Wanderlust A History Of Walking By Rebecca Solnit Published June 2001:

A Walking Life Antonia Malchik,2019-05-07 For readers of On Trails this is an incisive utterly engaging exploration of walking how it is fundamental to our being human how we ve designed it out of our lives and how it is essential that we reembrace it I m going for a walk How often has this phrase been uttered by someone with a heart full of anger or sorrow Or as an invitation a precursor to a declaration of love Our species and its predecessors have been bipedal walkers for at least six million years by now we take this seemingly arbitrary motion for granted Yet how many of us still really walk in our everyday lives Driven by a combination of a car centric culture and an insatiable thirst for productivity and efficiency we re spending more time sedentary and alone than we ever have before If bipedal walking is truly what makes our species human as paleoanthropologists claim what does it mean that we are designing walking right out of our lives Antonia Malchik asks essential questions at the center of humanity s evolution and social structures Who gets to walk and where How did we lose the right to walk and what implications does that have for the strength of our communities the future of democracy and the pervasive loneliness of individual lives The loss of walking as an individual and a community act has the potential to destroy our deepest spiritual connections our democratic society our neighborhoods and our freedom But we can change the course of our mobility And we need to Delving into a wealth of science history and anecdote from our deepest origins as hominins to our first steps as babies to universal design and social infrastructure A Walking Life shows exactly how walking is essential how deeply reliant our brains and bodies are on this simple pedestrian act and how we can reclaim it Nomadic Modernisms and Diasporic Journeys of Djuna Barnes and Jane Bowles Pavlina Radia,2016-09-07 This book traces the artistic trajectories of Djuna Barnes and Jane Bowles examining their literary representations of the nomadic ethic pervading the twentieth century expatriate movements in and out of America The book argues that these authors contribute to the nomadic aesthetic of American modernism its pastoral ideographies post colonial ecologies as well as regional and transcultural varieties Mapping the pastoral moment in different temporalities and spaces Barnes representing the 1920s expatriation in Europe while Bowles comments on the 1940s exodus to Mexico and North Africa this book suggests that Barnes and Bowles counter the critical trend associating American modernity primarily with urban spaces and instead locate the nomadic thrust of their times in the post colonial history of the American frontier **Documenting the American Student Abroad** Kelly Hankin,2021-01-15 1 in 10 undergraduates in the US will study abroad Extoled by students as personally transformative and celebrated in academia for fostering cross cultural understanding study abroad is also promoted by the US government as a form of cultural diplomacy and a bridge to future participation in the global marketplace In Documenting the American Student Abroad Kelly Hankin explores the documentary media cultures that shape these beliefs drawing our attention to the broad range of stakeholders and documentary modes involved in defining the core values and practices of study abroad From study abroad video contests and a F B I produced docudrama about student espionage to reality television inspired

educational documentaries and docudramas about Amanda Knox Hankin shows how the institutional values of global citizenship intercultural communication and cultural immersion emerge in contradictory ways through their representation By bringing study abroad and media studies into conversation with one another Documenting the American Student Abroad The Media Cultures of International Education offers a much needed humanist contribution to the field of international education as well as a unique approach to the growing scholarship on the intersection of media and institutions As study abroad practitioners and students increase their engagement with moving images and digital environments the insights of media scholars are essential for helping the field understand how the mediation of study abroad rhetoric shapes rather than reflects the field s central institutional ideals Remembering the Cultural Geographies of a Childhood Home Peter Hughes Jachimiak,2016-04-08 Using an innovative auto ethnographic approach to investigate the otherness of the places that make up the childhood home and its neighbourhood in relation to memory derived and memory imbued cultural geographies Remembering the Cultural Geographies of a Childhood Home is concerned with childhood spaces and children s perspectives of those spaces and consequentially with the personalised locations that make up the childhood family home and its immediate surroundings such as the garden the street etc Whilst this book is primarily structured by the author s memories of living in his own Welsh childhood home during the 1970s that is the auto ethnographic framework it is as much about living anywhere amid the remembered cultural remnants of the past as it is immersing oneself in cultural geographies of the here and now As a result Remembering the Cultural Geographies of a Childhood Home is part of the ongoing pursuit by cultural geographers to provide a personal exploration of the pluralities of shared landscapes whereby such an engagement with space and place aid our construction of cognitive maps of meaning that in turn manifest themselves as both individual and collective cultural experiences Furthermore touching upon our co habiting of ghost topologies Remembering the Cultural Geographies of a Childhood Home also encourages a critical exploration of children s spirituality amid the haunted cultural and geographical spaces and places of a house and its neighbourhood the cellar hallway parlour stairs bedroom attic shops cemeteries and so on Born to Walk Dan Rubinstein,2015-04-01 The case for getting back on our feet The humble act of putting one foot in front of the other transcends age geography culture and class and is one of the most economical and environmentally responsible modes of transit Yet with our modern fixation on speed this healthy pedestrian activity has been largely left behind At a personal and professional crossroads writer editor and obsessive walker Dan Rubinstein travelled throughout the U S U K and Canada to walk with people who saw the act not only as a form of transportation and recreation but also as a path to a better world There are no magic bullet solutions to modern epidemics like obesity anxiety alienation and climate change But what if there is a simple way to take a step in the right direction Combining fascinating reportage eye opening research and Rubinstein s own discoveries Born to Walk explores how far this ancient habit can take us how much repair is within range and guarantees that you ll never again take walking for granted *Parallax* Igor Cassar,Mark

