Action Research in Teaching and Learning Lin Norton, 2009-05-07 A practical down to earth guide for those who work in teaching and learning in universities this book will be indispensable reading for those who would like to carry out action research on their own practice Lin S Norton s concept of pedagogical action research has come from over twenty years experience of carrying out such research and more than six years of encouraging colleagues to carry out small scale studies at an institutional national and international level This accessible text illustrates what might be done to improve teaching supporting learning by carrying out action research to address such questions such as What can I do to enthuse my students What can I do to help students become more analytical How can I help students to link theory with their practice What can I do to make my lecturing style more accessible What is going wrong in my seminars when my students don t speak Action Research for Teaching and Learning offers readers practical advice on how to research their own practice in a higher education context It has been written specifically to take the reader through each stage of the action research process with the ultimate goal of producing a research study which is publishable Cognisant of the sector s view on what is perceived to be mainstream research the author has also written a substantial theoretical section which justifies the place of pedagogical action research in relation to reflective practice and the scholarship of teaching and learning

A Toolkit for Action Research Sandra M. Alber, 2010-11-16 This book facilitates the completion of action research studies by providing a series of tasks that guide action researchers from the beginning of a project and selecting a topic for study to completion of the project and editing final reports All too often students and

practicing professionals in professional development schools are overwhelmed by the thought of doing an action research project and resort to using quasi experimental designs A Toolkit for Action Research puts an end to both with the result being a life long learning and reflection tool for teachers This workbook can be used alone or in conjunction with traditional action research texts such as Daniel Tomal s Action Research for Educators **Action Research** S. Michael Putman, Tracy Rock, 2016-12-29 Action Research Using Strategic Inquiry to Improve Teaching and Learning helps educators use research to guide decision making and determine the effectiveness of various instructional strategies The book leads the reader through the action research process using a model of self regulation which focuses on task definition goal setting and planning enacting research and adaption Written specifically for educators who may not feel prepared to measure the impact of interventions on student learning outcomes the book provides very practical and useful tools containing specific examples that are relevant to teachers everyday reality The text also reinforces how action research can improve the teaching and learning process by reinforcing or changing perceptions about the use of informal data including anecdotal notes or observations in the research process The Action Research Guidebook Richard Sagor, 2005 This book is organized around Richard Sagor s four stage process developed from his many years of experience training hundreds of educators The four stages are clarifying visions targets articulating theory implementing action and collecting data reflecting on data and planning informed action The book includes numerous tables charts handouts forms and worksheets to demystify and simplify the action research process Short examples drawn from the author s experience working on one on one with teachers on their action research projects are also included from raising reading proficiency to increasing the problem solving capacity of faculty members The author shows how teacher teams can work collaboratively to identify and research problems related to the school s goals Appropriate for use by individual teachers and teacher teams as well as by pre service teachers in teacher education courses Headteachers counsellors and other educators will also find the action research process useful for school improvement *ACTION RESEARCH A KEY TO EVIDENCE BASED TEACHING & LEARNING* Dr. Jayashree Inbaraj, 2018-07-25 The concept of action research can be traced back to the works of John Dewey in the 1920s and Kurt Lewin in the 1940s The idea of using research in a natural setting to change the way that the researcher interacts with that setting was traced back to Kurt Lewin Kurt Lewin was credited for coining the term action research to describe work that did not separate the investigation from the action needed to solve the problem Kurt Lewin is generally considered the father of action research A German social and experimental psychologist and one of the founders of the Gestalt school he was concerned with social problems and focused on participative group processes for addressing conflict crises and change generally within organizations Stephen Corey was the first to use action research in the field of education **Action Research for the Classroom** Máirín Glenn, Bernie Sullivan, Mary Roche, Caitriona McDonagh, 2023-05-02 What is action research Why does it matter in education This practical and accessible book provides answers to these questions guiding

readers through a meaningful and manageable approach to research in practice Readers will benefit from guidance on easing the stress of research projects in teacher education courses professional development initiatives and in school self evaluation Supported by case studies from teachers and student teachers practice chapters guide readers through key aspects of carrying out a research project including planning a research project collecting and using data presenting evidence generating theory writing up and disseminating your research a theoretical rationale to show why the research is conducted in this way Written in an accessible manner by experienced classroom teachers and academic researchers this is an essential read for those conducting research on their own practice as part of their professional learning Action Research for the Classroom shows how teacher research is drawn from the reality of busy life in the classroom and that it can be undertaken in the most complex learning environments creating positive change for teaching and learning

Action Research Craig A. Mertler, 2009 Action Research Second Edition introduces practicing teachers to the process of conducting classroom based action research The book s practicality stems from its focus on research methods and procedures that teachers can use with their everyday instructional practices and classroom activities Detailed practical information is included for teachers as they design and conduct applied classroom based research projects Features and Benefits Action Research Portraits 3 portraits in each chapter These portraits show how teachers and other educators can actually conduct action research in order to address their own specific local level problems Lists of online resources updated The comprehensive lists are comprised of Web sites that readers can pursue for additional related information Discussion of rigor in action research new This discussion communicates to the reader how to maintain the high level of rigor and validity in action research Writing Up Action Research Special sections titled Writing Up Action Research are included in Chapters 3 through 8 These sections provide annotated excerpts from published or otherwise disseminated action research reports highlighting specific concepts presented in each particular chapter
