When Walking Fails Lisa Iezzoni, 2003-06-10 An upbeat hopeful guide for people who have trouble walking ranging from those who have difficulty walking more than a few yards to the wheelchair bound

When Walking Fails Lisa Iezzoni, 2003-06-10 Roughly one in ten adult Americans find their walking slowed by progressive chronic conditions like arthritis back problems heart and lung diseases and diabetes In this passionate and deeply informed book Lisa I Iezzoni describes the personal experiences of and societal responses to adults whose mobility makes it difficult for them to live as they wish partly because of physical and emotional conditions and partly because of persisting societal and environmental barriers Basing her conclusions on personal experience a wealth of survey data and extensive interviews with dozens of people from a wide social spectrum Iezzoni explains who has mobility problems and why how mobility difficulties affect people's physical comfort attitudes daily activities and relationships with family and friends throughout their communities strategies for improving mobility and how the health care system addresses mobility difficulties providing and financing services and assistive technologies Iezzoni claims that although strategies exist to improve mobility many people do not know where to turn for advice She addresses the need to inform policymakers about areas where changes will better accommodate people with difficulty walking This straightforward and engaging narrative clearly demonstrates that improving people's ability to move freely and independently will enhance overall health and quality of life not only for these persons but also for society as a whole

When the State Kills Austin Sarat,2018-06-05 Is capital punishment just Does it deter people from murder What is the risk that we will execute innocent people These are the usual questions at the heart of the increasingly heated debate about capital punishment in America In this bold and impassioned book Austin Sarat seeks to change the terms of that debate Capital punishment must be stopped Sarat argues because it undermines our democratic society Sarat unflinchingly exposes us to the realities of state killing He examines its foundations in ideas about revenge and retribution He takes us inside the courtroom of a capital trial interviews jurors and lawyers who make decisions about life and death and assesses the arguments swirling around Timothy McVeigh and his trial for the bombing in Oklahoma City Aided by a series of unsettling color photographs he traces Americans evolving quest for new methods of execution and explores the place of capital punishment in popular culture by examining such films as Dead Man Walking The Last Dance and The Green Mile Sarat argues that state executions once used by monarchs as symbolic displays of power gained acceptance among Americans as a sign of the people's sovereignty Yet today when the state kills it does so in a bureaucratic procedure hidden from view and for which no one in particular takes responsibility He uncovers the forces that sustain America's killing culture including overheated political rhetoric racial prejudice and the desire for a world without moral ambiguity Capital punishment Sarat shows ultimately leaves Americans more divided hostile indifferent to life's complexities and much further from solving the nation's ills In short it leaves us with an impoverished democracy The book's powerful and sobering conclusions point to a new abolitionist politics in which capital punishment should be banned not only on ethical grounds but also for what it does to Americans and what we cherish
