Are We There Yet? Dan Albert,2019-06-11 Dan Albert has a way of bringing automotive history to life Jason Fogelson Forbes The plain old fashioned human driven car built the American economy and helped shape our democratic creed Driver s ed made teenagers into citizens auto repair made boys into men For nearly a century car culture has triumphed But have we finally reached the end of the road Fewer young people are learning to drive Ride hailing is replacing car buying and with electrification a long and noble tradition of amateur car repair will soon come to an end When a robot takes over the driver s seat what s to become of us *Are We There Yet* carries us from horseless buggies to superhighways and like any good road trip it s an adventure so fun you won t even notice how much you ve learned along the way **The Good Life On Te Muna Road** Deborah Coddington,2015-05-27 An engaging affectionate reflection on finding love making wine and life in a small rural community The first time Deborah Coddington lived in Martinborough was in the height of the hippy era when the old mansion Waiura attracted poets protesters novelists photographers artists and activists It was a counter culture scene of some privilege and distinction However the music stopped when crushed by debts she and her partner Alister Taylor were forced to leave town Nearly 40 years on with a successful career as a journalist a stint as a restaurateur and a term in Parliament behind her Deborah returned to Martinborough not quite sure of the welcome she would receive In this wry amusing and heartfelt memoir she writes of finding a community full of outstanding and entertaining individuals that demonstrates the can do all in this together spirit of provincial New Zealand Now a good deal wiser and very much in love with her new husband Colin Carruthers QC Deborah lays some ghosts to rest writes movingly about the death of her mother details the vicissitudes of being a wine grower and shares the joy of life with her beloved animals Confiding candid and

generous of heart this is a tribute to small town New Zealand The Global Automotive Industry Paul Nieuwenhuis, Peter Wells, 2015-08-10 The automotive industry is still one of the world's largest manufacturing sectors but it suffers from being very technology focused as well as being relatively short term focused There is little emphasis within the industry and its consultancy and analyst supply network on the broader social and economic impacts of automobility and of the sector that provides it The Global Automotive Industry addresses this need and is a first port of call for any academic official or consultant wanting an overview of the state of the industry An international team of specialist researchers both from academia and business review and analyse the key issues that make vehicle manufacturing still the world's premier manufacturing sector closely tied in with the fortunes of both established and newly emerging economies In doing so it covers issues related to manufacturing both established practices as well as new developments issues relating to distribution marketing and retail vehicle technologies and regulatory trends and crucially labour practices and the people who build cars In all this it explains both how the current situation arose and also likely future trajectories both in terms of social and regulatory trends as the technological marketing and labour practice responses to those leading in many cases to the development of new business models Key features Provides a global overview of the automotive industry covering its current state and considering future challenges Contains contributions from international specialists in the automotive sector Presents current research and sets this in an historical and broader industry context Covers threats to the industry including globalization economic and environmental sustainability The Global Automotive Industry is a must have reference for researchers and practitioners in the automotive industry and is an excellent source of information for business schools governments and graduate and undergraduate students in automotive engineering *Hybrid Electric Vehicles* Chris Mi, M. Automotive FDI in Emerging Europe A. J. Jacobs, 2017-06-19 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European CE nations of Czechia East Germany Hungary Poland and Slovakia from 1989 onwards Enticed by relatively lower wage labour and significant government incentives the world s largest automakers have launched more than 20 passenger car assembly complexes in CE nations with production accelerating dramatically since 2001 As a result the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015 and alternatively in the CEE it increased by nearly 170% during this period Drawing on case studies of 25 current and former foreign run assembly plants the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift This book will expand the knowledge of policy makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business economic history political science and development

The Dieselgate Marco Frigessi di Rattalma, 2017-01-20 This book explains compares and assesses the legal implications of Dieselgate within a range of selected jurisdictions and at the EU international and comparative law level The book analyses the US EPA VW 14 7 billion dollar settlement of 2016 one of the largest civil settlements in the history of environmental law As it shows the Dieselgate affair has raised a host of issues concerning corporate and social responsibility tort liability environmental liability contractual defective products warranty and false environmental claims in a range of jurisdictions Issues like repurchasing or retrofitting cars from consumers and making direct payments to consumers through car buy backs and compensation are analysed Further the book relates how Dieselgate has also contributed to the discussion about the introduction of more effective collective measures of redress for consumers such as class actions in Germany France Italy and the UK The book subsequently reviews the criminal offences Volkswagen is currently confronted with in Germany France and Italy i e fraud and manipulation of capital markets by belatedly providing shareholders with essential information relevant for the share value and potentially environmental crimes It demonstrates how Dieselgate has sparked new debates in Germany Italy France and the UK about the need to introduce enterprise liability for organised crimes lack of compliance and control structures and intentional violations of the law Lastly the book discusses how EU law has sought to respond to Dieselgate

and thus investigates the controversial EU Regulation No 2016 646 introducing a temporary conformity factor of 2.1 equivalent to a 110% increase on the current limit to be applied for NOx in the new RDE testing cycle and the works of the EU committee of inquiry into Emissions Measurements in the Automotive Sector EMIS

The Eurabia Myth Mehammed Amadeus Mack, 2025-11-18 The roots and reach of Great Replacement theory in France and beyond The Eurabia Myth delves into the origins and evolution of far right anxieties about the future of a Europe that welcomes postcolonial migration racial and ethnic diversity and tolerance of Islam Nationalists deploy the specter of Eurabia an Arabized and Islamized Europe as a doomsday scenario of demographic replacement that only they can avert Mehammed Amadeus Mack traces this dark vision to a sociopolitical conspiracy theory that began in France spread throughout Europe and has become especially virulent in the United States Great Replacement Theory Examining how the Eurabia narrative gained traction Mack analyzes dystopian fiction that envisions how this Replacement will take place the contemporary politicization of medieval history and ecofascist rhetoric depicting immigrants as an invasive species He also interviews prominent French activists of color about how they subvert being portrayed as Replacers and destroyers of European civilization and he explores the American echoes of the Great Replacement Theory Innovatively deploying gender and sexuality theory to the concept of Eurabia Mack demonstrates that the demographic and racial anxieties underlying Great Replacement Theory are

intertwined with a more fundamental crisis of masculinity evident in the far right's accusations that feminists and the LGBT community are responsible for the decline in white birth rates. As it uncovers the deeper roots of this pervasive theory, *The Eurabia Myth* shows its insidious relevance to a rising tide of nativist fear, hatred, and violence.
