JOHN BERGER

Seeing comes before words. The child looks and recognizes before it can speak.

But there is also another sense in which seeing comes before words. It is seeing which establishes our place in the surrounding world; we explain that world with words, but words can never undo the fact that we are surrounded by it. The relation between what we see and what we know is never settled.

The Surrealist painter Magritte commented on this always-present gap between words and seeing in a painting called *The Key of Dreams*.

The way we see things is affected by what we

Narrative and Other Readings in the Book of Esther Else K. Holt, 2021-04-08 This collection of essays considers the Book of Esther from a literary and sociological perspective In part one Else Holt outlines the main questions of historical critical research in the Book of Esther She also discusses the theological meaning of a biblical book without God and examines how the book was transmitted through the last centuries BCE She also explores how the Hebrew and Greek variants of the Book of Esther picture its main character Esther the Jewish queen of Persia In part two Holt offers deconstructive reading of themes hidden under the surface levels of the book Chapters include discussions of Esther's initiation into her role as Persian queen the inter textual conversation with two much later texts *The Arabian Nights* and *The Story of O* and the relationship between Mordecai the Jew and his opponent Haman the Agagite as a matter of mimetic doublings The last part of the book introduces the sociological concept of ethnicity construction as the backdrop for perceiving the instigation of the Jewish festival Purim and the violence connected to it and looks at the Book of Esther as an example of trauma literature The concluding chapter analyses the moral quality of the book of Esther asking the question Is it a bedtime story

Gender and the Media Rosalind Gill, 2015-10-02 Written in a clear and accessible style with lots of examples from Anglo American media *Gender and the Media* offers a critical introduction to the study of gender in the media and an up to date assessment of the key issues and debates Eschewing a straightforwardly positive or negative assessment the book explores the contradictory character of contemporary gender representations where confident expressions of girl power sit alongside reports of epidemic levels of anorexia among young women moral panics about the impact on men of idealized representations of the six pack but near silence about the pervasive re sexualization of women's bodies along with a

growing use of irony and playfulness that render critique extremely difficult The book looks in depth at five areas of media talk shows magazines news advertising and contemporary screen and paperback romances to examine how representations of women and men are changing in the twenty first century partly in response to feminist queer and anti racist critique Gender and the Media is also concerned with the theoretical tools available for analysing representations A range of approaches from semiotics to postcolonial theory are discussed and Gill asks how useful notions such as objectification backlash and positive images are for making sense of gender in today s Western media Finally Gender and the Media also raises questions about cultural politics namely what forms of critique and intervention are effective at a moment when ironic quotation marks seem to protect much media content from criticism and when much media content from Sex and the City to revenge adverts can be labelled postfeminist This is a book that will be of particular interest to students and scholars in gender and media studies as well as those in sociology and cultural studies more generally
