Viator, Medieval and Renaissance Studies, Volume 7 (1976) The Center for Medieval and Renaissance Studies, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 **Renaissance Humanism, Volume 3** Albert Rabil, Jr., 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press's distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas **The Carole: A Study of a Medieval Dance** Robert Mullally, 2017-07-05 The carole was the principal social dance in France and England from c 1100 to c 1400 and was frequently mentioned in French and English medieval literature However it has been widely misunderstood by contributors in recent citations in dictionaries and reference books both linguistic and musical The carole was performed by all classes of society kings and nobles shepherds and servant girls It is described as taking place both indoors and outdoors Its central position in the life of the people is underlined by references not only in what we might call fictional texts but also in historical or quasi historical writings in moral treatises and even in a work on astronomy Dr Robert Mullally's focus is very much on details relevant to the history choreography and performance of the dance as revealed in the primary sources This methodology involves attempting to isolate the term carole from other dance terms not only in French but also in other languages Mullally's groundbreaking study establishes all the characteristics of this dance etymological choreographical lyrical musical and iconographical Books in Print , 1979

The Two Latin Cultures and the Foundation of Renaissance Humanism in Medieval Italy Ronald G. Witt, 2012-03-19 This book traces the intellectual life of the Kingdom of Italy the area in which humanism began in the mid thirteenth century a century or more before exerting its influence on the rest of Europe Covering a period of over four and a half centuries this study offers the first integrated analysis of Latin writings produced in the area examining not only religious literary and legal texts Ronald G Witt characterizes the changes reflected in these Latin writings as products of the interaction of thought with economic political and religious tendencies in Italian society as well as with intellectual influences coming from abroad His research ultimately traces the early emergence of humanism in northern Italy in the mid thirteenth century to the precocious development of a lay intelligentsia in the region whose participation in the culture of Latin writing fostered the beginnings of the intellectual movement which would eventually revolutionize all of Europe **The Bad and the Ugly** Geert Jan van Gelder, 2023-11-27 **Books in Print Supplement** , 1979 Planets, Stars, and Orbs Edward Grant, 1996-07-13 Edward Grant describes the extraordinary range of themes ideas and arguments that constituted scholastic cosmology for

approximately five hundred years from around 1200 to 1700 Primary emphasis is placed on the world as a whole what might lie beyond it and the celestial region which extended from the Moon to the outermost convex surface of the cosmos **Ideas and Forms of Tragedy from Aristotle to the Middle Ages** Henry Ansgar Kelly,1993-05-13 H A Kelly explores meanings given to tragedy from Aristotle s most basic notion any serious story even with a happy ending via Roman ideas and practices to the Middle Ages when Averroes considered tragedy to be the praise of virtue but Albert the **Custom, Kinship, and Gifts to Saints** Stephen D. White,2018-08-25 White combines an intensive study of medieval law with insights from anthropology religion and social history to create a picture of French society in the Middle Ages which is impressive in its breadth and illuminating in its detail By examining the practice whereby gifts of land were approved by the giver s relatives he suggests novel ways of looking at early medieval law kinship land tenure and gift exchange White shows that laudatio parentum can be properly analyzed only within a combined social legal and religious context Originally published in 1988 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Ars et Ingenium: The Embodiment of Imagination in Francesco di Giorgio Martini's Drawings** Pari Riahi,2015-02-11 When did drawing become an integral part of architecture Among several architects and artists who brought about this change during the Renaissance Francesco di Giorgio Martini s ideas on drawing recorded in his Trattati di architettura ingegneria e arte militare 1475 1490 are significant Francesco suggests that drawing is linked to the architect s imagination and central in conveying images and ideas to others Starting with the broader edges of Francesco s written work and steadily penetrating into the fantastic world of his drawings the book examines his singular formulation of the act of drawing and its significance in the context of the Renaissance The book concludes with speculations on how Francesco s work is relevant to us at the onset of another major shift in architecture caused by the proliferation of digital media *Education in Twelfth-century Art and Architecture* Laura Cleaver,2016 A study of the representation of education in material culture at a period of considerable change and growth On the facade of Chartres cathedral serene personifications of the arts of grammar rhetoric dialectic music arithmetic geometry and astronomy present passers by with a vision of education as an improving process leading to greater knowledge of God The arts proved a popular subject in medieval imagery and were included in manuscripts stained glass and luxury metalwork objects as well as on the facades of churches These idealized figures contrast with many textual accounts of education in which authors recorded the hardships of student poverty and the temptations of drink and women to be found in the cities where teachers were increasingly establishing themselves Thisbook considers how and why education was explored in the art and architecture of the twelfth century Through analysis of imagery in a wide range of media it examines how teachers and students sought to use images to enhance their reputations and the

