Encourages eleventh and twelfth graders to explore the people, dimensions, and religious principles of the key religions of the world. Hollywood or History? Thomas E. Malewitz, Adam P.

Zoeller, 2023-01-01 Teaching and learning through Hollywood or commercial film and television productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. However, purposeful and effective instruction through film is not problem-free and many challenges accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we are developing a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic-mindedness. The NCSS College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading, and writing. Our hope is that this edited book might play a small role in the larger project of supporting practitioners specifically 6-12 teachers of social studies and world religion content by offering a collection of classroom-ready tools based on the Hollywood or History strategy and designed to foster inquiry through the careful use of selected motion pictures and television productions. Topics of interest include the roots, rituals, symbols, beliefs, and controversial or significant people or events related to The Abrahamic Religions, Judaism, Christianity, Islam, Eastern Religions, Philosophies, Hinduism, Buddhism, Indigenous Religions, Spirituality, First Nations, Traditional African Religions. **Psychiatric Mental Health Nursing** Mary C. Townsend, Karyn I. Morgan, 2017-10-19 Clearly written, comprehensive coverage of psychiatric mental health nursing delivers what nursing students need to meet the challenges of health care today. Its evidence-based, holistic approach to nursing practice focuses on both physiological and psychological disorders. Designed to be used in longer psychiatric mental health nursing courses, this text provides students with a comprehensive grounding in therapeutic approaches as well as

must know DSM 5 disorders and nursing interventions

Sex, Gender and Disability in Nepal Tulasi Acharya,2019-08-12 This book explores the sex lives of women with disabilities in Nepal showing that many women suffer more than men despite prevailing disability policies that emphasize nondiscrimination against people with disabilities It also argues that far from general perceptions of women as asexual women with disabilities are capable of leading highly creative and fulfilling sexual lives Using critical sexual theory and postcolonial studies as critical frameworks the book investigates the narratives of authors with disabilities exploring policy gaps and the need for supportive gender and sexual policies through the words of those affected In particular the book analyzes five female Nepali authors with disabilities Radhika Dahal Jhamak Ghimire Sabitri Karki Parijaat and Mira Sahi demonstrating the need for supportive gender policies to address the emotional and psychological needs of women with disabilities Overall the book argues that disciplinary discourses in practice often consider sex or sexuality as taboo barely recognizing women in the context of marriage and family and therefore creating gaps between policies and marginalized narratives This book provides important insights into sex and disability within the context of the Global South and as such will be of interest not only to researchers working on Nepal but also to scholars across gender studies disability studies international development and postcolonialism
