An Illustrated History of the Big Bend Country Richard F. Steele, 1904 **The Water Hole** Zane Grey, 2014-12-15

It would seem that the end of every war has been followed in the United States by social and moral changes, mostly for the worse. Zane Grey certainly felt that way about the effects of the Great War and to show these changes and how to cope with them became the impulse behind what he called *The Water Hole*. However, before magazine publication, changes were made in his text, including the names of all the characters. Fortunately, Grey's original handwritten manuscript has survived, so now this story can be told with his characters named and presented as he intended them to be.

In 1925, widowed businessman Elijah Winters brings his daughter Cherry from Long Island to stay at a trading post in a remote area, some distance from Flagstaff, Arizona. Removed from the country clubs and speakeasies, Cherry is at first bored with simple ranch life and to entertain herself, she flirts with several of the cowboys, not realizing they are very different from the young men she knew back east. Also very different is Stephen Heftral, a young archaeologist who is searching for an ancient and lost kiva of a primitive Indian tribe that disappeared centuries before in what became the land of the Navajos. Heftral believes that this lost kiva is most probably in a desert fastness called Beckyshibeta, the Navajo word for water hole. Elijah colludes with Heftral to awaken Cherry to a new and healthier way of life by taking her by force, if necessary, to the site. Cherry resents being kidnapped but comes to forget the luxury of her past in the beauty and dangers of the canyons and in the thrill of making an important archaeological discovery.

War and Peace on the Rio Grande Frontier, 1830-1880 Miguel Ángel González-Quiroga, 2020-03-05

The historical record of the Rio Grande valley through much of the nineteenth century reveals well-documented violence fueled by racial hatred, national rivalries, lack of governmental authority, competition for resources, and an international border that offered refuge to lawless men. Less noted is the region's other everyday reality, one based on coexistence and cooperation among Mexicans, Anglo-Americans, and the Native Americans, African Americans, and Europeans who also inhabited the borderlands. *War and Peace on the Rio Grande Frontier, 1830-1880* is a history of these parallel worlds, focusing on a border that gave rise not only to violent conflict but also to cooperation and economic and social advancement. Meeting here are the Anglo-Americans who came to the border region to trade, spread Christianity, and settle; Mexicans seeking opportunity in el norte; Native Americans who raided American and Mexican settlements alike for plunder and captives; and Europeans who crisscrossed the borderlands seeking new futures in a fluid frontier space. Historian Miguel Ángel González-Quiroga draws on national archives, letters, consular records, periodicals, and a host of other sources to give voice to borderlanders' perspectives as he weaves their many varied stories into one sweeping narrative. The tale he tells is one of economic connections and territorial disputes of refugees and bounty hunters, speculation and stakeholding, smuggling and theft, and other activities in which economic considerations often carried more weight than racial prejudice. Spanning the

Anglo settlement of Texas in the 1830s the Texas Revolution the Republic of Texas the US Mexican War various Indian wars the US Civil War the French intervention into Mexico and the final subjugation of borderlands Indians by the combined forces of the US and Mexican armies this is a magisterial work that forever alters complicates and enriches borderlands history Published in association with the William P Clements Center for Southwest Studies at Southern Methodist University in Dallas Texas

The Times History of the War, 1917

The History of the Confederate War, Its Causes and Its Conduct, Vol.1 (of 2) George Cary Eggleston, During the years from 1861 to 1865 one of the greatest wars in all history was fought in this country There were in all three million three hundred and seventy eight thousand men engaged in the fighting of it There are not that many men in all the regular standing armies of Europe combined even if we include the unpaid hordes of Turkey and the military myriads of the armed camp known to geography as Russia The actual fighting field of this war of ours was larger than the whole of western Europe and all of it was trampled over and fought over by great armies The men killed or mortally wounded in our war numbered on the Northern side alone 110 000 The total number of deaths resulting from military operations on the Northern side alone was 350 000 The figures for the Southern side are not accessible owing to the loss of records But as the fighting was equally determined on both sides and as other conditions were substantially equal it is certain that the losses of life were relatively about the same on both sides It is well within the facts therefore to say that this war of ours directly caused the death of more than half a million men No other war in modern history has cost so many lives or half so many We hear much of our recent war with Spain Let us take it as a basis of comparison The total number of men even nominally called into the field in that war was less by nearly two to one than the deaths alone during the Confederate war The number of men who were actually engaged in the Spanish war numbered only about one tenth as many as those who were buried as victims of the Confederate war s battle fields Again the total number of men killed and wounded during the Spanish war including every man who was touched by a bullet or scratched by a sword or bayonet thrust or hurt by a splinter at sea was only two hundred sixty eight That is fewer than the number who were stricken in each of many before breakfast skirmishes of the Confederate war some of which were deemed too insignificant to be reported to headquarters with precision Looking for higher standards of comparison we find that 43 449 men fell killed or wounded at Gettysburg alone That is almost double the loss of the allied forces at Waterloo and probably equal to the total losses on both sides at that greatest and most decisive of European battles There were more than a dozen other battles of the Confederate war which in slaughter fairly deserved comparison with Waterloo These included the Seven Days battle before Richmond and the battles of Fredericksburg Chancellorsville Antietam Shiloh Chickamauga the Wilderness Spottsylvania Cold Harbor the Second Manassas or Bull Run Stone River Petersburg Franklin Lookout Mountain Nashville and several others Still another

measure of the magnitude of a war is its duration It is duration indeed that chiefly determines the amount of human suffering caused by a war especially to the women and children who are war's chief victims Measured by this test of duration the Confederate war exceeded all other recent conflicts in the magnitude of the suffering it inflicted Its first gun was fired at Fort Sumter in April 1861 its last armed conflict did not occur until May 1865 Thus for four years and a month the war endured The Crimean war one of the longest of nineteenth century conflicts endured for less than half that length of time and the actual fighting of it lasted less than one fourth as long The duration of the Confederate war was seven times as great as that of the stupendous Franco Prussian conflict of 1870 which overthrew the second Napoleonic empire consolidated Germany and made the republic an enduring fact in France It was twenty four times as long as that of the French Austrian war which set Italy free or as the War of 1866 between Austria and Prussia which laid the foundations of the present German empire
