The Afrofuturist Evolution Ytasha L. Womack, 2025-03-25 The spaces revealed through the practice of time manipulation in Black cultures lend themselves to storytelling a time hopping process that integrates memory and community Drawing on disparate philosophies and science behind electronic beat making lyricism dance memory myth and cosmology in the African and African Diasporic traditions this book seeks to demonstrate relationships between rhythm space and ways of being as an articulation of futures and alternate realities made present Infused with author and Afrofuturist educator Ytasha Womack's own practice and contemplations this book rich in anecdotes will interrogate Afrofuturism as an experience that unfolds through combinations

of being a maker and theorist Readers will take a creative journey that allows them to bring Afrofuturist practices into their own lives The goal is to expand imagination rootedness and possibility From Senegalese poet political theorist and politician Leopold Sedar Senghor s ideas on the plastic arts and Negritude to writer Malidoma Patrese Some s articulation of water symbolism in Burkina Faso from tap dance exercises to composer DJ and recording artist King Britt s Blacktronica The Afrofuturist Evolution aims to demonstrate Afrofuturism as embodied theory in practice This book in simple straightforward but powerful ways invites readers to bring these practices into their own lives

Representations of War, Migration, and Refugeehood Daniel H. Rellstab, Christiane Schlote, 2014-09-19 War migration and refugeehood are inextricably linked and the complex nature of all three phenomena offers profound opportunities for representation and misrepresentation This volume brings together international contributors and practitioners from a wide range of fields practices and backgrounds to explore and problematize textual and visual inscriptions of war and migration in the arts the media and in academic public and political discourses The essays in this collection address the academic and political interest in representations of the migrant and the refugee and examine the constructed nature of categories and concepts such as war refugee e victim border home non place and dis location Contributing authors engage with some of the most pressing questions surrounding war migration and refugeehood as well as with the ways in which war and its multifarious effects and repercussions in society are being framed propagated glorified or contested This volume initiates an interdisciplinary debate which re evaluates the relationship between war migration and refugeehood and their representations

Cobbett's Cyclopedic Survey of Chamber Music Walter Willson Cobbett, 1929

Church Music in America, 1620-2000 John Ogasapian, 2007 The history of American church music is a particularly fascinating and challenging subject if for no other reason than because of the variety of diverse religious groups that have immigrated and movements that have sprung up in American Indeed for the first time in modern history possibly the only time since the rule of medieval Iberia under the Moors different faiths have co existed here with a measure of peace sometimes ill humored occasionally hostile but more often amicable or at least tolerant influencing and even weaving their traditions into the fabric of one another s worship practices even as they competed for converts in the free market of American religion This overview traces the musical practices of several of those groups from their arrival on these shores up to the present and the way in which those practices and traditions influenced each other leading to the diverse and multi hued pattern that is American church music at the beginning of the twenty first century The tone is non technical there are no musical examples and the musical descriptions are clear and concise In short it is a book for interested laymen as well as professional church musicians for pastors and seminarians as well as students of American religious culture and its history

The Musical Times & Singing-class Circular , 1919

God Bless America Kathleen E.R. Smith, 2021-10-21 After Pearl Harbor Tin Pan Alley songwriters rushed to write the Great American War Song an Over There for World War II The most popular songs however continued to be romantic ballads escapist tunes or novelty songs To

remedy the situation the federal government created the National Wartime Music Committee an advisory group of the Office of War Information OWI which outlined proper war songs along with tips on how and what to write The music business also formed its own Music War Committee to promote war songs Neither group succeeded The OWI hoped that Tin Pan Alley could be converted from manufacturing love songs to manufacturing war songs just as automobile plants had retooled to assemble planes and tanks But the OWI failed to comprehend the large extent by which the war effort would be defined by advertisers and merchandisers Selling merchandise was the first priority of Tin Pan Alley and the OWI never swayed them from this course Kathleen E R Smith concludes the government s fears of faltering morale did not materialize Americans did not need such war songs as Goodbye Mama I m Off To Yokohama There Are No Wings On a Foxhole or even The Sun Will Soon Be Setting On The Land Of The Rising Sun to convince them to support the war The crusade for a proper war song was misguided from the beginning and the music business then and now continues to make huge profits selling love not war songs

The Cambridge Companion to Benjamin Britten Mervyn Cooke,1999-06-28 The Cambridge Companion to Benjamin Britten is a comprehensive guide to the composer s work aimed both at the non specialist and music student It sheds light on both the composer s stylistic and personal development offering new interpretations of his operatic works and discussing his characteristic working methods Topics treated here in detail for the first time include Britten s work in the cinema in the 1930s his lifelong pacifism and his strong interest in the music of the Far East other chapters include reassessments of his relationship with W H Auden and his attitude towards childhood comprehensive analyses of major works and a concise history of the Aldeburgh Festival A distinguished team of contributors include some who worked with the composer during his lifetime as well as leading representatives of the younger generation of Britten scholars on both sides of the Atlantic

The Heptatonic Rhythm & Bronze Serpent's Seven Musical Spheres Oliver Joseph Durra,2025-10-22 The Heptatonic Rhythm Bronze Serpent s Seven Musical Spheres is an ambitious work that explores the recurring pattern of the number seven as a universal code embedded in creation history and spiritual reality The book weaves together biblical theology natural science music theory cosmology and art to argue that the heptatonic rhythm the structure of sevens that governs everything from the seven days of creation and the seven classical planets to the seven notes of the musical scale and the cycles of human civilization This pattern the author contends is not coincidental but a divine blueprint that reveals the interconnectedness of all things Central to the book is the idea that the seven day creation week in Genesis is a prophetic template that repeats in larger cycles throughout history weeks months years centuries and millennia Each day of creation is mapped to a spiritual theme of creation division sin death chosen competition and rest and these themes echo through biblical prophecy the structure of the Bible and even the organization of time and music The author draws parallels between the biblical sevens and the seven classical planets the seven alchemical

metals and the seven notes of the heptatonic scale showing how these patterns align across disciplines A major symbol in the book is the bronze serpent from Numbers 21 which is interpreted as a cosmic archetype of judgment healing and mediation between heaven and earth The serpent when lifted up is linked to the seven spheres or planets representing Christ as the axis that unites all levels of creation and brings restoration The book also explores the symbolism of metals bronze as a sign of divine judgment and refinement and brass as a symbol of counterfeit spirituality using the evolution of metallurgy as a metaphor for spiritual truth versus deception The work concludes with a critique of modern timekeeping and materialism proposing a return to a divinely aligned calendar and rhythm of life It traces the author's own genealogy as a case study in the endurance of biblical prophecy and the persistence of God's promises Ultimately the book envisions the universe as a divine symphony with Christ as the conductor and calls for a restoration of the original sacred rhythms that govern both the seen and unseen realms

Music, Encounter, Togetherness Nicholas Cook, 2024-04-23

Modern Western musical thought tends to represent music as a thing a pattern a structure even an organism than as a human practice *Music Encounter Togetherness* focusses on music as something people do as a mode of

encounter between individuals and cultures and as an agent of interpersonal and social togetherness It presents music as a utopian dimension of everyday life

The War Lawyers Craig Jones, 2020-11-26 Over the last 20 years the world's most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military

lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence
