World History Ancient Civilizations Student Edition 2008:

World History: Ancient Civilizations Stanley Mayer Burstein, Richard Hon-Chun Shek, 2008 **Ancient Civilizations of the World** Denny Rose & Rowan Allen, 2018-05-08 About 5 000 years ago the first urban societies developed laying the foundations for the first civilizations Nearly all civilizations share the same few features they have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading Ancient Egyptian culture flourished between c 5500 BCE with the rise of technology as evidenced in the glass work of faience and 30 BCE with the death of Cleopatra VII the last Ptolemaic ruler of Egypt It is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land The culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as Greece and Rome Neolithic means a new stone age even though agriculture was the crowning achievement of the period Civilizations started out small Agriculture at first tended to tie only small groups together These groups also all settled along rivers important as a reliable and predictable source of water As time passed families usually worked the same plot of land over successive generations leading to the concept of ownership Ancient mortars and grinding tools unearthed in a large mound in the Zagros Mountains of Iran reveal that people were grinding wheat and barley about 11 000 years ago Grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples This was much further east than most sites known for early agriculture This book furnishes with utmost facility to all classes of readers the needed information on ancient civilization The unusual variety of the subject makes this a work of endless fascination **TRIUMPH OF RACISM** Emmanuel Neba-Fuh, 2021-04-05 Emmanuel Neba Fuh in this comprehensive chronological compilation and thorough narrative of the history of white supremacy in Africa provide an unflinching fresh case that African poverty a central tenet of the shithole demonization is not a natural feature of geography or a consequence of culture but a direct product of imperial extraction from the continent a practice that continues into the present A brutal and nefarious tale of slave trade genocides massacres dictators supported progressive leaders murdered weapon smuggling cloak and dagger secret services corruption international conspiracy and spectacular military operations he raised the most basic and fundamental question how was Africa the world's richest continent raped and reduced to what Donald J Trump called shithole By V Mbanwie **The ^AOxford World History of Empire** Peter Fibiger Bang, C. A. Bayly, Walter Scheidel, 2020-12-02 Volume Two tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present *The Genesis of Israel and Egypt* Emmet Sweeney, 2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt's civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet

Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world s great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt s history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser s dream Imhotep is shown to be the same person as Joseph son of Jacob

World Myth or History? J.G. Cheock,2017-10-02 World myth deciphered and organized into a coherent story of our past It is almost impossible to read world mythology without noticing common threads and patterns that seem to paint a bigger picture A story told by our ancient ancestors for future generations to remember and learn What if the eyewitnesses to past events were taken seriously What if we listen to their stories with unbiased ears free of assumptions What if their stories were backed up by scientific discoveries What if the myths can explain the mysteries

Moses Old Testament prophets Zoroaster claim they heard divine voices Why do ancient civilizations exhibit key similarities e g the living dead treating the dead as if they were still alive speaking idols care and feeding of effigies monumental mortuary architecture and houses of gods pyramids ziggurats temples How do we explain strange behavior such as spirit possession speaking in tongues channeling hypnosis and schizophrenic hallucinations Are these lingering vestiges of an older mentality Brian J McVeigh answers these riddles by updating bicameralism First proposed by the psychologist Julian Jaynes this theory postulates that an earlier mentality existed a human the brain s left hemisphere heard voices of gods or ancestors the brain s right hemisphere Therefore ancient religious texts reporting divine voices were recountings of audiovisual hallucinations a method of social control when early populations expanded As growing political economic complexity destabilized god governed states in the late second millennium BCE divine voices became inadequate Eventually humans had to culturally

acquire new cognitive skills modern religions to accommodate increasing social pressures selves replaced the gods and history witnessed an inward turn This psychological interiorization of spiritual experience laid the foundations for the world s great religions and philosophies that arose in India China Greece and the Middle East in the middle of the first millennium BCE

under seven distinct headings pioneering cities which founded civilizations cities which were founded by civilizations cities which were transplanted during the formation of civilizations ghost cities which lost their importance through shifts in political power and civilizational transformation lost cities which were destroyed by civilizations cities on lines of geocultural geoeconomic interaction and cities which combine transform or are transformed by different civilizations The author's concept of pivot cities explores the interplay between vital cities and civilizations which bears on the future of globalization at a time of instability as projected continuing de Westernization becomes a theme in studies of global history This book provides highly productive discussions relevant to the literature on city civilization relationships and the historicity of pivot cities Its clear language rich content deep and original perspective interdisciplinary approach and rich bibliography will ensure that it appeals to students and scholars in a variety of disciplines including cultural studies political science comparative urban studies anthropology history and civilizational studies

Islam: Religion of Peace? Mario Alexis Portella, 2018-09-25 Eight hundred years ago St Francis of Assisi embarked on a mission to the port city of Damietta Egypt to try and convert Sultan al Kamil to Christianity While this did not come to fruition both the sultan and the saint were able to have a peaceful dialogue and establish a mutual respect that is absent from the present day polemics of Islam While many today hold that those who seek to create a universal caliphate through acts of terror in the name of Islam falsely represent their religion they ignore the original Islamic texts that inspire these perpetrators The Islamization of our society however does not just come from avowed terrorists but from various Islamic scholars and activists seeking to impose sharia law As a result of the West disavowing its Greco Roman and Judeo Christian roots government officials have catered to such injustices since they consider the petrodollar more valuable than the victims of violence Consequently they have capitulated our rights of free speech and religion to the point of classifying anyone who questions Islamists intentions as an Islamophobe Islam Religion of Peace places Islam in its historical and sociopolitical contexts in order to better understand what has bred the Islamic threat facing today's society as well as how many of our political and church leaders have failed to address the problem thereby creating more instability between both Muslims and non Muslims Author Mario Alexis Portella also proposes solutions whereby both peoples may enter into a meaningful discourse and establish harmony
