Library, Alice Irene Lyser, 1928 **Dictionary of Mexican Literature** Eladio Cortés, 1992-11-24 This volume features approximately 600 entries that represent the major writers, literary schools and cultural movements in the history of Mexican literature. A collaborative effort by American, Mexican and Hispanic scholars, the text contains bibliographical, biographical and critical material, placing each work cited within its cultural and historical framework. Intended to enrich the English speaking public's appreciation of the rich diversity of Mexican literature, works are selected on the basis of their contribution toward an understanding of this unique artistry. The dictionary contains entries keyed by author and works; the length of each entry determined by the relative significance of the writer or movement being discussed. Each biographical entry identifies the author's literary contribution by including facts about his or her life and works; a chronological list of works; a supplementary bibliography; and when appropriate, critical notes. Authors are listed alphabetically and cross-referenced both within the text and the index to facilitate easy access to information. Selected bibliographical entries are also listed alphabetically by author and include both the original title and English translation, publisher, date and place of publication and number of pages.

Law and Literature: A Still-thriving Relationship Pedro Talavera, 2025-04-17 What kind of relationship exists between law and literature? Why have so many great jurists and philosophers used literature to explore their own disciplines? What were they looking for and what did they find? What can law learn from literature and how does literature reflect legal praxis? This book takes us on a fascinating journey through those questions and their answers. The first part offers a diachronic and thematic overview of the law and literature movement, showing how literature has influenced new ways of thinking about law from a narrative, hermeneutic, humanistic, ethical and critical perspective. The second part analyzes the value of literature in the education of students, lawyers and judges. And the third section presents a captivating analysis of the literary notion of justice and the relationship between literature and the economic analysis of law. Books Abroad, 1927 **Modern**
