

Yx570[®] Transaction Guide Trans Union ScorePLUS

Version 1.00

February 19, 2007

Overview

Trans Union is one of the nation's top consumer credit information services. Its national (USPSA) database contains address, phone and other valuable information on most consumers with a credit history.

The Trans Union ScorePLUS POS program allows you to access an individual's credit history information by entering either the Social Security number and house number or the name and address. Once the requested record is found, Trans Union returns numerous credit history segments including, but not limited to the subject's name, address, past and present addresses, credit history accounts and balances.

Subscribers to ScorePLUS are assigned a Trans Union member code being processed in order to access this information.

NOTE: Fraud Alert Information

Trans Union maintains a computerized fraud alert database called INTRN. The report database alerts you if information in a customer's file suggests potentially fraudulent activity. ScorePLUS returns only one INTRN code and message concerning fraud alert for each transaction. If only one INTRN code and message exists in the customer's file, an R flag will be displayed after the heading **How INTRN** in the INTRN segment. If there is more than one INTRN code and message, a F flag will appear. If you want to see the additional INTRN information, you must run a POS Trans Union ScorePLUS transaction.

If you did not request INTRN alert information when your Trans Union account was set up, contact your Trans Union Customer Service representative to add INTRN services to your Trans Union account.

Special Considerations

- Some customers of Trans Union may have two last names. In the majority of cases, when the Secondary Name/Last name is required, enter the first of the customer's last names (the paternal name) in response to the **Last Name** prompt. Enter the second of the customer's last names (the maternal name) in response to the **Secondary Name** prompt.
- The customer's house number cannot begin or end with a letter of the alphabet, but it can have a letter within the house number. For example, 432ST is not an acceptable house number, but 432ST is.

To Enter Letters

1. Press the number key on which the letter appears.
2. Press **alt/PAK**, press **back**, or three times, and the letter appears.
3. If needed, press **ESC** to return for another letter entered.
4. Special characters are on the **1** and **2** keys. **3**, **4**, and the decimal point (.) are on key **5**.

Other Usage Tips

- To display help information, press **PF6**.
 - If your terminal has touch keys, you may be prompted to enter your user ID and password.
 - The on-screen checkout keys that appear in frequently used screens. When you press a checkout key from the title prompt, your terminal will display the Transaction Type menu for the screen prompted to that key.
 - To display a list of screens for a terminal (e.g., state information), press **PF6**.
- Select your entry, then press **ESC**.

For more information, see your **Software INTRN User Guide**.
