*Women Escaping Violence* Elaine J. Lawless, 2013-03-07 The statistics are alarming Some say that once every nine minutes a woman in the United States is beaten by her spouse or partner Others claim that once every four minutes a woman in the world is beaten by her spouse or partner More women go to emergency rooms in the United States for injuries sustained at the hands of their spouses and partners than for all other injuries combined Shelters for battered women are filled beyond capacity every single day of the year Despite the overwhelming evidence that violence in our homes is a daily reality most of us are not willing to acknowledge this private violence or talk about it openly *Women Escaping Violence* brings women's stories to the attention of the academy as well as the reading public While we may be unwilling or unable to talk about the issue of battered women many of us are ready to read what women have to say about their endangered lives Considerable scholarship is emerging in the area of domestic violence including many self help books about how to identify and escape abuse *Women Escaping Violence* offers the unique view of battered women's stories told in their own words as well as a feminist analysis of how these women use the power of narrative to transform their sense of self and regain a place within the larger society Lawless shares with the reader the heart wrenching experiences of battered women who have escaped violence by fleeing to shelters with little more than a few items hastily shoved into a plastic bag and often with small children in tow The book includes women's stories as they are told and retold within the shelter in the presence of other battered women and of caregivers It analyzes the uses made of these narratives by those seeking to counsel battered women as well as by the women themselves

**Save the Males** Kathleen Parker, 2010-11-09 With piercing wit and perceptive analysis Pulitzer Prize winning writer Kathleen Parker explores how men maleness and fatherhood have been under siege in American culture for decades She argues that the feminist movement veered off course from its original aim of helping women achieve equality and ended up making enemies of men The pendulum has swung from the reasonable middle to a place where men have been ridiculed in the public square and the importance of fatherhood has been diminished all to the detriment of women and children who ultimately suffer most Exploring our burgeoning culture of permissiveness and the impact of anti male attitudes on families and relationships Kathleen Parker tackles some of the more taboo subjects in today's sexual politics and culture wars that will have America talking about saving the males

Next Time, She'll Be Dead Ann Jones, 2015-09-01 Whether you re an individual woman looking for help or a reader looking for the truth about the thousands of women who are battered by the men they live with Next Time She ll Be Dead is the one book you should read Gloria Steinem At least 1 in 4 women will be abused during her lifetime that is 25% of our mothers daughters sisters partners and friends Thousands will be killed As author Ann Jones observes despite its devastation battering is regarded not as a serious crime but instead as an inevitable problem blandly labeled domestic violence Stories of household assaults and murders are all over the news but the blame is usually pinned on the woman who is said to have either provoked the attack or failed to leave In this groundbreaking book Jones points instead to the many factors in society that promote trivialize and perpetuate brutality against women from popular psychology academic expertise mass media and pop culture to the criminal justice system and the law itself Delving deep into the history legality and personal politics of male violence against wives and girlfriends Next Time She ll Be Dead fearlessly reframes the issue This critically acclaimed masterwork offers productive ways of thinking and speaking about battering and explains what must be done to stop it

*Dead Woman Walking* Anette Ballinger, 2019-05-24 This title was first published in 2000 Between 1900 and 1950 130 women were sentenced to death for murder in England and Wales Only 12 of these women were actually executed Thus 91 per cent of women murderers had their sentence commuted whereas if we examine the corresponding figures for men only 39 per cent had their sentence commuted It would appear that state servants working within the criminal justice system were far more reluctant to hang women than men However this text argues that a closer examination of this apparent discrepancy reveals it to be a misconception which has come about as a result of the statistics regarding infanticide That is to say unlike men the vast majority of women murderers have killed their own child or children Once this is taken into account we find that women who had murdered an adult had less hope of a reprieve than men Thus

the author shows that the large proportion of women murderers as killers of their own children has created a false impression of how female murderers fared inside the criminal justice system      *Death, Gender and Sexuality in Contemporary Adolescent Literature* Kathryn James, 2009-02-10 Considering the trope of woman death the eroticizing of death and the ways in which the gendered subject is represented in dialogue with the processes of death dying and grief James shows how representations of death in young adult literature are invariably associated with issues of sexuality gender and power
