The Trail Book Mary Hunter Austin, From the time that he had first found himself alone with them Oliver had felt sure that the animals could come alive again if they wished That was one blowy afternoon about a week after his father had been made night engineer and nobody had come into the Museum for several hours Oliver had been sitting for some time in front of the Buffalo case wondering what might be at the other end of the trail The cows that stood midway in it had such agoinglook He was sure it must lead past the hummock where the old bull flourished his tail to one of those places where he had always wished to be All at once as the boy sat there thinking about it the glass case disappeared and the trail shot out like a dark snake over a great stretch of rolling grass covered prairie He could see the tops of the grasses stirring like the hair on the old Buffalo s coat and the ripple of water on the beaver pool which was just opposite and yet somehow only to be reached after long travel through the Buffalo Country The wind moved on the grass on the surface of the water and the young leaves of the alders and over all the animals came the start and stir of life And then the slow shuffling steps of the Museum attendant startled it all into stillness again The attendant spoke to Oliver as he passed for even a small boy is worth talking to when you have been all day in a Museum where nothing is new to you and nobody comes You want to look out son said the attendant who really liked the boy and hadn t a notion what sort of ideas he was putting into Oliver s head If you ain t careful some of them things will come downstairs some night and go off with ye And why should MacShea have said that if he hadn t known for certain that the animalsdidcome alive at night That was the way Oliver put it when he was trying to describe this extraordinary experience to his sister Dorcas Jane who was eleven and a half and not at all imaginative eyed him suspiciously Oliver had such a way of stating things that were not at all believable in a way that made them seem the likeliest things in the world He was even capable of acting for days as if things were so which you knew from the beginning were only the most delightful of make believes Life on this basis was immensely more exciting but then you never knew whether or not he might be what some of his boy friends called stringing you so when Oliver began to hint darkly at his belief that the stuffed animals in the Mammal room of the Museum came alive at night and had larks of their own Dorcas Jane offered the most noncommittal objection that occurred to her
