Una arqueología de los degenerados y la regeneración racial en la época republicana en Colombia William González, Juan Carlos Alegría, Manuel Fernando Arce, 2025-07-21 Desde hace una centuria la regeneración de las razas ha sido el bastión del proyecto para construir la República de Colombia. Nuestras grandes personalidades intelectuales formadas tanto en Europa como en Estados Unidos se plantearon desde la época republicana el mismo problema: regenerar la raza de las taras biológicas inherentes a su especie. Y para ello el falso humanismo para hablar como Michel Foucault se hizo presente de inmediato: el mestizaje, las campañas de nutrición, las políticas de higienización, la limpieza racial, la formación educativa y cultural, las misiones religiosas para cambiar las malas costumbres de este pueblo degenerado. El etnógrafo José María Samper en 1861 resume bien este proyecto cuando decía que Regenerar era transformar esta población alestargada y convertirla en una población activa y laboriosa. Esta es la gran tarea que los poderes públicos y los hombres pensadores están llamados a resolver en este país. Las fuentes están constituidas por documentos de la expedición botánica, archivos eclesiásticos, casos clínicos, resoluciones higiénicas, procesos judiciales y legislativos, iconografías médicas y religiosas, referencias y acontecimientos que proporcionaron una nueva valoración de los cuerpos y la enfermedad hacia los umbrales del siglo XVIII a través de la botánica hasta la implementación de los grandes paliativos modernos de la salvación en pleno corazón del siglo XX, en donde las técnicas de vigilancia y corrección son capturadas por la divina mecánica de la prevención del proyecto estatal. Nuestros grandes pensadores y dirigentes políticos se preguntaron siempre cómo transformar los instintos semisalvajes de nuestras razas primitivas en algo viable, cómo despertar la falta de ambición del indio chibcha, cómo controlar la embriaguez y amor por el juego del pueblo antioqueño, cómo curar la sangre infectada por la fiebre de la barbarie del caucano, cómo eliminar la inferioridad animal del zambo. Este libro vale como una arqueología del sueño eugenésico de muchos de nuestros actuales dirigentes.

Taller Sobre Programación de la Empresa Comunitaria Campesina, Los últimos años de la reforma agraria mexicana, 1971-1991. Luis Aboites Aguilar, 2022-04-27 Entre noviembre de 1991 y enero siguiente se tomó la decisión de extinguir la reforma agraria mexicana del siglo XX. Iniciada en 1915 gracias al empuje de demandantes de tierras y de autoridades gubernamentales, esa reforma repartió más de la mitad de territorio nacional y dio lugar a una vasta redistribución de la riqueza que acabó con latifundios y latifundistas. Por ese motivo y por su larga duración fue es y será recordada como episodio excepcional de la historia mundial. Su final no halló una oposición generalizada. En este libro se abordan varias preguntas y llevan a centrarse en los enemigos de la reforma agraria: cada vez más poderosos y protagonistas. Se reconstruyen los acontecimientos del noroeste del país desde la década de 1970, en especial las afectaciones agrarias de noviembre de 1976. Más que en el neoliberalismo o la apertura comercial, el texto ahonda en la historia agraria para entender la complejidad de los últimos años de dicha reforma.
