A Christian and African Ethic of Women's Political Participation Léocadie W. Lushombo, 2022-11-30 This book surveys a broad panorama of Christian and African traditions to discover and assess the components that will illuminate and motivate a Christian and African ethic of women's political participation The author's primary lens for diagnosing the problems faced by women in Africa is Engelbert Mveng's concept of anthropological poverty that results from slavery and colonialism It affects women in unique ways and is exacerbated by the religious and cultural histories of women's oppression The author advocates an interplay between the sacredness of every individual's life a salient principle of Christian ethics and the collective consciousness of solidarity distinctive to African cultures This interplay can in turn foster a more enlightened approach to African masculinity Using a philosophical hermeneutic this in depth study undertakes a moral imagination through narrative criticism It argues that the existential reality of African women must be addressed as an essential element in the development of Christian socio political ethic The righteous solidaristic and resistant anger of women can transform patriarchy and inform Catholic social teaching The author draws on The Circle of concerned African women theologians

postcolonial theorists inculturation theology African males and Jon Sobrino's liberation theology to present an innovative Christian ethic that will radically affect the lives of African women and inform feminist theology Q.M.C. Historical Studies ..., 1944 **Quartermaster Equipment for Special Forces** Thomas M. Pitkin, 1944 *UAW Politics in the Cold War Era* Martin Halpern, 1988-10-11 This is the first book length study of the triumph of the Reuther caucus over the Thomas Addes Leonard coalition in the United Auto Workers union The dramatic defeat of the left center coalition had far reaching significance It helped to determine the shape of postwar labor relations the direction of postwar liberalism and the fate of the left Based on manuscript sources oral histories and quantitative analyses of convention roll calls *UAW Politics in the Cold War Era* places this union conflict in a national political context of postwar economic conflicts the cold war and the passage of the Taft Hartley Act Halpern offers a fresh point of view on the character of the two contending coalitions and the reasons for the Reuther triumph His work is a valuable contribution to the current reassessment of the domestic politics of the early cold war years *Journal of the proceedings of the (annual) convention* Albany N.Y., diocese, 1884 Corporate Power and the Environment George A. Gonzalez, 2001-05-16 Environmental policy is broadly viewed as an oasis of democracy unspoiled by crass capitalism and undominated by corporate interests This book counters that view The focus of *Corporate Power and the Environment* focuses on how U S economic elites corporate decisionmakers and other individuals of substantial wealth shape the content and implementation of U S environmental policy to their economic and political benefit The author uses the management of the national forests and national parks as well as wilderness preservation policies and federal clean air policies as case studies to show corporate power in action in even the purest of policy arenas **The American Museum of Natural History and How It Got That Way** Colin Davey, Thomas A. Lesser, 2019-05-14 An extensive history of the American Museum of Natural History and Hayden Planetarium featuring a cast of colorful characters The American Museum of Natural History is one of New York City's most beloved institutions and one of the largest most celebrated museums in the world Since 1869 generations of New Yorkers and tourists of all ages have been educated and entertained here Located across from Central Park the sprawling structure spanning four city blocks is a fascinating conglomeration of many buildings of diverse architectural styles built over a period of 150 years The first book to tell the history of the museum from the point of view of these buildings including the planned Gilder Center The American Museum of Natural History and How It Got That Way contextualizes them within New York and American history and the history of science Part II The Heavens in the Attic is the first detailed history of the Hayden Planetarium from the museum's earliest astronomy exhibits to Clyde Fisher and the original planetarium to Neil deGrasse Tyson and the Rose Center for Earth and Space and it features a photographic tour through the original Hayden Planetarium Author Colin Davey spent much of his childhood literally and figuratively lost in the museum's labyrinthine hallways The museum grew in fits and starts according to the vicissitudes of backroom deals personal agendas two world wars the Great Depression and the Cold War Chronicling its evolution from the selection of a desolate

rocky hilly swampy site known as Manhattan Square to the present day the book includes some of the most important and colorful characters in the city's history including the notoriously corrupt and powerful Boss Tweed Father of New York City Andrew Haswell Green and twentieth century powerbroker and master builder Robert Moses museum presidents Morris K. Jesup Henry Fairfield Osborn and Ellen Futter and American presidents polar and African explorers dinosaur hunters and German rocket scientists Features a new preface by the author and a new foreword by Neil deGrasse Tyson This is in many ways a particularly American story and anyone interested in history or museums will find this a very satisfying read Author Colin Davey had a life long love affair with the museum growing up in New York and spending many many hours happily lost in the museum collections and that shines through in his writing as does his fine in depth research Plenty of excellent graphics and photographs support this fascinating history *Seattle Book Review* *Maurice Sugar* Christopher H. Johnson, 1988 It was Maurice Sugar labor activist and lawyer for the United Auto Workers who played a key role in guiding the newly formed union through the treacherous legal terrain obstructing its development in the 1930s He orchestrated the injunction hearings on the Dodge Main strike and defended the legality of the sit down tactic As the UAW's General Council he wrote the union's constitution in 1939 a model of democratic thinking Sugar worked with George Addes UAW Secretary Treasurer to nurture rank and file power A founder of the National Lawyers Guild Sugar also served as a member of Detroit's Common Council at the head of a UAW labor ticket By 1947 Sugar was embroiled in a struggle within the UAW that he feared would destroy the open structures he had helped to build He found himself in opposition to Walter Reuther's bid to run the union A long time socialist Sugar fell victim to mounting Cold War hysteria When Reuther assumed control of the UAW Sugar was summarily dismissed Christopher Johnson chronicles the life of Maurice Sugar from his roots in Michigan's Upper Peninsula through his resistance with Eugene V. Debs to World War I and on to the struggles of the early 1930s to bring the union message to Detroit Firmly grounded on the historiography of the UAW Johnson shows the importance of Sugar and the Left in laying the foundation for unionizing the auto industry in the pre UAW days He documents the work of the Left in building a Black labor coalition in Detroit the importance of anti Communism in Reuther's rise to power and the diminution of union democracy in the UAW brought about by the Cold War Maurice Sugar represents a force in American life that bears recalling in these barren years of plant closings
