Contesting Masculinities and Women's Agency in Kashmir Amya Agarwal,2022-07-18 What is the significance of gender and masculinities in understanding conflict Through an ethnographic study conducted between 2013 and 2016 this book explores the politics of competing and sometimes overlapping masculinities represented by the state armed forces and the non state actors in the Kashmir valley In addition the book broadens the understanding of women s agency through its engagement with the construction performance and interplay of masculinities in the conflict Combining existing elements of both feminist research and critical scholarship on men and masculinities the book highlights the significance of foregrounding the interplay of men s identities in conflicts to understand agency in a meaningful way Through the focus on the simultaneous

play of multiple masculinities the book also questions the oversimplified and monolithic usage of masculinity being associated only with violence in conflicts The empirical data in the book includes interviews and narratives of multiple stakeholders belonging to diverse vantage points in the Kashmir conflict Some of these include activists widows wives of the disappeared ex militants surrendered militants participants of the stone pelting movement mothers of sons killed in the conflict women representatives of the village Halqa Panchayats and army personnel The book also draws from alternative material in the form of graffiti folk songs poetry on graves and slogans Through anecdotal reminiscence the author reflects on the challenges of field research in Kashmir that served as an opportunity for self contemplation *Reality Television* Alison F. Slade,Amber J. Narro,, Burton P. Buchanan,2014-03-06 Reality television remains a pervasive form of television programming within our culture The new mantra is go big or go home be weird or be invisible Here Comes Honey Boo Boo and Duck Dynasty for example are arguably two of the most compelling reality television programs currently airing because of their uniqueness and ability to transcend traditional boundaries in this genre Reality Television Oddities of Culture seeks to explore not the mundane reality programs but rather those programs that illustrate the odd unique or peculiar aspects of our society This anthology will explore such programs across the categories of culture gender and celebrity

Ecomasculinities Rubén Cenamor,Stefan Brandt,2019-01-25 While there exist numerous studies on ecocriticism and ecofeminism much less has been written about ecomasculinities This volume contributes to filling this gap by examining models of fictional ecomasculinity in and through contemporary U S literature and cinema Our study examines ecomasculinities as practices of masculinity which are deeply conservationist and can embrace non masculine traits In this line of thought a main goal of the volume is to interrogate the potential of ecomasculinities to elicit in men a desire to become engage in other practices of masculinity that are counter hegemonic and have as main goal to achieve equality on different strata of society Bridging the gap between the Social Sciences and the Humanities the book interrogates intersections between ecomasculinities and masculinities beyond capitalism ecomasculinities and aging and ecomasculinities and queerness among others *War and Gender* Joshua S. Goldstein,2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men s social behaviours and the construction of masculinity and femininity in the shadow of war Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue **War and Sex** John V. H.

Cold Warriors Suzanne Clark,2000 Cold Warriors Manliness on Trial in the Rhetoric of the West returns to familiar cultural forces the West anticommunism and manliness to show how they combined to suppress dissent and dominate the unruliness of literature in the name of a national identity after World War II Few realize how much the domination of a white male American literary canon was a product not of long history but of the Cold War Suzanne Clark describes here how the Cold War excluded women writers on several levels together with others African American Native American poor men as well as women who were ignored in the struggle over white male identity Clark first shows how defining national individual American identity in the Cold War involved a brand new configuration of cultural history At the same time it called upon the nostalgia for the old discourses of the West the national manliness asserted by Theodore Roosevelt to claim that there was and always had been only one real American identity By subverting the claims of a national identity Clark finds many male writers risked falling outside the boundaries not only of public rhetoric but also of the literary world men as different from one another as the determinedly masculine Ernest Hemingway and the antiheroic storyteller of the everyday Bernard Malamud Equally vocal and contentious Cold War women writers were unwilling to be silenced as Clark demonstrates in her discussion of the work of Mari Sandoz and Ursula Le Guin The book concludes with a discussion of how the silencing of gender race and class in Cold War writing maintained

its discipline until the eruptions of the sixties By questioning the identity politics of manliness in the Cold War context of persecution and trial Clark finds that the involvement of men in identity politics set the stage for our subsequent cultural history

Pulp Vietnam Gregory A. Daddis, 2020-10-22 In this compelling evaluation of Cold War popular culture *Pulp Vietnam* explores how men's adventure magazines helped shape the attitudes of young working class Americans the same men who fought and served in the long and bitter war in Vietnam The macho pulps boasting titles like *Man's Conquest* *Battle Cry* and *Adventure Life* portrayed men courageously defeating their enemies in battle while women were reduced to sexual objects either trivialized as erotic trophies or depicted as sexualized villains using their bodies to prey on unsuspecting innocent men The result was the crafting and dissemination of a particular version of martial masculinity that helped establish GI's expectations and perceptions of war in Vietnam By examining the role that popular culture can play in normalizing wartime sexual violence and challenging readers to consider how American society should move beyond pulp conceptions of normal male behavior Daddis convincingly argues that how we construct popular tales of masculinity matters in both peace and war

Of Mice and Men Nandita Batra, Vartan P. Messier, 2020-07-13 *Of Mice and Men* Animals in Human Culture is a book length collection of essays that examines human views of non human animals The essays are written by scholars from Australia East Asia Europe and the Americas who represent a wide range of disciplines in the Humanities and Social Sciences Addressing topics such as animal rights ecology anthropocentrism feminism animal domestication dietary restrictions and cultural

feminism This brand of feminism would reshape traditional masculinity invite men into feminist dialogue and claim men as political allies
