Seeing, Knowing, Being John Greer, 2012-02-15 From ancient Taoist sages and Sufi mystics to Christian contemplatives and contemporary Zen masters *Seeing Knowing Being* explores the profound truth behind all the world s mystic traditions Living a spiritual life has nothing to do with fixing ourselves It is simply a matter of awakening to what we already are The real work of self discovery and the answer to our suffering emptiness and loss of meaning is learning to see in a different way The mystical adventure is all in the seeing says John Greer From departure to arrival nothing changes but our eyes But the process isn t that simple In this all embracing work that is destined to become a classic Greer artfully traces the steps and stages of the delicate process of awakening He shows how we can move from society s hand me down version of reality to the wonder of our true nature from conceptual habitual patterns of thinking to knowing the truth by being Like a master artist who captures an image and stirs

something deep inside of us Greer also highlights nearly one hundred evocative metaphors as varied and colorful as the sages themselves to kindle your imagination and spark your intuition to shift your perspective and shake you into an awareness that no amount of explanation can What Greer shows with great wisdom and compassion is that when you put aside the map of the mind you can follow the compass of your heart You can move through the details of life going to work raising a family throwing out the garbage and still experience the wonders and oneness of life with deep reverence gratitude and joy Books often describe journeys Seeing Knowing Being actually takes you on one A profound expedition into the true nature of life MATTHEW FLICKSTEIN author and producer of the award winning film *With One Voice* *The Contemplative Practitioner* John P. Miller, 2014-01-01 Describes how the experience of the whole through mindful contemplation can release energy and knowledge for practical use in the classroom and in the place of business *The Star Spangled Buddhist* Jeffrey Ourvan, 2016-01-26 Ourvan offers a succinct but illuminating overview of Zen Tibetan and Soka Gakkai Buddhism Publishers Weekly Approximately four million Americans claim to be Buddhist Moreover hundreds of thousands of Americans of various faiths read about Buddhism are interested in its philosophical tenets or fashionably view themselves as Buddhists They re part of what s been described as the fastest growing religious movement in America a large group of people dissatisfied with traditional religious offerings and thirsty for an approach to spirituality grounded in logic and consistent with scientific knowledge The Star Spangled Buddhist is a provocative look at these American Buddhists through their three largest movements in the United States the Soka Gakkai International Tibetan Vajrayana Buddhism and Zen Buddhism The practice of each of these American schools unlike most traditional Asian Buddhist sects is grounded in the notion that all people are capable of attaining enlightenment in this lifetime But the differences are also profound the spectrum of philosophical expression among these American Buddhist schools is as varied as that observed between Reformed Orthodox and Hasidic Judaism The Star Spangled Buddhist isn t written from the perspective of a monk or academic but rather from the view of author Jeff Ourvan a lifelong practicing lay Buddhist As Ourvan explores the American Buddhist movement through its most popular schools he arrives at a clearer understanding for himself and the reader about what it means to be and how one might choose to be a Buddhist in America **Realizing Awakened Consciousness** Richard P. Boyle, 2015-06-02 If as Buddhism claims the potential for awakening exists in all human beings we should be able to map the phenomenon with the same science we apply to other forms of consciousness A student of cognitive social science and a Zen practitioner for more than forty years Richard P Boyle brings his sophisticated perspective to bear on the development of a theoretical model for both ordinary and awakened consciousness Boyle conducts probing interviews with eleven prominent Western Buddhist teachers Shinzen Young John Tarrant Ken McLeod Ajahn Amaro Martine Batchelor Shaila Catherine Gil Fronsdal Stephen Batchelor Pat Enkyo O Hara Bernie Glassman and Joseph Goldstein and one scientist James Austin who have experienced awakening From the paths they traveled to enlightenment and their descriptions of the experience he derives three

fundamental properties of awakened consciousness He then constructs an overarching model that explains how Buddhist practices help free the mind from attachments to reality and the self and make possible the three properties of awakening Specifically these teachers describe how they worked to control attention and quiet the mind detach from ideas and habits and open themselves to compassion Boyle s account incorporates current theories of consciousness sociological insights and research in neuroscience to advance the study of awakened consciousness and help an even greater number of people to realize it

Johnson, 2010-07-12 A guide to personal spiritual initiation through the transformation of habitual patterns apathy and resistance Based on the Native American medicine wheel the Vedic wheel and the universal initiatory mandala Enables readers from any tradition to initiate themselves through practices of thought transformation narrative medicine meditation exercises rituals and journaling Facilitates breaking through personal and societal illusions that perpetuate resistance and apathy Intentions and spiritual principles meditation and contemplation ritual and risk taking are the conditions that comprise an initiated life Regrettably in modern society we do not have rites of initiation that break through the personal and societal illusions that instill and perpetuate negative habits that keep us in states of resistance Lacking initiation practices we often remain trapped in ways of being in the world that were formed by our past conditions and attachments We tend to

identify too strongly with the status quo which must be challenged to prevent stagnation and to encourage happiness and authenticity Julie Tallard Johnson shows how to become initiated into an authentic life through practices of thought transformation cultivating attention journaling storytelling and rituals found in the four directions of the universal mandala She begins the Wheel of Initiation in the South where initiates set their intentions then moves into the West where they free themselves from habitual patterns and core beliefs then into the North the direction of cultivating attention and unity and finishes in the East the direction of regeneration and initiation Drawing upon the life experiences of those who have successfully navigated the wheel Johnson demonstrates that once fears assumptions and ingrained beliefs are confronted and transformed initiates emerge ready to reenter society with renewed energy and vision that will enrich their own lives and their communities
