The Recovery Revolution Claire D. Clark,2017-05-02 In the 1960s as illegal drug use grew from a fringe issue to a pervasive public concern a new industry arose to treat the addiction epidemic Over the next five decades the industry s leaders promised to rehabilitate the casualties of the drug culture even as incarceration rates for drug related offenses climbed In this history of addiction treatment Claire D Clark traces the political shift from the radical communitarianism of the 1960s to the conservatism of the Reagan era uncovering the forgotten origins of today s recovery movement Based on extensive interviews with drug rehabilitation professionals and archival research *The Recovery Revolution* locates the history of treatment activists influence on the development of American drug policy Synanon a controversial drug treatment program launched in California in 1958 emphasized a community based approach to rehabilitation Its associates helped develop the therapeutic community TC model which encouraged peer confrontation as a path to recovery As TC treatment pioneers made mutual aid profitable the model attracted powerful supporters and spread rapidly throughout the country The TC approach was supported as part of the Nixon administration s law and order policies favored in the Reagan administration s antidrug campaigns and remained relevant amid the turbulent drug policies of the late twentieth and early twenty first centuries While many contemporary critics characterize American drug policy as simply the expression of moralizing conservatism or a mask for racial oppression Clark recounts the complicated legacy of the ex addict activists who turned drug treatment into both a product and a political symbol that promoted the impossible dream of a drug free America

A Moral Defense of Recreational Drug Use Rob Lovering,2015-08-12 Why does American law allow the recreational use of some drugs such as alcohol tobacco and caffeine but not others such as marijuana cocaine and heroin The answer lies not simply in the harm the use of these drugs might cause but in the perceived morality or lack thereof of their recreational use Despite strong rhetoric from moral critics of recreational drug use however it is surprisingly difficult to discern the reasons they have for deeming the recreational use of some drugs morally wrong In this book Rob Lovering lays out and dissects various arguments for the immorality of using marijuana cocaine heroin and other drugs recreationally He contends that by and large these arguments do not succeed Lovering s book represents one of the first works to systematically present analyze and critique arguments

for the moral wrongness of recreational drug use Given this as well as the popularity of the morality based defense of the United States drug laws this book is an important and timely contribution to the debate on the recreational use of drugs

From Sin to Disease Jonathan K. Okinaga, 2022-09-23 Since Benjamin Rush first introduced the disease of wills as the cause of alcoholism a steady and slow infiltration of the disease model has infected how the church treats those who struggle with addictions The first organization that truly sought to remove the soul care of addicts from the church was Alcoholics Anonymous AA through their bestselling The Big Book of AA and the introduction of the 12 Steps AA's influence on how the church confronts addiction still reverberates today with many of the ministries that address addiction firmly rooted in what can be found in AA literature Addictions were once viewed as an issue caused by sin and best addressed through faith and prayer Currently addiction is seen through the lens of disease The ramifications are consequential as more church members are struggling with addictions than ever before Tracing the progression of addiction from sin to disease will reveal that the SBC and its churches have been negligent in understanding the underlying foundations of AA and the influence that the medicalization of substance abuse has had on how churches approach what should be classified as a sin issue
