## **Water And Other Stories:**

Bad Water and Other Stories of the Alaskan Panhandle Tom Hunt, 2013-03 *Bad Water and Other Stories of the Alaskan Panhandle* is a book of short stories set in southeast Alaska on an archipelago about the size of Florida. There are not many people and most of them live in a few small scattered towns. Some live in the more remote areas of the thousands of miles of coastline and hundreds of backwater bays and coves making a living at whatever is available. Alaska is a place where geography and weather dictate human behavior and that could mean eating the same dried beans, rice, deer meat, and fish for a good part of the year. With no freeways and little law enforcement, a 911 call means contacting the Coast Guard; people must learn to be self-sufficient, especially in times of emergencies. Sometimes people make their own solutions to solve problems. If a solution doesn't work and you're still alive, it's time to try another. The folks that live in this remote part of Alaska do whatever it takes to make it work. There's a freedom that can't be had in civilization, but the price is high. These are their stories.

**Martin Amis** Brian Finney, 2013-04-15 Booker shortlisted for Time's Arrow and widely known for his novels, short stories, essays, reviews, and autobiographical works, Martin Amis is one of the most influential of contemporary British writers. This guide to Amis's diverse and often controversial work offers an accessible introduction to the contexts and many interpretations of his texts from publication to the present, an introduction to key critical texts and perspectives on Amis's life and work situated within a broader critical history, cross-references between sections of the guide in order to suggest links between texts, contexts, and criticism, suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of Martin Amis and seeking not only a guide to his works but also a way through the wealth of contextual and critical material that surrounds them.

**It's in the Water and Other Stories** Ronald W. Hull, 2011-09 Fifteen science fiction, real life, drama, satire, and children's stories range from touching to amazing to scary. Hull uses science and real life experience to weave his tales with a twist.

**Bodies of Water** Astrida Neimanis, 2017-01-26 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). Water is the element that more than any other ties human beings in to the world around them, from the oceans that surround us to the water that makes up most of our bodies. Exploring the cultural and philosophical implications of this fact, *Bodies of Water* develops an innovative new mode of posthuman feminist phenomenology that understands our bodies as being fundamentally part of the natural world and not separate from or privileged to it. Building on the works by Luce Irigaray, Maurice Merleau-Ponty, and Gilles Deleuze, Astrida Neimanis's book is a landmark study that brings a new feminist perspective to bear on ideas of embodiment and ecological ethics in the posthuman critical moment.

The Water of Life Rita Knipe, 1989-08-01

Mythology flows like a subterranean stream throughout Hawaii. Rita Knipe has selected a number of characteristic myths and mythological figures from the rich pantheon of Hawaiian deities. As she retells their stories, illustrated by Hawaii artist

Dietrich Varez the transposition of such primal drama to the pages of this book becomes poetic theater The dramatic plots are myths and legends chosen from the oral traditions of unique island people but the underlying themes and symbols are archetypal and eternal Drawing parallels between Hawaiian mythology universal patterns and individual behavior the author illustrates certain basic Jungian concepts and explains how we express them in the drama of our own lives **Heavy Water and Other Stories** Martin Amis,1999 **The Water Will Come** Jeff Goodell,2017-10-24 What if Atlantis wasn't a myth but an early precursor to a new age of great flooding Across the globe scientists and civilians alike are noticing rapidly rising sea levels and higher and higher tides pushing more water directly into the places we live from our most vibrant historic cities to our last remaining traditional coastal villages With each crack in the great ice sheets of the Arctic and Antarctica and each tick upwards of Earth's thermometer we are moving closer to the brink of broad disaster By century's end hundreds of millions of people will be retreating from the world's shores as our coasts become inundated and our landscapes transformed From island nations to the world's major cities coastal regions will disappear Engineering projects to hold back the water are bold and may buy some time Yet despite international efforts and tireless research there is no permanent solution no barriers to erect or walls to build that will protect us in the end from the drowning of the world as we know it The Water Will Come is the definitive account of the coming water why and how this will happen and what it will all mean As he travels across twelve countries and reports from the front lines acclaimed journalist Jeff Goodell employs fact science and first person on the ground journalism to show vivid scenes from what already is becoming a water world An immersive mildly gonzo and depressingly well timed book about the drenching effects of global warming and a powerful reminder that we can bury our heads in the sand about climate change for only so long before the sand itself disappears Jennifer Senior New York Times

