What Remains Coming To Terms With Civil War In 19th Century China:

What Remains Tobie Meyer-Fong, 2013-03-27 The Taiping Rebellion was one of the costliest civil wars in human history. Many millions of people lost their lives. Yet while the Rebellion has been intensely studied by scholars in China and elsewhere, we still know little of how individuals coped with these cataclysmic events. Drawing upon a rich array of primary sources, *What Remains* explores the issues that preoccupied Chinese and Western survivors. Individuals, families, and communities grappled with fundamental questions of loyalty and loss as they struggled to rebuild shattered cities, bury the dead, and make sense of the horrors that they had witnessed. Driven by compelling accounts of raw emotion and deep injury, *What Remains* opens a window to a world described by survivors themselves. This book transforms our understanding of China's 19th century and recontextualizes suffering and loss in China during the 20th century. **The Great Exodus from China**

Dominic Meng-Hsuan Yang, 2020-09-24 Dominic Meng Hsuan Yang examines the human exodus from China to Taiwan in 1949, focusing on trauma, memory, and identity. **Making China Modern** Klaus Mühlhahn, 2019-01-14 Thoughtful probing, a worthy successor to the famous histories of Fairbank and Spence, that will be read by all students and scholars of modern China. William C. Kirby, coauthor of *Can China Lead?* It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy. But China has a long history of creative adaptation. In the eighteenth century, the Qing Empire dominated a third of the world's population. Then, as the Opium Wars and the Taiping Rebellion ripped the country apart, China found itself verging on free fall. More recently, after Mao, China managed a surprising recovery, rapidly undergoing profound economic and social change. A dynamic story of crisis and recovery, failure and triumph, *Making China Modern* explores the versatility and resourcefulness that guaranteed China's survival, powered its rise, and will determine its future. *Chronicles* reforms, revolutions, and wars through the lens of institutions, often rebutting Western impressions. *New Yorker*. A remarkable accomplishment. Unlike an earlier generation of scholarship, *Making China Modern* does not treat China's contemporary transformation as a postscript. It accepts China as a major and active player in the world, places China at the center of an interconnected and global network of engagement, links domestic politics to international dynamics, and seeks to approach China on its own terms. Wen-hsin Yeh, author of *Shanghai Splendor*. **The Nature of Disaster in China** Chris

Courtney, 2018-02-15 In 1931, China suffered a catastrophic flood that claimed millions of lives. This was neither a natural nor human-made disaster. Rather, it was created by an interaction between the environment and society. Regular inundation had long been an integral feature of the ecology and culture of the middle Yangzi, yet by the modern era, floods had become humanitarian catastrophes. Courtney describes how the ecological and economic effects of the 1931 flood pulse caused widespread famine and epidemics. He takes readers into the inundated streets of Wuhan, describing the terrifying and disorientating sensory environment. He explains why locals believed that an angry Dragon King was causing the flood and explores how Japanese invasion and war with the Communists inhibited both official relief efforts and refugee coping.

strategies This innovative study offers the first in depth analysis of the 1931 flood and charts the evolution of one of China's most persistent environmental problems *The Cambridge Companion to Religion and War* Margo Kitts, 2023-05-11 This Companion offers a global comparative history of the interplay between religion and war from ancient times to the present Moving beyond sensationalist theories that seek to explain why religion causes war the volume takes a thoughtful look at the connection between religion and war through a variety of lenses historical literary and sociological as well as the particular features of religious war The twenty three carefully nuanced and historically grounded chapters comprehensively examine the religious foundations for war classical just war doctrines sociological accounts of religious nationalism and featured conflicts that illustrate interdisciplinary expressions of the intertwining of religion and war Written by a distinguished international team of scholars whose essays were specially commissioned for this volume *The Cambridge Companion to Religion and War* will be an indispensable resource for students and scholars of the history and sociology of religion and war as well as other disciplines China and the Philippines Phillip B. Guingona, 2023-11-23 Challenging global history's Euro American orientation this study centres China and the Philippines in the early twentieth century **After the Prosperous Age** Seunghyun Han, 2020-10-26 Scholars have described the eighteenth century in China as a time of state activism when the state sought to strengthen its control on various social and cultural sectors The Taiping Rebellion and the postbellum restoration efforts of the mid nineteenth century have frequently been associated with the origins of elite activism However drawing upon a wide array of sources including previously untapped Qing government documents *After the Prosperous Age* argues that the ascendance of elite activism can be traced to the Jiaqing and Daoguang reigns in the early nineteenth century and that the Taiping Rebellion served as a second catalyst for the expansion of elite public roles rather than initiating such an expansion The first four decades of the nineteenth century in China remain almost uncharted territory By analyzing the social and cultural interplay between state power and local elites of Suzhou a city renowned for its economic prosperity and strong sense of local pride from the eighteenth to the early nineteenth century Seunghyun Han illuminates the significance of this period in terms of the reformulation of state elite relations marked by the unfolding of elite public activism and the dissolution of a centralized cultural order The Qing Dynasty and Traditional Chinese Culture Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested

