When Better Isn't Enough Evaluation Tools For The 21st Century Church:

When Better Isn't Enough Jill M. Hudson, 2004-02 Many sociologists and a growing number of church scholars have noted that we live in a time of transition from the modern era to the postmodern. Whenever a shift of this magnitude occurs it leaves all of life including the church in flux. We instinctively strive to stabilize the situation by re-establishing what has worked in the past. Increasingly however congregations are finding that the same old things done harder or better don't seem to make a difference. Author Jill Hudson argues We must identify new criteria for success and perhaps even for faithfulness and hold ourselves accountable to them. Approaching the postmodern era as a tremendous opportunity Hudson identifies 12 characteristics by which we can measure effective ministry for the early 21st century. Based on those 12 criteria Hudson has created evaluation tools an early measuring stick to help congregations evaluate their work in this new era. Not everything of the past is ineffective and best discarded she says nor will everything we try in the future be successful. But by faithfully listening for God's guidance and carefully evaluating progress using Hudson's tools looking at the ministry of the whole people of God as well as that of the professional staff congregations can improve their ministry help members and staff grow in effectiveness deepen a sense of partnership and add new richness to the dialogue about the congregation's future.

The Calling of Congregational Leadership Larry L. McSwain, 2013-05-30 Leading is a calling from God but that doesn't mean it is easy. The good news is that others have gone before you. Author Larry L. McSwain's forty years of experience can help guide you through these choices. education in seminaries and divinity schools across North America pass on their wisdom to both students and their supervisors Edited by Matthew Floding director of field education at Western Seminary in Holland Michigan this volume covers critical topics such as the art of supervision and formation the use of case studies and peer reflection groups self care and ministerial ethics and assessment Formation for ministry is especially challenging at this time in the church s life First the explosion of knowledge pluralism and consumerism and a host of other complicating factors make huge demands on what a minister must know to be effective in ministry Second with the erosion of thick religious subcultures the novice minister has fewer sources of practical wisdom to draw upon The next generation of ministers if they are to be more fully formed for ministry depends on skilled mentoring alongside wise supervisors This book is the tool to help them make the most of their field education experience

Governance and Ministry Dan Hotchkiss,2009-04-15 In Governance and Ministry Dan Hotchkiss offers congregational leaders a roadmap and tools for changing the way boards and clergy work together to lead congregations Hotchkiss demonstrates that the right governance model is the one that best enables a congregation to fulfill its mission to achieve both the outward results and the inward quality of life to which it is called Resources on governance for the nonprofit sector have burgeoned over the past decade and this book translates some of what is most helpful from that world for clergy and lay leaders it also recognizes that in some ways congregations are unique and need governance structures and processes different from those that work in other organizations Leaders must continually balance the conserving function of an institution with the expectation of disruptive change inducting creativity that comes when individuals peek past the temple veil and catch fresh visions of the Holy Governance in congregations is not the science of achieving optimal results through organizational re engineering Governance is an expressive art like preaching The forms of our congregations must reflect the values and perceptions of the sacred at their heart Congregations need skills and methods for negotiating our way of governance and for passing the torch effectively to new leaders

Preparing the Pastors We Need George A. Mason,2012-11-06 Amid the widespread discussion about the future of the church an important point is sometimes overlooked tomorrow s church will depend to a great extent on the new pastors of today who will serve and guide our churches in the years ahead George Mason s *Preparing the Pastors We Need* Reclaiming the Congregation s Role in Training Clergy makes a timely intervention asking us to redefine pastoral leadership by analyzing how in fact pastors are made in the

first place The book highlights an exciting development in the training of pastors pastoral residency programs and mentoring Mason demonstrates that these programs work best when the congregations themselves not just leadership or staff are an active participant in the training In this way churches begin to reclaim their rightful role in the formation of the ministers that will serve them And at the same time they become healthier and more effective churches Mason gives us the analogy of physician training Medical school produces graduates with extensive knowledge of the body but a practicing doctor will require several more years of internship and residency Similarly our seminaries and divinity schools produce men and women with good biblical knowledge but they might not prepare a graduate for the task of helping a bereaved parishioner cope with the sudden loss of a loved one Moreover such areas as finances budgets personnel management and vocational identity are also not well suited to seminary study Mason shows that congregation based mentoring and residency are excellent ways to bridge this gap

