Borderities and the Politics of Contemporary Mobile Borders A.

Amilhat-Szary, F. Giraut, 2015-06-08 This book explores the emerging forms and functions of contemporary mobile borders. It deals with issues of security, technology, migration and cooperation while addressing the epistemological and political questions that they raise. The borderities approach illuminates the question of how borders can be the site of both power and counter power. *Borderscaping: Imaginations and Practices of Border Making* Dr Chiara Brambilla, Dr Jussi Laine, Professor Gianluca Bocchi, Professor James W. Scott, 2015-12-28 Using the borderscapes concept, this book offers an approach to border studies that expresses the multilevel complexity of borders from the geopolitical to social practice and cultural production at and across the border. Accordingly, it encourages a productive understanding of the processual, de-territorialized and dispersed nature of borders and their ensuring regimes in the era of globalization and transnational flows, as well as showcasing border research as an interdisciplinary field with its own academic standing. Contemporary bordering processes and practices are examined through the borderscapes lens to uncover important connections between borders as a challenge to national and EU policies and borders as potential elements of political innovation through conceptual re-framings of social, political, economic and cultural spaces. The authors offer a nuanced and critical re-reading and understanding of the border not as an entity to be taken for granted but as a place of investigation and as a resource in terms of the construction of novel geo-political imaginations, social and spatial imaginaries and cultural images. In so doing, they suggest that rethinking borders means deconstructing the interweaving between political practices of inclusion/exclusion and the images created to support and communicate them on the cultural level by Western territorialist modernity. The result is a book that proposes a wandering through a constellation of bordering policies, discourses, practices and images to open new possibilities for thinking, mapping, acting and living borders under contemporary globalization. *Crossing Borders, Dissolving Boundaries* Hein Viljoen, 2013 Borders separate but also connect. Self and other and literary texts not only enact these bordering processes but form part of such processes. This book gestures towards a borderless world, stepping as it were with thousand mile boots from south to north, even across the Atlantic from South Africa to Scandinavia. It also shows how literary texts model and remodel borders and bordering processes in rich and meaningful local contexts. The essays assembled here analyse the crossing and negotiation of borders and boundaries in works by Nadine Gordimer, Ingrid Winterbach, Deneys Reitz, Janet Suzman, Marlene van Niekerk, A.S. Byatt, Thomas Harris, Frank A. Janssen, Eben Venter, Antjie Krog and others under different signs or conceptual points of attraction. These signs include a spiritual turn, eventfulness, self-understanding, ethnic and linguistic mobilization, performative chronotopes, the grotesque, the carceral, the rhetorical and the interstitial. Contributors: Ileana Dimitriu, Heilna du Plooy, John Gouws, Anne Heith, Lida Kruger, Susan Meyer, Adle Nel, Ellen Rees, Johan Schimanski, Tony Ullyatt, Phil van Schalkwyk, Hein Viljoen. *Borderscaping: Imaginations and Practices of Border Making*

Border Aesthetics Johan Schimanski, Stephen F. Wolfe, 2017-04-01 Few concepts are as central to understanding the modern world as borders and the now thriving field of border studies has already produced a substantial literature analyzing their legal ideological geographical and historical aspects Such studies have hardly exhausted the subject's conceptual fertility however as this pioneering collection on the aesthetics of borders demonstrates Organized around six key ideas ecology imaginary in visibility palimpsest sovereignty and waiting the interlocking essays collected here provide theoretical starting points for an aesthetic understanding of borders developed in detail through interdisciplinary analyses of literature audio visual borderscapes historical and contemporary ecologies political culture and migration

Cities in Time Ali Madanipour, 2017-02-23 From street markets and pop up shops to art installations and Olympic parks the temporary use of urban space is a growing international trend in architecture and urban design Partly a response to economic and ecological crisis it also claims to offer a critique of the status quo and an innovative way forward for the urban future Cities in Time aims to explore and understand the phenomenon offering a first critical and theoretical evaluation of temporary urbanism and its implications for the present and future of our cities The book argues that temporary urbanism needs to be understood within the broader context of how different concepts of time are embedded in the city In any urban place multiple discordant and diverse timeframes are at play and the chapters here explore these different conceptions of temporality their causes and their effects Themes explored include how institutionalised time regulates everyday urban life how technological and economic changes have accelerated the city's rhythms our existential and personal senses of time concepts of memory and identity virtual spaces ephemerality and permanence

Mediating Mobility Steffen Köhn, 2016-03-08 Images have become an integral part of the political regulation of migration they help produce categories of legality versus illegality foster stereotypes and mobilize political convictions Yet how are we to understand the relationship between these images and the political in the discourse surrounding migration How can we as anthropologists migration scholars or documentary filmmakers visually represent people who are excluded from political representation And how can such visual representations gain political momentum This volume not only considers the images that circulate with reference to migrants or draw attention to those that accompany show or conceal them The book explores the phenomena of migration with the help of images It offers an in depth analysis of the documentary approaches of Ursula Biemann Renzo Martens Bouchra Khalili Silvain George Raphael Cuomo and Maria Iorio Alex Rivera and Rania Stepha which evoke the particularities

of migrant lifeworlds and examine urgent questions regarding the interrelations between politics and poetics mobility and mediation and the ethics of probability and possibility The author also discusses his own cinematic practice in the making of Tell Me When 2011 A Tale of Two Islands 2012 and Intimate Distance 2015 a trilogy of films that explore the potential to communicate the bodily spatial and temporal dimensions of the experience of migration *Kunstforum international* ,2010
