Tobin, Dennis R. Ybarra, 2008-01-01 Our elementary middle and high school teaching about Jews Judaism and Israel is driven by textbook misstatements about Jewish theology social structure and the history of Israel that comprise an unsavory picture of Jews and Israel This book will be an extremely valuable reference tool for educators and members of the public interested in religion and the Middle East *World Civilizations: 1450 to present* Peter N. Stearns, 1992 **The New World History** Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the history of the movement the seminal ideas of founding thinkers and today s practitioners changing concepts of world historical space and time comparative methods environmental history the big history movement globalization debates over the meaning of Western power and ongoing questions about the intellectual premises and assumptions that have shaped the field *History Textbooks and the Wars in Asia* Gi-Wook Shin, Daniel C. Snider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations

for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia

World Civilizations Peter N. Stearns,1999-10 The primary goal of World Civilizations The Global Experience Third Edition is to present a truly global history one that both discusses the development of the world s leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies The book examines all the world s civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia Latin America and the nations and states of the Pacific Rim World Civilizations balances this discussion of independent developments in all the world s major civilizations with comparative analysis of the results of international contact MARKET Appropriate for anyone interested in World History [Recording for the Blind & Dyslexic, ...
