Walking with God in the Classroom Harro Walter Van Brummelen,1998 *Walking with God in the Classroom* ,2009

The Heart of Wisdom Teaching Approach Robin Sampson,2005-04 Details the Bible based homeschool teaching approach for parents and discusses Christian education learning styles unit studies bible study and more **Walking with God in the Classroom** Harro W. Van Brummelen,1988 **Christian Faith and English Language Teaching and Learning** Mary Shepard Wong,Carolyn Kristjansson,Zoltán Dörnyei,2013 Ideological and educational political aspects of the link between language and faith especially between Global English and Christianity is a topic of growing interest in the field of English language teaching This book explores the possible role and impact of teachers and students faith in the English language classroom Bringing together studies representing a diversity of experiences and perspectives on the philosophies purposes practices and theories of the interrelationship of Christianity and language learning and teaching it is on the front line in providing empirical data that offers firm insights into the actual role that faith plays in various aspects of the language learning teaching experience By adding a data based dimension the volume contributes to the cultivation of valid research methods and innovative ways to analyze and interpret studies of the intersection of Christian faith and the practice of teaching and learning language **Faith-Based Education That Constructs** HeeKap Lee,2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism Educating for Purposeful Living Philip Hughes,2017-10-25 This book contains a simple argument Young people who develop a sense of purpose around contributing to the lives of others and the society will find great personal fulfilment in life and will do more than other young people in creating a better world for all people Living purposefully contributes to better physical and mental health and to resilience as well as to pro social behaviour However surveys of 9 500 secondary school students in non government schools showed that

only a little over a third of them 36% definitely had a sense of purpose More needs to be done to help students develop patterns of purposeful living **Christian Worldview and the Academic Disciplines** Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful **Metaphors We Teach By** Ken Badley, Harro Walter Van

Brummelen, 2012-06-01 Metaphors We Teach By helps teachers reflect on how the metaphors they use to think about education shape what happens in their classrooms and in their schools Teaching and learning will differ in classrooms whose teachers think of students as plants to be nurtured from those who consider them as clay to be molded Students will be assessed differently if teachers think of assessment as a blessing and as justice instead of as measurement This volume examines dozens of such metaphors related to teaching and teachers learning and learners curriculum assessment gender and matters of spirituality and faith The book challenges teachers to embrace metaphors that fit their worldview and will improve teaching and learning in their classrooms **Transformational Teaching** Kenneth S.
