War Child A Child Soldiers Story:

War Child Emmanuel Jal, 2010 Emmanuel Jal was seven years old when he became a soldier and went into battle with the rebel army in Sudan's bloody civil war. Believing he was being sent to school, Emmanuel trekked his way to a refugee camp in Ethiopia where he became one of the Lost Boys of Sudan. After nearly five years of fighting, Emmanuel was smuggled into Kenya by Emma McCune, a British aid worker, and finally began to have a childhood and an education. When Emma died tragically, Emmanuel struggled to find purpose in life but eventually, through the power of prayer and music, he succeeded. From child soldier to refugee to rap star, War Child is one boy's incredible story of survival and triumph. *War Child*

Emmanuel JAL., 2009 [Child Soldiers in the Western Imagination](#) David M. Rosen, 2015-10-12 When we hear the term child soldiers, most Americans imagine innocent victims roped into bloody conflicts in distant war-torn lands like Sudan and Sierra Leone. Yet our own history is filled with examples of children involved in warfare from adolescent prisoner of war Andrew Jackson to Civil War drummer boys who were once viewed as symbols of national pride rather than signs of human degradation. In this daring new study, anthropologist David M. Rosen investigates why our cultural perception of the child soldier has changed so radically over the past two centuries. *Child Soldiers in the Western Imagination* reveals how Western conceptions of childhood as a uniquely vulnerable and innocent state are a relatively recent invention. Furthermore, Rosen offers an illuminating history of how human rights organizations drew upon these sentiments to create the very term child soldier, which they presented as the embodiment of war's human cost. Filled with shocking historical accounts and facts and revealing the reasons why one cannot spell infantry without infant, *Child Soldiers in the Western Imagination* seeks to shake us out of our pervasive historical amnesia. It challenges us to stop looking at child soldiers through a biased set of idealized assumptions about childhood so that we can better address the realities of adolescents and pre-adolescents in combat. Presenting informative facts while examining fictional representations of the child soldier in popular culture, this book is both eye-opening and thought-provoking. **Jewish Child Soldiers in the Bloodlands of Europe** David M. Rosen, 2022-03-03

This book is about the experiences of Jewish children who were members of armed partisan groups in Eastern Europe during World War II and the Holocaust. It describes and analyzes the role of children as activists, agents, and decision makers in a situation of extraordinary danger and stress. The children in this book were hunted like prey and ran for their lives. They survived by fleeing into the forest and swamps of Eastern Europe and joining anti-German partisan groups. The vast majority of these children were teenagers between ages 11 and 18, although some were younger. They were, by any definition, child soldiers, and that is the reason they lived to tell their tales. The book will be of interest to general and academic audiences. There is also great interest in children and childhood across disciplines of history and the social sciences. It is likely to spark considerable debate and interest since its argument runs counter to the generally accepted wisdom that child soldiers must first and foremost be seen as victims of their recruiters. The argument of this book is that time, place, and context play a key

role in our understanding of children's involvement in war and that in some contexts children under arms must be seen as exercising an inherent right of self defense They Fight Like Soldiers, They Die Like Children Roméo Dallaire, Jessica Dee Humphreys, 2011-06-01 Traces the proliferation of child soldier use throughout the world as well as international efforts to end the practice *Child Soldiers* Dr. U C Jha, 2018-01-01 As many as fifty non state armed groups NSAGs in countries such as Afghanistan Colombia the Democratic Republic of Congo India Iraq Israel Palestine Libya Mali Pakistan the Philippines Somalia South Sudan Syria Thailand and Yemen are engaged in the recruitment and use of children in armed conflict In Somalia South Sudan Syria and Yemen the situation continues to be perilous with many hundreds of children recruited used killed and maimed Children have been used by the NSAGs as executioners and suicide bombers By an estimate there are 300 000 350 000 child soldiers worldwide and the alarming trend continues to grow According to the United Nations there has been a fivefold increase in the number of children recruited in a few ongoing armed conflicts This book gives an up to date and comprehensive analysis of the recruitment and use of child soldiers worldwide and examines the inadequacy of international institutions and laws in protecting children It is an invaluable resource for anyone interested or working in the field of protecting children teachers students lawyers government officials military and police personnel researchers and human rights activists *Terrorist Groups and the New Tribalism* Jeffrey Kaplan, 2010-02-25 The central focus of this book is a small but vitally important group of movements that constitute a distinct fifth wave of modern terrorism here called the New Tribalism *Terrorist Groups and the New Tribalism* examines a collection of terrorist or insurgent movements whose similarity in tactics strategic vision and desire to radically reshape their worlds to conform with a Golden Age dream of perfection which is to be achieved through a genocidal or ethnic cleansing process to make way for the emergence of a new radically perfected tribal utopia in a single generation These shared strategic and tactical factors allow them to be examined through a comparative lens as a distinct fifth wave of modern terrorism Structured around the theoretical framework of David Rapoport's Four Waves thesis the book examines anomalous movements that began within a distinct wave of international terrorism but following a crisis model has turned inwards toward radical localism tribalism and xenophobia The text is divided between theory and in depth case studies of the Ugandan Lord's Resistance Army and the Sudanese Janjaweed It concludes with a design for further field work based research This book will be of interest to students of Terrorism and Political Violence Genocide Conflict Studies African politics and Political Science in general Jeffrey Kaplan is an Associate Professor of Religion and the Director of the Institute for the Study of Religion Violence and Memory at the University of Wisconsin Oshkosh He is the author of 11 books on terrorism and political violence Runaway Genres Yogita Goyal, 2019-10-29 Winner 2021 Ren Wellek Prize given by the American Comparative Literature Association Winner 2021 Barbara Perkins and George Perkins Award given by the International Society for the Study of Narrative Honorable Mention 2020 James Russell Lowell Prize given by the Modern Language Association Argues that the slave narrative is a new world

