What Was The World Of Jesus A Journey For Curious Pilgrims:

What Was the World of Jesus? Carl Roemer, 2014-06-06 In some ways the Gospels are like the text of a drama If you ve read the script of a play and then seen it performed you realize how different a text can be interpreted when it is transferred from page to stage All of the Gospels were originally read aloud to an audience that was intimately familiar with the background and that gave the words immediacy meaning and vibrancy In today s world we are no longer privy to that scenery In order to fully grasp the message of the gospels we must bring that context to our minds eyes as much as possible What Was the World of Jesus A Journey for Curious Pilgrims seeks to provide the necessary scenery so that the Gospels can again be heard in a way that is closer to the experience of that original audience hearing them read aloud Author Carl Roemer presents it in the form of a journey or pilgrimage leading us on an adventure into a world that is very different from our own world On this journey we can encounter the story behind the story a background that opens up a fresh new experience of the Gospels and shares the words and actions of Jesus as they were experienced by early Christians

Invading the Realm of Demons, Disease, and Death Carl E. Roemer, 2024-01-29 This study of the miracles attributed to Jesus in the Gospels begins with a survey of the sciences because in our present cultural context materialism is the dominant approach to and understanding of our world of history and of our very selves If the materialist s understanding is true then there is no such thing as miracles because every event must occur as the result of some previous material events Contemporary biblical scholarship mostly approaches the miracle stories from a materialist point of view It questions their historicity because they violate what has now become the entrenched modus operandi in our culture and society operating with the idea that the universe is a closed nexus of cause and effect The miracles are understood then as products of the community and not historical reports although according to this line of scholarship they may be based on some vague recollection of Jesus s activity that somehow had healing effects Modern science however as one scientist has put it in climbing the mountain of knowledge has reached its peak and found a theologian at the top The sciences in other words have led to the implication that our universe has a creator and that the universe and the human genome have been designed
