The Language of the Inuit Louis-Jacques Dorais, 2014-08-01 The culmination of forty years of research The Language of the Inuit maps the geographical distribution and linguistic differences between the Eskaleut and Inuit languages and dialects Providing details about aspects of comparative phonology grammar and lexicon as well as Inuit prehistory and historical evolution Louis Jacques Dorais shows the effects of bilingualism literacy and formal education on Inuit language and considers its present status and future An enormous task masterfully accomplished The Language of the Inuit is not only an anthropological and linguistic study of a language and the broad social and cultural contexts where it is

spoken but a history of the language's speakers **Life Beside Itself** Lisa Stevenson, 2014-08-22 This ethnographic study examines two historical moments in the Canadian Arctic the Inuit tuberculosis epidemic 1940s to the early 1960s and the subsequent suicide epidemic 1980s to the present The colonial Canadian North was imagined as a laboratory for a social experiment to transform Inuit into bona fide Canadian citizens by among other things reducing their death rate This experiment demanded Inuit cooperation with the forms of anonymous care the state provided including the evacuation of tubercular Inuit Southern Sanatoria which left many Inuit families without the story or image of their loved one's death A similar indifference to who lives or dies is manifest in the adoption of the suicide hotline an explicitly anonymous form of care where caregivers exhort unidentified Inuit to live while simultaneously expecting them to die Through attention to the images through which people think and dream Stevenson describes a world in which life is beside itself the name soul of a teenager who dies in a crash lives again in his friend's newborn baby a young girl shares a last smoke with a dead friend in a dream the possessed hands of a clock spin uncontrollably over its face For the Inuit life is somewhere else and Stevenson attempts to articulate forms of care adequate to that truth IDIHOM: Industrialization of High-Order Methods - A Top-Down Approach

Norbert Kroll, Charles Hirsch, Francesco Bassi, Craig Johnston, Koen Hillewaert, 2015-01-02 The book describes the main findings of the EU funded project IDIOM Industrialization of High Order Methods A Top Down Approach The goal of this project was the improvement utilization and demonstration of innovative higher order simulation capabilities for large scale aerodynamic application challenges in the aircraft industry The IDIOM consortium consisted of 21 organizations including aircraft manufacturers software vendors as well as the major European research establishments and several universities all of them with proven expertise in the field of computational fluid dynamics After a general introduction to the project the book reports on new approaches for curved boundary grid generation high order solution methods and visualization techniques It summarizes the achievements weaknesses and perspectives of the new simulation capabilities developed by the project partners for various industrial applications and includes internal and external aerodynamic as well as multidisciplinary test cases