The Violence of Victimhood Diane Enns, 2015-08-06 We know that violence breeds violence We need look no further than the wars in the western Balkans the genocide in Rwanda or the ongoing crisis in Israel and Palestine But we don't know how to deal with the messy moral and political quandaries that result when victims become perpetrators When the line between guilt and innocence wavers and we are confronted by the suffering of the victim who turns to violence judgment may give way to moral relativism or liberal tolerance compassion to a pity that denies culpability This is the point of departure in *The Violence of Victimhood* and the impetus for its call for renewed considerations of responsibility judgment compassion and nonviolent politics To address her provocative questions Diane Enns draws on an unusually wide ranging cast of characters from the fields of feminism philosophy peacebuilding political theory and psychoanalysis In the process she makes an original contribution to each enriching discussions that are otherwise constricted by disciplinary boundaries and an arid distinction between theory and practice

Representations of Child Soldiers in Contemporary African Narratives Ademola Adesola, 2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the casus belli legitimating those wars are genuine or not those conflicts and children's involvement in them are understood within the same racist colonial

and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries. Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone, Liberia, Congo, Brazzaville, Nigeria, notable for their exploitation of children for military ends. The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities.

The Oxford Handbook of Children's Rights Law Jonathan Todres, Shani M. King, 2020-02-19

Children's rights law is a relatively young but rapidly developing discipline. The U N Convention on the Rights of the Child, the field's core legal instrument, is the most widely ratified human rights treaty in history. Yet like children themselves, children's rights are often relegated to the margins in mainstream legal, political, and other discourses despite their application to approximately one third of the world's population and every human being's first stages of life. Now thirty years old, the Convention on the Rights of the Child (CRC) signalled a definitive shift in the way that children are viewed and understood from passive objects subsumed within the family to full human beings with a distinct set of rights. Although the CRC and other children's rights law have spurred positive changes in law, policies, and attitudes toward children in numerous countries, implementation remains a work in progress. We have reached a state in the evolution of children's rights in which we need more critical evaluation and assessment of the CRC and the large body of children's rights law and policy that this treaty has inspired. We have moved from conceptualizing and adopting legislation to focusing on implementation and making the content of children's rights meaningful in the lives of all children. This book provides a critical evaluation and assessment of children's rights law, including the CRC. With contributions from leading scholars and practitioners from around the world, it aims to elucidate the content of children's rights law, explore the complexities of implementation, and identify critical challenges and opportunities for children's rights law.

Mediating Violence from Africa George MacLeod, 2023-10

Mediating Violence from Africa explores how African and non-African Francophone authors, filmmakers, editors, and scholars have packaged, interpreted, and filmed the violent histories of post-Cold War Francophone Africa. This violence, much of which unfolded in front of Western television cameras, included the use of child soldiers facilitated by the Soviet Union's castoff Kalashnikov rifles, the rise of Islamist terrorism in West Africa, and the horrific genocide against the Tutsi in Rwanda. Through close readings of fictionalized child soldier narratives, cinematic representations of Islamist militants, genocide survivor testimony, and Western scholarship, George S. MacLeod analyzes the ways Francophone African authors and filmmakers, as well as their editors and scholarly critics, negotiate the aesthetic, political, cultural, and ethical implications of making these traumatic stories visible. MacLeod argues for the need to periodize these productions within a post-Cold War framework to emphasize how shifts in post-1989 political discourse are echoed, contested, or subverted by contemporary Francophone authors, filmmakers, and

Western scholars The questions raised in *Mediating Violence from Africa* are of vital importance today How the world engages with and responds to stories of recent violence and loss from Africa has profound implications for the affected communities and individuals More broadly in an era in which stories and images of violence from terror attacks to school shootings to police brutality are disseminated almost instantly and with minimal context these theoretical questions have implications for debates surrounding the ethics of representing trauma the politicization of memory and Africa's place in a global as opposed to a postcolonial or Euro African economic and political landscape [The Palgrave Encyclopedia of Global Security Studies](#) ,2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world

Children, Childhood, and the Future Andrea Kleeberg-Niepage, 2020-01-10 Although most of the world's children live in the Global South much of the corpus of scientific knowledge which forms the basis of the current notion of good childhood worldwide is drawn from research on Western middle class children Even cross cultural research often applies the Western model of childhood as the standard to which others must correspond This volume serves to bridge this gap by both bringing up significant features of the development and socialisation of children in African countries and presenting cross cultural procedures which help to discuss and develop differentiated and joint ideas about childhood instead of implementing one sided standards which are disconnected from most children's lives