in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China's preoccupation with order unity and harmony contributed to the civilization's remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society

Scythe and the City Christian Henriot,2016-05-18 The issue of death has loomed large in Chinese cities in the modern era Throughout the Republican period Shanghai swallowed up lives by the thousands Exposed bodies strewn around in public spaces were a threat to social order as well as to public health In a place where every group had its own beliefs and set of death and funeral practices how did they adapt to a modern urbanized environment How did the interactions of social organizations and state authorities manage these new ways of thinking and acting Recent historiography has almost completely ignored the ways in which death created such immense social change in China Now *Scythe and the City* corrects this problem Christian Henriot s pioneering and original study of Shanghai between 1865 and 1965 offers new insights into this crucial aspect of modern society in a global commercial hub and guides readers through this tumultuous era that

Political Economy of Change and The Rise of Empires The Political Economy of Innovation Heroines of the Qing Binbin Yang, 2016-04-01 Heroines of the Qing introduces an array of Chinese women from the eighteenth and nineteenth centuries who were powerful active subjects of their own lives and who wrote themselves as the heroines of their exemplary stories. Traditionally exemplary women lienu heroic martyrs chaste widows and faithful maidens for example were written into official dynastic histories for their unrelenting adherence to female virtue by Confucian family standards. However despite the rich writing traditions about these women their lives were often distorted by moral and cultural agendas. Binbin Yang drawing on interdisciplinary sources shows how they were able to cross boundaries that were typically closed to women boundaries not only of gender but also of knowledge economic power political engagement and ritual and cultural authority. Yang closely examines the rhetorical strategies these exemplary women exploited for self representation in various writing genres and highlights their skillful negotiation with and appropriation of the values of female exemplarity for self empowerment.

Inked Elad Alyagon, 2025-04-01 **Inked** is a social history of common soldiers of the Song Dynasty most of whom would have been recognized by their tattooed bodies. Overlooked in the historical record tattoos were an indelible aspect of the Song world and their ubiquity was tied to the rise of the penal military complex a vast system for social control warfare and labor. Although much has been written about the institutional strategic and political aspects of the history of the Song and its military this book is a first of its kind investigation into the lives of the people who fought for the state. Elad Alyagon examines the army as a meeting place between marginalized social groups and elites. In the process he shows the military to be a space where a new criminalized lower class was molded in a constant struggle between common soldiers and the agents of the Song state. For the millions of people caught in the orbit of this system the tattooed soldiers their families and their neighbors the Song period was no age of benevolence but one of servitude violence and resistance. **Inked** is their story.

Politics, Poetics, and Gender in Late Qing China Nanxiu Qian, 2015-05-06 In 1898 Qing dynasty emperor Guangxu ordered a series of reforms to correct the political economic cultural and educational weaknesses exposed by China's defeat by Japan in the First Sino Japanese War. The Hundred Days Reform has received a great deal of attention from historians who have focused on the well known male historical actors but until now the Qing women reformers have received almost no consideration. In this book historian Nanxiu Qian reveals the contributions of the active optimistic and self sufficient women reformers of the late Qing Dynasty. Qian examines the late Qing reforms from the perspective of Xue Shaohui a leading woman writer who openly argued against male reformers approach that subordinated women's issues to larger national concerns instead prioritizing women's self improvement over national empowerment. Drawing upon intellectual and spiritual resources from the freewheeling xianyuan worthy ladies model of the Wei Jin period of Chinese history 220-420 and the culture of women writers of late imperial China and open to Western ideas and knowledge Xue and the reform minded members of her social and intellectual networks went beyond the inherited Confucian pattern in their

quest for an ideal womanhood and an ideal social order Demanding equal political and educational rights with men women reformers challenged leading male reformers purpose of achieving national wealth and power intending instead to unite women of all nations in an effort to create a just and harmonious new world
