Where Have All the Textbooks Gone? Tony Read, 2015-07-22 This World Bank report is a rich compilation of information on teaching learning materials TLM in Africa based on the extensive and multi faceted experience of the author s work in the education sector in Africa The study examines a wide range of issues around TLM provision including curriculum literacy and numeracy language of instruction policy procurement and distribution challenges TLM development and production and their availability management and usage in schools It also looks at the role of information and communication technology ICT based TLMs and their availability The study recognizes that improved TLM system management is a critical component in achieving affordable and sustainable TLM provision for all students This study which draws from more than 40 Anglophone Francophone Lusophone and Arabic speaking countries will be particularly useful for policymakers development partners and other stakeholders attempting to understand the wide range of issues surrounding the complexity of textbook provision in Sub Saharan Africa

Books in the Digital Age John B. Thompson, 2013-10-21 The book publishing industry is going through a period of profound and turbulent change brought about in part by the digital revolution What is the role of the book in an age preoccupied with computers and the internet How has the book publishing industry been transformed by the economic and technological upheavals of recent years and how is it likely to change in the future This is the first major study of the book publishing industry in Britain and the United States for more than two decades Thompson focuses on academic and higher education publishing and analyses the evolution of these sectors from 1980 to the present He shows that each sector is characterized by its own distinctive logic or dynamic of change and that by reconstructing this logic we can understand the problems challenges and opportunities faced by publishing firms today He also shows that the digital revolution has had and continues to have a profound impact on the book publishing business although the real impact of this revolution has little to do with the ebook scenarios imagined by many commentators *Books in the Digital Age* will become a standard work on the publishing industry at the beginning of the 21st century It will be of great interest to students taking courses in the sociology of culture media and cultural studies and publishing It will also be of great value to professionals in the publishing industry educators and policy makers and to anyone interested in books and their future

The No Shelf Required Guide to E-book Purchasing Sue Polanka, 2011-12 Library Technology Reports vol 47 no 8 According to recent studies e book penetration in libraries of all types is rising rapidly Creating or expanding an e book collection is a complicated challenge In addition to facing the same challenges a librarian would face in developing a print collection librarians developing an e book collection also face a host of unprecedented legal technological and vendor challenges This issue of Library Technology Reports will examine these challenges focusing on strategies for purchasing e books in a consortium working with vendors implementing e reader programs in an academic environment and purchasing electronic textbooks Although the challenges are significant this issue

will show how they can be overcome and how the effort it takes to develop an e book collection is well worth the effort

International Book Publishing: An Encyclopedia Philip G. Altbach, Edith S. Hoshino, 2015-05-08 First Published in 1996

This encyclopedia is unique in several ways As the first international reference source on publishing it is a pioneering venture Our aim is to provide comprehensive discussion and analysis of key subjects relating to books and publishing worldwide The sixty four essays included here feature not only factual and statistical information about the topic but also analysis and evaluation of those facts and figures The chapters are significantly more comprehensive than those typically found in an encyclopedia

Getting Textbooks to Every Child in Sub-Saharan Africa Birger Fredriksen, Sukhdeep Brar, 2015-05-22 Textbooks play a key role in enhancing the quality of learning especially in the context of low income Sub Saharan African SSA countries characterized by large class size poorly motivated and inadequately trained teachers and short effective school years There are also high rates of illiteracy among parents and few reading materials at home for the student to bank on Despite extensive investments by governments the World Bank and other development partners the majority of students in primary and secondary schools in SSA still lack the benefit of access to textbooks and the key reason for this shortage is affordability textbooks are generally much more costly in SSA than in other developing regions The need to increase access to key learning resources is of particular urgency because most African countries experience low learning outcomes which in part contributes to a high drop out rate Only two thirds of those who enter school reach the final grade and only about half of these master basic numeracy and literacy skills And although quality improvement depends on many factors inside and outside the school there is wide agreement that availability of textbooks is both an indispensable and a cost effective way of improving the quality of the learning process A recent World Bank study examined the actual costs of textbooks the scope for cost reduction the portion of a national budget countries allocate to teaching and learning materials TLMs and hurdles in the way of making textbooks available to student Some interesting findings from the study The availability of affordable textbooks to all students could be dramatically improved by devoting an estimated 3 to 4 percent of the primary education budget and 6 to 7 percent of the secondary education budget The production process methods copyright length of print runs effective procurement practices rather than the production costs should be the target of cost saving strategies The increased integration of ICTs into education in SSA can provide important opportunities for promoting availability of electronic TLMs but electronic TLMs are not a substitute for printed TLMs including textbooks

