Whats Wrong With Homosexuality Philosophy In Action:

What's Wrong with Homosexuality? John Corvino, 2013-04-04 For the last twenty years John Corvino has traversed the US responding to moral and religious arguments against same sex relationships In this timely book he shares that experience both by addressing the standard objections and by offering insight into the culture wars more generally In the process he makes a fresh case for moral engagement forcefully rejecting the idea that morality is a private matter **Teens & LGBT Issues** Hal Marcovitz, 2014-09-02 Over the past few decades landmark legal cases medical discoveries and movies and television shows have helped increase acceptance of homosexuality in American culture Young peoples opinions have played an important part in this growing tolerance Studies show that more than 60 percent of young adults consider homosexuality acceptable This volume will examine teen attitudes toward homosexuality issues such as gay marriage and civil unions and the experiences of gay teens Disordered Actions John Skalko, 2021-12-01 The first two decades of the twenty first century witnessed a rapid change in Western societal acceptance of homosexual activity This change however remains fundamentally unstable unless founded upon an adequate moral theory Today many within the Western world assume that any argument against homosexual activity must be founded upon religious premises This book questions that narrative for the history of philosophical thought manifests a strong non religious consensus against such practices This book bridges the gap within current philosophical scholarship by painstakingly examining the non religious argument as found within the great philosopher Thomas Aquinas In the process the author advances a novel claim the traditional account against homosexual activity also applies to untruthful assertive speech acts Lying and homosexual activity are both wrong for mutually illuminating reasons **Moral Choices** Scott B. Rae, 2009 Now in its third edition this foremost college ethics text helps students form a basis for practical ethical decision making in contemporary culture Substantial updates and revisions include a new chapter on ethics and economics online resources for instructors current case studies new material on bioethics and stem cell research and more Kpim of Morality Pantaleon Iroegbu, Anthony Onyebuchi Echekwube, 2005 The Kpim refers to the quintessence of a given reality hence in this context the central ethical questions that govern human life With reference to the particular African context and drawing on African philosophical and cultural traditions this broad ranging work discusses the major ethical questions pertaining to public and private spheres of life It is divided into sections on general ethics special ethics professional ethics education ethics business ethics life ethics bio ethics medical ethics and gene ethics Examples of the themes addressed are ethics in traditional African society the ethics of African values and the ethics of the chieftancy culture the ethics of globalisation and the ethical imperative for world peace and ethics and health care in the developing world **Locke and the Legislative Point of View** Alex Tuckness, 2009-02-09 Determining which moral principles should guide political action is a vexing question in political theory This is especially true when faced with the toleration paradox believing that something is morally wrong but also believing that it is wrong to suppress it In this book

Alex Tuckness argues that John Locke's potential contribution to this debate what Tuckness terms the legislative point of view has long been obscured by overemphasis on his doctrine of consent Building on a line of reasoning Locke made explicit in his later writings on religious toleration Tuckness explores the idea that we should act politically only on those moral principles that a reasonable legislator would endorse someone that is who would avoid enacting measures that could be self defeating when applied by fallible human beings Tuckness argues that the legislative point of view has implications that go far beyond the question of religious toleration Locke suggests an approach to political justification that is a provocative alternative to the utilitarian contractualist and perfectionist approaches dominating contemporary liberalism The legislative point of view is relevant to our thinking about many types of disputed principles Tuckness writes He examines claims of moral wrong invocations of the public good and contested political roles with emphasis on the roles of legislators and judges This book is must reading not only for students and scholars of Locke but all those interested in liberalism toleration and constitutional theory

[Alcibiades at the Door](#) Lawrence R. Schehr, 1995 Focusing on works by Rene Crevel Jean Paul Sartre Roland Barthes and Herve Guibert this book studies how the figures of homosexuality function at the limits of narrative as part of the deep structure of narrative and at the border between public and private discourse The first three chapters follow the difference between inside and outside between public and private between what is known and what can only be surmised The homosexual Rene Crevel who is both inside Surrealism and outside it forces us to reread the marginalized figure of homosexuality in Surrealism Crevel is discussed in light of his most important work *Mon corps et moi* a sustained effort to negotiate the problems of public and private personae Long before concentrating on Jean Genet Jean Paul Sartre often turned to the subject of homosexuality in his writings of the 1930s and 1940s The figures and forms of homosexuality in Sartre's work are shown to relate to a phenomenology of

perception to a persistence of the relation between vision and knowledge and to a set of narrative ploys that put Sartre's own relation to homosexuality in a new light. The last of these three chapters focuses on Roland Barthes with a retrospective glance at Andre Gide through an examination of their travel and confessional writings. Discourses of homosexuality are related to discourse about social power, dominant structures, and a model of colonialism. The final chapter examines the AIDS-related works of Herve Guibert, which are both a meditation on and an exploration of AIDS that most public of private phenomena. It also examines the changing relation between public and private between the outside world and Guibert's inner world and between the singularity of literary writing and the nomothetic nature of the public document, all of which change in a world and in an individual affected by AIDS.

Postmodern Philosophy and Law Douglas E. Litowitz, 1997. The author presents a two-tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists, notably Friedrich Nietzsche, Michel Foucault, Jacques Derrida, Francois Lyotard, and Richard Rorty. He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases, it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system.

The Dove, the Fig-Leaf and the Sword Alan Billings, 2014-05-15. Why does the pacifist movement of the first few centuries so quickly become an organization that supports emperors and finds reasons for fighting? What leads the Church to formulate just war principles only to abandon them when in pursuit of heretics and infidels? What impact did two world wars have on Christian thinking? Why have the churches in more recent years and a more secular age apparently taken a more cautious approach to war? These are the sort of questions this absorbing book sets out to answer. It makes a unique and intriguing contribution to the literature published to mark the centenary of the outbreak of the Great War in August 2014.

Ludwig Wittgenstein Miles Hollingworth, 2018-09-04. After his intellectual biography *Saint Augustine of Hippo*, Miles Hollingworth now turns his attention to one of Augustine's greatest modern admirers. The Austrian philosopher Ludwig Wittgenstein. Wittgenstein's influence on post-war philosophical investigation has been pervasive, while his eccentric life has entered folklore. Yet his religious mysticism has remained elusive and undisturbed. In *Ludwig Wittgenstein*, Hollingworth continues to pioneer a new kind of biographical writing. It stands at the intersection of philosophy, theology, and literary criticism and is as much concerned with the secret agendas of life writing as it is with its subjects. Here Wittgenstein is allowed to become the ultimate test case. From first to last, his philosophy sought to demonstrate that intellectual certainty is a function of the method it employs rather than a knowledge of the existence or non-existence of its objects, a devastating insight that appears

to make the natural and the supernatural into equally useless examples of each other This biography proceeds in the same way Scattered in every direction by this challenge to meaning it attempts to retrieve itself around the spirit of the man who could say such things This act of recovery thus performs what could not otherwise be explained which is something like Wittgenstein's private conversation with God