**Many Things Under a Rock** David Scheel,2023-06-13 Mind blowing and soul expanding Sy Montgomery author of The Soul of an Octopus A behavioral ecologist's riveting account of his decades long obsession with octopuses his discoveries adventures and new scientific understanding of their behaviors Of all the creatures of the deep blue none is as captivating as the octopus In Many Things Under a Rock marine biologist David Scheel investigates four major mysteries about these elusive beings How can we study an animal with perfect camouflage and secretive habitats How does a soft and boneless creature defeat sharks and eels while thriving as a predator of the most heavily armored animals in the sea How do octopus bodies work And how does a solitary animal form friendships entice mates and outwit rivals Over the course of his twenty five years studying octopuses Scheel has witnessed a sea change in what we know and are able to discover about octopus physiology and behavior even an octopus's inner life Here he explores amazing new scientific developments weaving accounts of his own research and surprising encounters with stories and legends of Indigenous peoples that illuminate our relationship with these creatures across centuries In doing so he reveals a deep affinity between humans and even the most unusual and unique undersea dwellers Octopuses are complex emotional and cognitive beings even as Scheel unearths

explanations for the key mysteries that have driven his work he turns up many more things of wonder that lurk underneath This is the story of what we have learned and what we are still learning about the natural history and wondrous lives of these animals with whom we share our blue planet

**Water Politics and Spiritual Ecology** Lisa Palmer, 2015-05-15 As water resources diminish with increasing population and economic pressures as well as global climate change this book addresses a subject of ever increasing local and global importance In many areas water is not only a vital resource but is also endowed with an agency and power that connects people spirit beings place and space The culmination of a decade of ethnographic research in Timor Leste this book gives a critical account of the complex social and ecological specificities of a water focused society in one of the world s newest nations Comparatively framed by international examples from Asia South America and Africa that reveal the need to incorporate and foreground cultural diversity in water governance it provides deep insight into the global challenge of combining customary and modern water governance regimes In doing so it addresses a need for sustained critical ecological inquiry into the social issues of water governance Focusing on the eastern region of Timor Leste the book explores local uses beliefs and rituals associated with water It identifies the ritual ecological practices contexts and scales through which the use negotiation over and sharing of water occurs and its influence on the entire sociocultural system Building on these findings the book proposes effective conceptual and methodological tools for advancing community engagement and draws out lessons for more integrated and sustainable water governance approaches that can be applied elsewhere This book will be of great interest to students and researchers in environmental studies environmental policy and governance

Think to New Worlds Joshua Blu Buhs, 2024-07-03 This book is about Charles Fort his followers and the surprising influence they have had on science fiction the avant garde UFOlogy and more broadly on the role of spirituality and conspiracy in the modern world Fort was an author and maverick philosopher who wrote four non fiction books about anomalies rains of frogs mysterious disappearances unexplained lights in the sky for which he offered hypotheses that even he did not always accept as true His books developed into a monistic philosophy that denounced science as a machine for generating truth In his view science was a small part of a larger system in which truth and falsity were constantly transforming one into the other This was not a rejection of the modern world but instead its fulfillment Fort prophesied the next stage in intellectual evolution after the scientific era He inspired four overlapping groups members of the Fortean Society science fiction fans and writers avant garde artists and flying saucer enthusiasts First We Must Think to New Worlds takes up each of these groups in turn to ask How can the human imagination be expanded What is the fundamental structure of the universe And how does power move As they developed their responses Fort s followers mixed Forteanism with Fundamentalism New Agery and conspiracy as well as a host of other forms of modern enchantments such as the ironic imagination scientific wonder and Theosophical syncretism Each chapter is interrupted by and concludes with shorter sections that focus on particular Fortean events as a way to deepen themes

*Black-Water Women* Carmen

Subryan,2008-02 *Black Water Women* explores the tensions between men and women in the Guyanese culture of the 40 s 50 s and 60 s as well as the tensions between immigrants transplanted to the United States The stories are told from the point of view of Sara and her mother Cleo Tina and Sanka who live beside the Demerara River whose waters black and mysterious threaten to engulf their bodies and souls The reader can empathize with these women whose triumphs and tragedies mirror those of women the world over This novel also gives the reader the opportunity to explore Guyana s unique culture of the period and laugh at the characters idiosyncrasies while sympathizing with their predicaments *Love and Salt Water* Ethel Wilson,2013-09-03 Ellen Guppy is the reluctant heroine of Ethel Wilson s final novel *Love and Salt Water* Saddened by a painful childhood Ellen has adopted a skeptical independence and learned too well to hold her heart in reserve But as the novel unfolds Ellen undergoes something of a sea change learning to accept love along with the sorrow that is rarely far from love First published in 1956 *Love and Salt Water* is a mature and at times disturbing synthesis of Ethel Wilson s major themes the independence of human lives the strange alchemy of chance and the healing illumination of love *Catalogue of Books Recommended for Public Libraries by the Education Department, Ontario* Ontario. Department of Education,1895
