Tracing The Essay Through Experience To Truth:

Tracing the Essay G. Douglas Atkins, 2010-02-25 The essay as a notably hard form of writing to pin down has inspired some unflattering descriptions It is a greased pig for example or a pair of baggy pants into which nearly anything and everything can fit In *Tracing the Essay* G Douglas Atkins embraces the very qualities that have moved others to accord the essay second class citizenship in the world of letters Drawing from the work of Montaigne and Bacon and recent practitioners such as E B White and Cynthia Ozick Atkins shows what the essay means and how it comes to mean The essay related to assaying attempting mines experience for meaning which it then carefully weighs It is a via media creature says Atkins born of and embracing tension It exists in places between experience and meaning literature and philosophy self and other process and product form and formlessness Moreover as a literary form the essay is inseparable from a way of life requiring wisdom modesty and honesty The essay was historically notes Atkins the first form to take the experience of the individual and make it the stuff of literature Atkins also considers the essay's basis in Renaissance and Reformation thinking and its participation in voyages of exploration and discovery of that age Its concern is home cosmography to use a term from seventeenth century writer William Habington Responding to influential critiques of the essay's supposed self indulgence lack of irony and absence of form Atkins argues that the essay exhibits a certain sneakiness as it proceeds in through and by means of the small and the mundane toward the spiritual and the revelatory

The Essay At the Limits Mario Aquilina, 2021-04-08 In the hands of such writers as Rebecca Solnit Claudia Rankine David Shields Zadie Smith and many others the essay has re emerged as a powerful literary form for tackling a fractious 21st century culture *The Essay at the Limits* brings together leading scholars to explore the theory the poetics and the future of the form The book links the formal innovations and new voices that have emerged in the 21st century essay to the history and theory of the essay In so doing it surveys the essay from its origins to its relation to contemporary cultural forms from the novel to poetry film to music and from political articles to intimate lyrical expressions The book examines work by writers such as Theodor W Adorno Kwame Anthony Appiah Francis Bacon James Baldwin Roland Barthes Maurice Blanchot Ta Nehisi Coates Annie Dillard Brian Dillon Jean Genet William Hazlitt Samuel Johnson Karl Ove Knausgaard Ben Lerner Audre Lorde Oscar Wilde Michel de Montaigne Zadie Smith Rebecca Solnit Wallace Stevens Eliot Weinberger and Virginia Woolf

Ireland and Ecocriticism Eóin Flannery, 2015-10-05 This book is the first truly interdisciplinary intervention into the burgeoning field of Irish ecological criticism Providing original and nuanced readings of Irish cultural texts and personalities in terms of contemporary ecological criticism Flannery's readings of Irish literary fiction poetry travel writing non fiction and essay writing are ground breaking in their depth and scope Explorations of figures and texts from Irish cultural and political history including John McGahern Derek Mahon Roger Casement and Tim Robinson among many others enable and invigorate the discipline of Irish cultural studies and international ecocriticism on the whole This book addresses the need to impress the urgency of lateral

ecological awareness and responsibility among Irish cultural and political commentators to highlight continuities and disparities between Irish ecological thought writing and praxis and those of differential international writers critics and activists and to establish both the singularity and contiguity of Irish ecological criticism to the wider international field of ecological criticism With the introduction of concepts such as ecocosmopolitanism deep history ethics of proximity Gaia Theory urban ecology and postcolonial environmentalism to Irish cultural studies it takes Irish cultural studies in bracing new directions Flannery furnishes working examples of the necessary interdisciplinarity of ecological criticism and impresses the relevance of the Irish context to the broader debates within international ecological criticism Crucially the volume imports ecological critical paradigms into the field of Irish studies and demonstrates the value of such conceptual dialogue for the future of Irish cultural and political criticism This pioneering intervention exhibits the complexity of different Irish cultural and historical responses to ecological exploitation degradation and social justice
