The Spirit of Leadership Harrison Owen, 1999-03-26 The business world is desperate for leaders Books and courses on leadership flood the market as companies search in vain for that one person who can make sense of their rapidly changing environment through assertiveness charisma and control According to noted consultant Harrison Owen our inability to locate such a person isn't the fault of our leaders it's the fault of our expectations In today's world where chaos is normal and paradoxes can't be resolved such old style leaders no longer offer the solution Today's world requires inspired leadership from all levels of the organization Inspired leadership literally means in spirited leadership and this book explores the intimate connection between spirit and leadership it implies It presents the radical notion that spirit is the most important ingredient of any organization and that leadership means opening space for that spirit to show up in powerful and productive ways The Spirit of Leadership lays out the New Rules of Leadership rules which surprisingly turn organizations have always played by For the keys to these new rules the book turns to those who have always successfully operated apart from the levers of formal power and authority women Offering lessons from effective female strategies it reveals the true functions of leadership to evoke grow sustain comfort and raise the spirit Not to be confused with morale building motivational techniques or even the current fad of spirituality in business The Spirit of Leadership digs deeper to show that at its essence leadership is our link to deep inner forces It provides practical steps readers can use to uncover their own capacity for leadership in whatever position they find themselves and to exercise that capacity both to enhance the performance of their organizations and to find their own fulfillment as complete human beings

Her Turn Vicki Donlan, Helen French Graves, 2007-09-30 It's time for women to take charge says successful businesswoman Vicki Donlan In a spirited call to action she covers the challenges opportunities prospects and emerging roles for female leaders in a wide spectrum of fields including business politics education healthcare law and nonprofits Best she buttresses her points through original interviews with women leaders in many fields including Teresa Heinz Kerry Chairman Heinz Family Philanthropies

Gail Deegan Board Member TJX Companies and EMC and Ann Caldwell Chair Commission on Women in Higher Education American Council on Education This book both guide and manifesto offers both women and men a blueprint for establishing a new model of leadership that can take advantage of the skill passion and wisdom of women everywhere Familiar statistics demonstrate the continued inequality in pay between women and men the dearth of women on the boards and in the executive suites of major corporations and the challenges that women face in breaking down barriers in politics science law healthcare and other male dominated professions As Donlan reminds us women have always had to fight to gain access to basic privileges such as education and the right to vote And yet dig deeper and the numbers are beginning to tell a different story For example women currently start two out of every three new businesses Once started women owned businesses are more likely to be in operation at the crucial make or break five year mark and less likely to be in debt than those established by men A recent study finds that the most profitable Fortune 100 companies are those with women on the board and networks are developing to raise funds for women political candidates who are beating their male opponents with increasing regularity In short women have the numbers talents determination and willingness to lead and a groundswell that has the potential to result in dramatic change is building Drawing from interviews with dozens of pioneers in business politics education healthcare philanthropy and other fields Donlan argues that women are poised to shatter the glass ceiling but only if they start working together to make it happen This is a historic time As this book argues if women organize more effectively the emergence of a new model of leadership one that includes women at the highest reaches of society is inevitable
