how to help Five killer replies to the blocks that stops you talking properly about your marriage Why you re not in the wrong Together you will learn three new skills that will either change your marriage into the connected fulfilling and loving relationship of which you ve always dreamed or help you separate amicably and be great coparents together **How Did We Get Into This Mess?** George Monbiot,2023-02-14 A primal account of an unstifled world Bill McKibben A dazzling command of science and relentless faith Naomi Klein A wide ranging collection of essays from leading environmental commentator on how politics and big business threaten our daily lives our society and the planet Without countervailing voices naming and challenging power political freedom withers and dies Without countervailing voices a better world can never materialise Without countervailing voices wells will still be dug and bridges will still be built but only for the few Food will still be grown but it will not reach the mouths of the poor New medicines will be developed but they will be inaccessible to many of those in need George Monbiot is one of the most vocal and eloquent critics of the current consensus How Did We Get into this Mess based on his powerful journalism assesses the state we are now in the devastation of the natural world the crisis of inequality the corporate takeover of nature our obsessions with growth and profit and the decline of the political debate over what to do While his diagnosis of the problems in front of us is clear sighted and reasonable he also develops solutions to challenge the politics of fear How do we stand up to the powerful when they seem to have all the weapons What can we do to prepare our children for an uncertain future Controversial clear but always rigorously argued How Did We Get into this Mess makes a persuasive case for change in our everyday lives our politics and economics the ways we treat each other and the natural world International Development Damien Kingsbury,John McKay,Janet Hunt,2016-08-05 This comprehensive and broad ranging introductory textbook examines the key aspects of contemporary international development from both a practical and theoretical perspective It addresses the fundamental question of what development actually is and examines social economic and environmental developments around the world Written by experts with extensive field experience this text introduces key issues in the development debate from how the developing world is

In Search of Sleep Bregje Hofstede, 2023-03-14 Bregje Hofstede is an extraordinary writer Rutger Bregmans author of Utopia for Realists and Humankind A Hopeful History Jenny Odell s How to Do Nothing meets Matthew Walker s Why We Sleep in this fascinating deep dive into the science and history of sleep In Search of Sleep is both a self help manual for insomniacs and a sweeping critique of the hustle culture that blinds us to the real reasons we lie awake at night from politics to pandemics to poverty Amsterdam based writer Bregje Hofstede struggled with insomnia for 10 years but advice from doctors and books always felt lacking in perspective Wasn t insomnia more than just an individual struggle Might it also be a rational reaction to our increasingly turbulent world Unlike the vast majority of books about sleep In Search of Sleep examines insomnia as both a physical and psychological condition and an early warning

sign that something is off in society As Hofstede points out studies show that insomnia increased during the pandemic and that people with less money sleep the worst She also shows that sleeplessness is tied inextricably to loneliness while meaningful relationships can provide the security we need to slumber Interweaving neuroscience cultural anthropology history and interviews with experts *In Search of Sleep* invites us to see insomniacs as oracles not oddballs and offers a unique way forward for the sleep deprived and the dreamless If we are aware of both the small and large forces that keep us awake then we can begin to take political action reimagine the role of sleep in our own lives and rid ourselves of insomnia for good

Selfish Women Lisa Downing,2019-05-24 This book proceeds from a single and very simple observation throughout history and up to the present women have received a clear message that we are not supposed to prioritize ourselves Indeed the whole question of self is a problem for women and a problem that issues from a wide range of locations including in some cases feminism itself When women espouse discourses of self interest self regard and selfishness they become illegible This is complicated by the commodification of the self in the recent Western mode of economic and political organization known as neoliberalism which encourages a focus on self fashioning that may not be identical with self regard or self interest Drawing on figures from French US and UK contexts including Rachilde Ayn Rand Margaret Thatcher and Lionel Shriver and examining discourses from psychiatry media and feminism with the aim of reading against the grain of multiple orthodoxies this book asks how revisiting the words and works of selfish women of modernity can assist us in understanding our fraught individual and collective identities as women in contemporary culture And can women with politics that are contrary to the interests of the collective teach us anything about the value of rethinking the role of the individual This book is an essential read for those with interests in cultural theory feminist theory and gender politics

The Dialectics of Global Justice Bryant William Sculos,2022-07-01 The Dialectics of Global Justice uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice i e cosmopolitanism including how these theories manifest in political movements and policy agendas Drawing on the work of Theodor Adorno and Erich Fromm especially author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism particularly the domineering capitalistic mentality re produced by and through capitalism leading to the conclusion that cosmopolitanism on its own terms demands an alternative postcapitalistic political basis in order to make robust progress toward global justice While offering this critique Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti cosmopolitan sentiment