Whitewashing War Christopher Leahey, 2015-04-24 *Whitewashing War* explores perhaps the most critical issue social studies educators presently face How do we teach our students about war In this timely book Christopher Leahey investigates how the political struggles over the social studies curriculum the corporate domination of the textbook and testing industry and the curricular constraints of the No Child Left Behind Act combine to stifle historical inquiry and deprive students of meaningful social studies instruction Using the controversial Vietnam War as a case study Leahey holds textbook narratives up to the light illuminating how the adoption process interpretive framework and selection of evidence combine to transform the past into thinly veiled historical myths By attending to questions traditionally ignored in history education this dynamic book Challenges educators to rethink their pedagogical approaches to military conflict American and otherwise Calls on teachers to develop students critical sensibilities to ask questions conduct research evaluate evidence and make meaning of the past Provides classroom lessons for history educators and students to engage in rich intellectual encounters with the historical record Christopher R Leahey teaches world history in upstate New York His articles have appeared in *Social Education* and *The Social Studies* If students are to be prepared for the challenges of the 21st century then we need to provide inspired interdisciplinary instruction that can provide the skills values and knowledge to enable our future citizens with the possibility promise and perspective to transform their world *Whitewashing War* provides that solid interdisciplinary framework for teachers and students to teach and learn about the myth of war Critical Education Leahey echoes a concern expressed by others that history textbooks fail to address the realities of war CHOICE The crowning achievement of *Whitewashing War* is that it clearly illustrates the necessity of pursuing rational answers about why things are as they are or were as they were It becomes clear upon reading this book that if we help our students pursue rational answers in the course of creating personally meaningful understandings of the world they will figure out just what it is that needs to be done From the Foreword by E Wayne Ross University of British Columbia The author has done a masterful job of exploring issues of historiography pedagogy textbook debates and critical thinking Through a deep examination of two historical turning points in the Vietnam War he has contrasted the known facts of these periods with the accounts contained in the textbooks Rick Ayers Graduate School of Education UC Berkeley A passionate and powerful analysis Christopher Leahey provides penetrating insight into how Americans teach about their wars As such his book is an invaluable aid to understanding the past and its connection to our current predicament Fredrik Logevall Cornell University *Whitewashing War* challenges the fundamental assumptions underlying the corporate regime of standards textbooks and testing and exposes the distortions

manipulation and lies that result Leahey builds a compelling case for critical inquiry and dialogue Highly recommended Ronald W Evans San Diego State University author of *The Social Studies Wars* **Textbooks and School Library Provision in Secondary Education in Sub-Saharan Africa** World Bank,2008-02-15 This study is based on research on secondary textbook and school library provision in Botswana Cameroon Cote d Ivoire Ghana Kenya Malawi Rwanda Tanzania and Togo as well as existing recent country reports on textbook provision and an extensive desk research Considerable variations exist in Sub Saharan African textbook requirements needed to meet secondary curriculum specifications just as significant differences exist between and within countries in regard to the average price of recommended textbooks Some countries have no approved textbooks list This World Bank Working Paper aims to discuss the textbook situation in Sub Saharan Africa with a special focus on secondary textbook availability cost and financing distribution and publishing and the status of school libraries Its objective is to analyze the issues in secondary textbook and school library provision and to provide some options and strategies for improvement *How to Market Books* Alison Baverstock,2015-02-11 Baverstock is to book marketing what Gray is to anatomy the undisputed champion Richard Charkin Executive Director of Bloomsbury Publishing and President Elect of the International Publishers Association Over four editions Alison Baverstock s *How to Market Books* has established itself as the industry standard text on marketing for the publishing industry and the go to reference guide for professionals and students alike With the publishing world changing like never before and the marketing and selling of content venturing into uncharted technological territory this much needed new edition seeks to highlight the role of the marketer in this rapidly changing landscape The new edition is thoroughly updated and offers a radical reworking and reorganisation of the previous edition suffusing the book with references to online digital marketing The book maintains the accessible and supportive style of previous editions but also now offers a number of new case studies detailed coverage of individual market segments checklists and summaries of key points several new chapters a foreword by Michael J Baker Professor Emeritus of Marketing Strathclyde University College Text Books Cornelia M.
