Jane Buckingham, 2009-03-17 Finished book mailing to marketing professors *Activity Report of the Committee on Energy and Commerce of the U.S. House of Representatives ... Together with Dissenting Views* United States. Congress. House. Committee on Energy and Commerce, 2014 **50 years after the perceptron, 25 years after PDP:**

Neural computation in language sciences Julien Mayor, Pablo Gomez, Franklin Chang, Gary Lupyan, 2014-08-11 This Research Topic aims to showcase the state of the art in language research while celebrating the 25th anniversary of the tremendously influential work of the PDP group and the 50th anniversary of the perceptron Although PDP models are often the gold standard to which new models are compared the scope of this Research Topic is not constrained to connectionist

models Instead we aimed to create a landmark forum in which experts in the field define the state of the art and future directions of the psychological processes underlying language learning and use broadly defined We thus called for papers involving computational modeling and original research as well as technical philosophical or historical discussions pertaining to models of cognition We especially encouraged submissions aimed at contrasting different computational frameworks and their relationship to imaging and behavioral data

A Leader's Destiny Elias Aboujaoude, 2024-05-21 A psychiatrist puts leadership on the couch with a provocative exploration of its crucial often ignored psychological and personal character foundations Elias Aboujaoude's distinctive exploration of leadership explains how our cultlike obsession with leadership gives narcissists and sociopaths an edge and results in leadership failure everywhere we look and how resisting the imperative to rise at all costs leaves many with an inferiority complex His takedown of the leadership industrial complex pokes a very sharp elbow into an industry seemingly united in a modern form of alchemy to create leadership gold a waste of time and money Aboujaoude vividly illustrates since leaders emerge from a unique combination of personal psychological and situational factors that cannot be easily controlled or manipulated no matter how gifted the executive coach This bracing take on a classic subject provides new insight into the way psychology aligns with the requirements of effective and happy leadership The result is to empower us to understand ourselves and step up if we have what it takes to lead or find equally rewarding often superior ways to achieve fulfillment if we don't
