Warm House Cool House Inspirational Designs For Low Energy Housing

Leeza Sipek, Hazel Foote, Matthew Sipek

Warm House Cool House Inspirational Designs For Low Energy Housing:

Warm House Cool House Nick Hollo, 2008 This book does more than just explain the benefits of low energy dwellings lower power bills and more comfortable surroundings and how average Australians can achieve them It inspires and encourages the reader with examples of beautiful and comfortable homes that are energy efficient and immensely livable Illustrated throughout with photos sketches and plans including a colour section all the examples are Australian from all our different climatic zones

The Elements of Architecture Scott Drake, 2014-02-04 The Elements of Architecture is a clear and well structured introduction to sustainable architecture which concentrates on general principles to make an accessible and comprehensive primer for undergraduate students The author takes a fresh and logical approach focusing on the way aspects of the built environment are experienced by the occupants and how that experience is interpreted in architectural design He works through basic elements and senses sun heat light sound air water and fire to explain and frame effective environmental architectural design not only arguing that the buildings we inhabit should be viewed as extensions of our bodies that interact with and protect us from these elements but also using this analogy to explain complex ideas in an accessible manner

The Owner Builder Leeza Sipek, Hazel Foote, Matthew Sipek, 2012-11-15 Building your own home could save you thousands of dollars The Owner Builder is an easy to understand step by step guide for people who want to build their dream home in a financially responsible manner From choosing a block of land to decorating the inside of the house this book guides the reader through the entire building process The authors share their personal experiences with photos of the building process in 68 steps They include tips and hints on the approval process construction ideas and how to avoid mistakes They also uncover potential hidden costs and offer other ways to save money if you don't have time to manage the construction yourself such as hire a project manager which is cheaper than a contract builder Renovators DIY enthusiasts and anyone considering building a home will find a wealth of practical information in this book Even if you are hiring a builder this book can help you understand what is involved in building a home and what to expect at each stage of the project

Regional Cultures, Economies, and Creativity Ariella Luyn, Eduardo Fuente, 2019-11-26 Drawing on Australian and comparative case studies this volume reconceptualises non metropolitan creative economies through the qualities of place This book examines the agricultural and gastronomic cultures surrounding native foods coastal sculpture festivals universities and regional communities wine in regional Australia and Canada the creative systems of the Hunter Valley musicians in outback settings Fab Labs as alternatives to clusters cinema and the cultivation of authentic landscapes and tensions between the representational and non representational in the cultural economies of the Blue Mountains What emerges is a picture of rural and regional places as more than the other of metropolitan creative cities Place itself is shown to embody affordances unique institutional structures and the invisible threads that hold communities together If in the wake of the publication of Florida's Rise of the Creative Class creative industries models tended to emphasize big cities and the

spatial cum cultural imaginaries of the Global North recent research and policy discourses especially in the Australian context have paid greater attention to small cities rural and remote creativity This collection will be of interest to scholars students and practitioners in creative industries urban and regional studies sociology geography and cultural planning

The Architect Maggie Toy,2001 The objective of this book is to banish the notion of architecture being a male dominated field by showcasing the work of a wide variety of world class women architects demonstrating the role women are playing in contemporary architecture First book of its kind to survey the role of women in architecture Features a wide international selection of world class contemporary women architects Beautifully illustrated throughout **Warm House Cool House, 2 Edition** Nick Hollo,2011-11-01 Warm House Cool House simplifies the science behind low energy housing design and suggests inspiring and achievable ways to apply energy efficient methods to new and existing homes Jamie Durie We all want to minimise our environmental impact but we don t always know how In this new edition of the bestselling Warm House Cool House respected Australian architect Nick Hollo provides valuable advice illustrated by more than 100 inspiring contemporary examples of low energy housing design to help keep our homes cool in summer and warm in winter with little or no cooling and heating by appliances The book shows how we can live comfortably without airconditioning in Far North Queensland be cosy and bushfire proof in the Australian Alps and cope with temperature fluctuations in cities like Melbourne and Adelaide From project and kit homes to new architect designed houses renovations and extensions these low energy principles can easily be incorporated into every home Whether you are planning to renovate build or buy this book offers clever ideas on how to make any house anywhere an environmentally sustainable comfortable and attractive place to live in all year round while keeping electricity gas and water bills comfortably low *Architecture, City, Environment* Koen Steemers,Simos Yannas,2000 PLEA is a network of individuals sharing expertise in the arts sciences planning and design of the built environment It serves as an international interdisciplinary forum to promote discourse on environmental quality in architecture and planning This 17th PLEA international conference addresses sustainable design with respect to architecture city and environment at the turn of the millennium The central aim of the conference is to explore the interrelationships and integration of architecture city and environment The Proceedings will be of interest to all those involved in bioclimatic design and the application of natural and innovative techniques to architecture and planning The conference is organised by the Martin Centre for Architectural and Urban Studies University of Cambridge and the Cambridge Programme for Industry University of Cambridge *Australian National Bibliography* ,1995-05 *Architectural Publications Index* ,1997