status of their studies It also investigates how the ideal models often set out in imagery compared with contemporary practice in an era that saw significant changes beginning with a shift away from monastic education and culminating in the appearance of the first universities LAURA CLEAVER is Senior Lecturer in Manuscript Studies Institute of English Studies University of London

The colonisation of time Giordano Nanni, 2020-10-20 The Colonisation of Time is a highly original and long overdue examination of the ways that western European and specifically British concepts and rituals of time were imposed on other cultures as a fundamental component of colonisation during the nineteenth century Based on a wealth of primary sources it explores the intimate relationship between the colonisation of time and space in two British settler colonies Victoria Australia and the Cape Colony South Africa and its instrumental role in the exportation of Christianity capitalism and modernity thus adding new depth to our understanding of imperial power and of the ways in which it was exercised and limited All those intrigued by the concept of time will find this book of interest for it illustrates how western European time s rise to a position of global dominance from the clock to the seven day week is one of the most pervasive enduring and taken for granted legacies of colonisation in today s world *The Glory of Byzantium* Metropolitan Museum of Art (New York, N.Y.), 1997 Serves as both visual and textual record of the exhibition of the same name surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261 Conceived as a sequel to the 1976 exhibition Age of Spirituality which focused on the first centuries of Byzantium Preceding the catalogue 17 essays treat the historical context religious sphere and secular courtly realm of the empire and the interactions between Byzantium and other medieval cultures Abundantly illustrated Annotation copyrighted by Book News Inc Portland OR

The Battle Rhetoric of Crusade and Holy War, c. 1099-c. 1222 Connor Christopher Wilson, 2022-11-25 This book examines Latin narratives produced in the aftermath of the First Crusade and challenges the narrative of supposed brutality and amorality of warfare in this period instead focusing on the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled The battle oration a rousing harangue exhorting warriors to deeds of valour has been regarded as a significant aspect of warfare since the age of Xenophon and has continued to influence conceptions of campaigning and combat to the present day While its cultural and chronological pervasiveness attests to the power of this trope scholarly engagement with the literary phenomenon of the pre battle speech has been limited Moreover previous work on medieval

battle rhetoric has only served to reinforce the supposed brutality and amorality of warfare in this period highlighting appeals to martial prowess a hatred for the enemy and promises of wealth and glory This book through an examination of Latin narratives produced in the aftermath of the First Crusade and the decades that followed challenges this understanding and illuminates the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled Furthermore while battle orations form a clear mechanism by which the fledgling crusading movement could be explored ideologically this comparative study reveals how non crusading warfare in this period was also being reconceptualised in light of changing ideas about just war authority and righteousness in Christian society This volume is perfect for researchers students and scholars alike interested in medieval history and military studies **Medieval Architecture, Medieval**

Learning Charles M. Radding, William W. Clark, 1992-01-01 The 11th and 12th centuries witnessed a transformation of European culture from architecture and the visual arts to history philosophy theology and even law The Siege and the Fall of Constantinople in 1453 Marios Philippides, Walter K.