Holy Clarity Sarah B. Drummond,2009-06-22 In *Holy Clarity* Sarah Drummond explores the most basic reason leaders of religious organizations conduct evaluations To find and create God pleasing clarity regarding the organization s purpose and the impact of its activities Leadership and evaluation are not separate disciplines she argues Effective leaders evaluate because they need to know what is happening in their organizations and how those activities are effecting change Drummond first describes the way in which our postmodern culture makes clarity difficult to obtain She then looks at holy clarity from a biblical and theological perspective and make the case that it is a spiritual discipline that can stand on its own theological merits She presents four approaches to evaluation that can help a leader to guide a community toward greater clarity both when evaluating or analyzing programs and when planning and starting programs Finally she considers the work of clarification as a faith practice one that can make a pastor or layperson not just a better leader but a better Christian who is more firmly grounded in God Each chapter concludes with a fictional case study that provides a jumping off point for discussion and helps bring her theory to life *Holy Clarity* provides an accessible resource as an entry point for those who are eager to learn the best practices of this crucial discipline

Governance and Ministry Dan Hotchkiss,2016-01-14 *Governance and Ministry* has proven to be an indispensable guide for leaders and clergy on how to work together to lead congregations In this second edition veteran congregational consultant and minister Dan Hotchkiss updates the book to reflect today s church and synagogue landscape and shares practical insights based on his work with readers of the first edition *Governance and Ministry* highlights the importance of reaching the right governance model for a congregation to fulfill its mission to achieve both the outward results and the inward quality of life to which it is called Hotchkiss draws on governance research from business non profits and churches as well as deep experience in a variety of denominations and congregations to help readers determine the governance model that best fits their needs The second edition has been streamlined and reorganized to better help readers think through leadership models and the process of change The book features new material on the implications of congregation size the process of governance change policy

choices and the lay clergy relationship It also features two appendices with resources often requested by Hotchkiss consulting clients a style guide for policy makers and a unified example of a board policy book Written with energy and humor and offering plenty of practical examples the second edition of this helpful resource is ideal for anyone involved in church leadership to assist in framing critical questions creating a vision and implementing a plan **LEADERSHIP**

Criteria for Building Strong Cultures and Spiritually Evaluating Sports Teams Dr. Michael O. Chapman, 2014-07-12 **SUCCESS FROM A SPIRITUAL APPROACH** As a player coach manager or any leader if you want to be a positive influence in your world you must first be a positive influence on your self Ground yourself in the principle that Positive Spiritual Attainment yields positive results As John Heider states in The Tao of Leadership your behavior influences others through a ripple effect A ripple effect works because everyone influences everyone else Powerful people are powerful influences Remember that your influence begins with the Spirit Man inside you and ripples outward So be sure to connect to that nucleus Presented here is a workbook that gives you five perspectives to evaluate your team or organization It Includes over 200 criteria beginning with structure human resources conflict culture and finally the spiritual analysis for evaluating and building your team or organization It is all done for you Acts 3 6 **The Competent Pastor** Ronald D. Sisk, 2005-11-14

What does it mean to say that a pastor is competent And how does a competent pastor function This book is intended to help pastors seminarians and lay people who work with pastors understand and answer these two questions Competence in ministry is a moving target A ministry technique that works in one parish may not work in another What works today may not work five years from now But a competent pastor will be able to adapt to changing locations and changing times A competent pastor will be happy in her job or able to figure out why she s not happy and how to move forward A competent pastor won t get stuck or when he does get stuck he ll know what steps to take to get unstuck Competence defined by author Ronald Sisk as the ability to do what needs to be done requires ministers to understand themselves and others and to keep a realistic perspective on their lives Competent pastors function by moving toward this kind of understanding and perspective
