World Within Our Own The Elves:

World Within Our Own Razi Ebadi Blakley, 2014-05-19 This is fictional history of dragons mystical spirits entities of light supernatural aquatic creatures spirits of nature and horrifying demons Furthermore it is a tale of magical and extraordinary beings that have come to earth from the stars and placed a giant mirror in front of our faces and souls and have asked us to stop and take a look and see whom we have become and where we are going from this point on As all maestros before them they have raised their arms and are showing us the path to a better world where war and horror is not source of entertainment and are setting the stage to path of righteousness Millions of stars glowing in the heavens and we look up searching for a better world when we already have one a beautiful blue marble suspended in space and dancing around the Galaxy pulsing with 8 7 million species of life My imagination never stops I see entities of light and magical creatures everywhere I go in the air dancing in the fire roaming the forests and playing in oceanic cities Hold my hand and let me take you there

Evil in the Christian Fantasy of C.S. Lewis and J.K. Rowling Sarah Fiona Winters, 2024-10-29 Evil in the Christian Fantasy of C S Lewis and J K Rowling From the White Witch to the Dark Mark argues that The Chronicles of Narnia and Harry Potter series are essential reading for anyone committed to understanding the cultural constructions of evil in twentieth century Europe and the strategies of resistance available to different types of readers in response to those evils This book also suggests that while the construction of evil in both series can and should be approached through a secular lens it cannot be fully understood without a complementary understanding of religious transcendence Sarah Fiona Winters explores the tension between theological evil on the one hand and naturalist and politico historical representations of evil on the other and the tension within both the explicitly religious and the apparently secular between dualism the belief that good and evil both exist and are locked in combat and the belief in orthodox Christianity that evil is nothing She examines the developments in theories about evil that arose from the experience of the Second World War particularly those of Hannah Arendt and Stanley Milgram in 1963 arguing that Lewis presented obedience as a strategy against evil because he wrote before their work while Rowling presents disobedience as a strategy against evil as she wrote after their work
