curriculum in their countries As they address nationalism in the face of economic globalisation the international financial crisis immigration and the culture of diaspora they ask how national loyalties are balanced with international relationships and interests They ask how the rights of women and of ethnic and racial groups are represented They ask what has changed about history and civics post 9 11 and they ask how countries that have experienced profound political and economic changes have addressed them in curriculum These interactions and changes are a subject of particular interest for an international yearbook in that they are almost always permeated by global movements and influenced by multinational bodies and practices And as these essays show in curriculum global and international issues are explicitly or implicitly also about local and national interests and about how citizens engage their rights and responsibilities This volume brings together a new approach to perspectives on curriculum today and a new collection of insights into the changes from different parts of the world which discuss How is the world represented in curriculum How do responses to world events shape the stories we tell students about who they are and can be This book will be of great benefit to educational researchers and policy makers as well as undergraduate and postgraduate students

Educating in the Divine Image Chaya Rosenfeld Gorsetman, Elana Maryles Sztokman, 2013-10-01 Although recent scholarship has examined gender issues in Judaism with regard to texts rituals and the rabbinate there has been no full length examination of the education of Jewish children in day schools Drawing on studies in education social science and psychology as well as personal interviews the authors show how traditional mainly Orthodox day school education continues to reinscribe gender inequities and socialize students into unhealthy gender identities and relationships They address pedagogy school practices curricula and textbooks as along with single sex versus coed schooling dress codes sex education Jewish rituals and gender hierarchies in educational leadership Drawing a stark picture of the many ways both girls and boys are molded into gender identities the authors offer concrete resources and suggestions for transforming educational practice

Prentice Hall World History, 2003 *The Atlantic Connection* Anna Suranyi, 2015-05-15 Focusing on the interconnections of the Atlantic world from 1450 1900 The Atlantic Connection examines the major themes of Atlantic history During this period ships goods diseases human beings and ideas flowed across the ocean tying together the Atlantic basin in a complex web of relationships Divided into five main thematic sections while maintaining a broadly chronological structure this book considers key cultural themes such as gender social developments the economy and ideologies as well as the role of the Atlantic in ensuring European dominance the creation of a set of societies with new cultural norms and philosophical ideals that continued to evolve and to transform not only the Atlantic but the rest of the world the contestation over rights and justice that emerged from the Atlantic world which continues to exist as a significant issue today The Atlantic Connection is shaped by its exploration of a key question how did

Europe come to dominate the Atlantic if not through its technological prowess Adeptly weaving a multitude of events into a larger analytical narrative this book provides a fascinating insight into this complex region and will be essential reading for students of Atlantic history *The New Politics of the Textbook* Heather Hickman,Brad J. Porfilio,2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and dis ability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production *The American Village in a Global Setting* Michael E. Connaughton,Suellen Rundquist,2009-03-26 In October 2005 a conference honoring the contributions of Sinclair Lewis to Midwest and American culture and celebrating the friendship between Sinclair Lewis and Ida K Compton was held at St Cloud State University in St Cloud Minnesota Sinclair Lewis would no doubt have been flattered and perhaps a bit surprised by the breadth of this conference in his honor The fact that scholars writers students and readers gathered to discuss his work and its broader influence would have pleased him He would have learned that readers still found stimulus for serious thought in his writing and that his works can serve as a springboard to discussion of today s societal issues some of which might surprise him considerably The papers selected from the conference entitled *The American Village in a Global Setting* consider elements of Lewis world through today s lens In Part I his version of community is compared to that documented in other ways including architecture and television Scholars address issues such as anti Semitism theocratic communities the Irish and outdoor life In Part II the concept of community is expanded to the visions of other authors including his contemporaries such as Martha Ostenso Josephine Donovan and Willa Cather as well as more recent writers In Part III today s social and cultural issues in America are addressed expressing the global and interdisciplinary intent of the conference And last Part IV continues the global theme addressing international communities and pedagogical philosophies through film and literature **The 'Other' Students** Dina C. Maramba,Rick Bonus,2012-12-01 Though the Filipino American population has increased numerically in many areas of the United States especially since the influx of professional immigrants in the wake of the 1965 Immigration Act their impact on schools and

related educational institutions has rarely been documented and examined. *The Other Students: Filipino Americans, Education, and Power* is the first book of its kind to focus specifically on Filipino Americans in education. Through a collection of historical and contemporary perspectives, we fill a profound gap in the scholarship as we analyze the emerging presence of Filipino Americans both as subjects and objects of study in education research and practice. We highlight the argument that one cannot adequately and appropriately understand the complex histories, cultures, and contemporary conditions faced by Filipino Americans in education unless one grapples with the specificities of their colonial pasts and presents their unique migration and immigration patterns, their differing racialization, and processes of identity formations, the connections between diaspora and community, belonging, and the various perspectives offered by ethnic group-centered analysis to multicultural projects. The historical, methodological, and theoretical approaches in this anthology will be of interest to scholars, researchers, and students in disciplines which include Education, Ethnic Studies, Asian American and Pacific Islander Studies, Anthropology, Sociology, Political Science, Urban Studies, Public Policy, and Public Health.
