Feminism, Prostitution and the State Eilis Ward, Gillian Wylie, 2017-02-17 This edited volume focuses on charting the rise of neo abolitionism and offering a critique of the idea its logics and consequences A model of state policy which aims to abolish prostitution through legislation Neo abolitionism criminalises the buyer of sex but not the seller It is currently law in Sweden and other Nordic states and dominates the framing of policy debates in many other Western liberal contexts Pressure for adoption of this policy has come from radical feminists who understand prostitution and sex trafficking as a form of violence against women This volume argues that this convergence between radical feminism and state s interests arises from the emergence of on the one hand governance feminism which seeks to have its ideals implemented through top down sovereigntist means and on the other hand state s interests in legitimising stricter border controls and law enforcement responses in relation to transnational organised criminality illegal migration and security Based around a series of country case studies each chapter will explore the politics surrounding the emergence of neo

abolitionism and its trajectory through those polities whether the paradigm has been adopted rejected or is still under debate The volume will be of great interest to students and scholars of Social and Public Policy Gender and Women s Studies Politics and International Relations and Critical Legal Studies Criminology **Human Trafficking Is a Public Health Issue**

Kelley,2017-05-02 What can the international community do when countries would rather ignore a thorny problem Scorecard Diplomacy shows that despite lacking traditional force public grades are potent symbols that can evoke countries concerns about their reputations and motivate them to address the problem The book develops an unconventional but careful argument about the growing phenomenon of such ratings and rankings It supports this by examining the United States foreign policy on human trafficking using a global survey of NGOs case studies thousands of diplomatic cables media stories 90 interviews worldwide and other documents All of this is gathered together in a format that walks the reader through the mechanisms of scorecard diplomacy including an assessment of the outcomes Scorecard Diplomacy speaks both to those keen to understand the pros and cons of US policy on human trafficking and to those interested in the central question of influence in international relations The book s companion website can be found at www.scorecarddiplomacy.org **US-Japan Human Rights Diplomacy Post 1945** Roger Buckley,2025-10-01 Comprising two volumes this is a pioneering study which examines how the United States has deployed public diplomacy with Japan to

confront Japanese sexual and labour trafficking while also charting the successes and failures of the US's own record on anti trafficking practices at home and abroad The subject is an important aspect of human rights advocacy where much remains either unknown or imprecise with regard to a phenomenon that involves millions of people across all continents and within all nation states The approach is largely chronological and country based using documentary evidence from 1945 onwards to trace national and international responses to what is frequently termed modern slavery placed within the broader and still evolving context of respect for the full panoply of human rights Volume 1 comprises the analysis debates and outcomes together with ten primary documents relating to the years 1945 1999 as well as a bibliography and index Volume 2 comprises a further 34 documents relating to the years 2000 2020 including international covenants US Trafficking In Persons and Congressional reports and Japanese government papers

Gender, National Security and Counter-terrorism Margaret L. Satterthwaite, Jayne C. Huckerby, 2013 In the name of fighting terrorism countries have been invaded wars have been waged people have been detained rendered and tortured and campaigns for hearts and minds have been unleashed Human rights analyses of the counter terrorism measures implemented in the aftermath of 11 September 2001 have assumed that men suffer the most both numerically and in terms of the nature of rights violations endured This assumption has obscured the ways that women men and sexual minorities experience counter terrorism By integrating gender into a human rights analysis of counter terrorism and human rights into a gendered analysis of counter terrorism this volume aims to reverse this trend Through this variegated human rights lens the authors in this volume identify the spectrum and nature of rights violations arising in the context of gendered counter terrorism and national security practices Introduced with a foreword by Martin Scheinin former UN Special Rapporteur on Human Rights and Counter Terrorism the volume examines a wide range of gendered impacts of counter terrorism measures that have not been theorized in the leading texts on terrorism counter terrorism national security and human rights Gender National Security and Counter Terrorism will be of particular interest to scholars and students in the disciplines of Law Security Studies and Gender Studies

Trafficked Children and Youth in the United States Elzbieta M. Gozdzia, 2016-05-10 Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in Trafficked Children in the United States the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers In many

instances parents or smugglers paid by family members brought the girls to the U S Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities Following them from the time they were trafficked to their years as young adults Gozdziaik gives the children a voice so they can offer their own perspective on rebuilding their lives getting jobs learning English developing friendships and finding love Gozdziaik looks too at how the children s perspectives compare to the ideas of child welfare programs noting that the children focus on survival techniques while the institutions focus not helpfully on vulnerability and pathology Gozdziaik concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked children Breaking new ground Trafficked Children in the United States offers a fresh take on what matters most to these young people as they rebuild their lives in America **Women's Issues** Dorothy V.