Dawson,Eve Kalyva,2020-08-13 This book presents themed issues to provoke exploratory interdisciplinary thinking and response It provides a forum for a wide spectrum of perspectives on a topical question or concern The book will be of interest to those working in cultural studies critical theory and cultural history *Walking in Cities* Evrick Brown,Timothy Shortell,2016 Walking connects the rhythms of urban life to the configuration of urban spaces As the contributors and editors show in Walking in Cities walking also reflects the systematic inequalities that order contemporary urban life Walking has different meanings because it can be a way of temporarily taking possession of urban space or it can make the relatively powerless more vulnerable to crime The essays in Walking in Cities explore how walking intersects with sociological dimensions such as gender race and ethnicity social class and power Various chapters explorethe fl neuse or female urban drifter in Tehran s shopping malls Hispanic neighborhoods in New York San Diego and El Paso and the intra neighborhood and inter class dynamics of gentrification in Greenpoint Brooklyn The essays in Walking in Cities provide important lessons about urban life **Stronger Every Day** Janell Rardon,2021-01-19 As a trauma informed professional life coach Janell Rardon spends a good deal of her day to day work with brokenness broken families broken relationships broken hearts and souls In response to the pleas of her clients she developed a set of emotional health tools that help them repair the broken parts of their lives In Stronger Every Day she shares those powerful tools with you In this heartlifting book she helps you to transform pain into meaning experience secure attachment with God shape healthy thoughts shift from shame to self compassion practice healthy assertiveness set mental and emotional boundaries understand triggers and defense mechanisms regulate emotional highs and lows cultivate healthy human connection With inspiring Scriptures quotes prayers personal stories and case studies Rardon sets you on the path of emotional health so that you can be stronger than ever every day Walking in the European City Timothy Shortell,Evrick Brown,2016-02-24 Sociologists have long noted that dynamism is an essential part of the urban way of life However walking as a significant social activity and crucial research method in spite of its ubiquity as part of urban life has often been overlooked This volume considers walking in the city from a variety of perspectives in a variety of places and with a variety of methods to engage with the question of how walking can contribute to the sociological imagination and reveal sociological knowledge Bringing together new research on sites across Europe Walking in the European City addresses the nature of everyday mobility in contemporary urban settings shedding light not only on the ways in which walking relates to other social institutions and practices but also as a method for studying urban life With attention to intersections of race and ethnicity gender and class as well as the manner in which processes of gentrification transform urban space this book examines questions of access to public places exploring the ways in which urban dwellers use of and relation to neighbourhood spaces are shaped by inequalities of status and power As such it will appeal to scholars of sociology geography and anthropology with interests in urban studies mobility and research methods

