

A white Toyota Wish 2015 is shown driving on a paved road. The car is captured from a front-three-quarter angle, moving towards the left. It has a black front grille with the Toyota logo, and its license plate reads 'RAV 2825'. The background features a chain-link fence, some greenery, and a blurred white car in the distance. The overall scene is brightly lit, suggesting daytime.

Learning to Improve Anthony S. Bryk,Louis M. Gomez,Alicia Grunow,Paul G. LeMahieu,2015-03-01 As a field education has largely failed to learn from experience Time after time promising education reforms fall short of their goals and are abandoned as other promising ideas take their place In *Learning to Improve* the authors argue for a new approach Rather than implementing fast and learning slow they believe educators should adopt a more rigorous approach to improvement that allows the field to learn fast to implement well Using ideas borrowed from improvement science the authors show how a process of disciplined inquiry can be combined with the use of networks to identify adapt and successfully scale up promising interventions in education Organized around six core principles the book shows how

networked improvement communities can bring together researchers and practitioners to accelerate learning in key areas of education Examples include efforts to address the high rates of failure among students in community college remedial math courses and strategies for improving feedback to novice teachers Learning to Improve offers a new paradigm for research and development in education that promises to be a powerful driver of improvement for the nation s schools and colleges
