Benton, Ashington Ludlow and Darius Wells and through the description and history of nine American type foundries working in metal, photo, serigraphic and digital formats. Also contained in this volume are a chronological timeline of type-related events from 1600 to 2000, a comparative type chronology of American and European typefaces from 1620 to 1998, and a comprehensive glossary of type terms. With recreations and histories of 334 different typefaces complete with samplings from both obscure and known publications and 700 black and white illustrations, this reference reveals the full contribution America has made to the world of type design.