Wanderlust Rebecca Solnit,2001-06-01 A passionate thought provoking exploration of walking as a political and cultural

activity from the author of Orwell s Roses Drawing together many histories of anatomical evolution and city design of treadmills and labyrinths of walking clubs and sexual mores Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking Arguing that the history of walking includes walking for pleasure as well as for political aesthetic and social meaning Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture from philosophers to poets to mountaineers She profiles some of the most significant walkers in history and fiction from Wordsworth to Gary Snyder from Jane Austen s Elizabeth Bennet to Andre Breton s Nadja finding a profound relationship between walking and thinking and walking and culture Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car dependent and accelerated world **Cartographies of New York and Other Postwar American Cities** Monica Manolescu,2018-10-03 Cartographies of New York and Other Postwar American Cities Art Literature and Urban Spaces explores phenomena of urban mapping in the discourses and strategies of a variety of postwar artists and practitioners of space Allan Kaprow Claes Oldenburg Vito Acconci Gordon Matta Clark Robert Smithson Rebecca Solnit Matthew Buckingham contemporary Situationist projects The distinctive approach of the book highlights the interplay between texts and site oriented practices which have often been treated separately in critical discussions Monica Manolescu considers spatial investigations that engage with the historical and social conditions of the urban environment and reflect on its mediated nature Cartographic procedures that involve walking and surveying are interpreted as unsettling and subversive possibilities of representing and navigating the postwar American city The book posits mapping as a critical nexus that opens up new ways of studying some of the most important postwar artistic engagements with New York and other American cities

Beyond Post-Traumatic Stress Sarah Hautzinger,Jean Scandlyn,2017-07-05 When soldiers at Fort Carson were charged with a series of 14 murders PTSD and other invisible wounds of war were thrown into the national spotlight With these events as their starting point Jean Scandlyn and Sarah Hautzinger argue for a new approach to combat stress and trauma seeing them not just as individual medical pathologies but as fundamentally collective cultural phenomena Their deep ethnographic research including unusual access to affected soldiers at Fort Carson also engaged an extended labyrinth of friends family communities military culture social services bureaucracies the media and many other layers of society Through this profound and moving book they insist that invisible combat injuries are a social challenge demanding collective reconciliation with the post 9 11 wars The Oxford Handbook of Shakespeare and Performance James C. Bulman,2017-11-16 The Oxford Handbooks to Shakespeare are designed to record past and present investigations and renewed and revised judgments by both familiar and younger Shakespeare specialists Each of these volumes is edited by one or more internationally distinguished Shakespeareans together they comprehensively survey the entire field Shakespearean performance criticism has firmly established itself as a discipline accessible to scholars and general readers alike And just as performances of the plays expand audiences understanding of how Shakespeare speaks to them so performance criticism is

continually shifting the contours of the discipline The 36 contributions in this volume represent the most current approaches to Shakespeare in performance They are divided into four parts Part I explores how experimental modes of performance ensure Shakespeare s contemporaneity Part II tackles the burgeoning field of reception how and why audiences respond to performances as they do Part III addresses the ways in which technology has revolutionized our access to Shakespeare both through the mediums of film and sound recording and through digitalization Part IV grapples with global Shakespeare considering matters of cultural appropriation in productions played for international audiences Together these ground breaking essays attest to the richness and diversity of Shakespearean performance criticism as it is practiced today

Urban Arabesques Gray Kochhar-Lindgren,2020-02-14 Urban Arabesques examines philosophy as an event of the city and the city as an event of philosophy and how the intertwining of the two generates an urban imaginary This critique in motion of creative figures and conceptual personae from non philosophy illuminates the emergence of sense in the city shows how transcendental empiricism operates within it and how the everyday life of the streets the ordinariness of experience as well as the screen projector of urban surfaces uncovers new pathways for politics experience and relationalities Using Hong Kong as the primary site of thinking yet recognizing that thinking incessantly moves beyond any particular location the book opens up cities within the city Traversing Hong Kong reveals how the corners the money the trees and the water are involved in philosophy Combining the linguistic approach found in Heidegger and Derrida with the more materialist analysis of Serres and Deleuze the objective of this book is to retheorize the urban and its imaginary its virtuality irreality phantasmicity with an emphasis on signs images and rhythms resonating through philosophy and beyond The Yankee Road James D.
