Martin J. Manning, Clarence R. Wyatt

Wartime Dissent In America A History And Anthology:

Wartime Dissent in America R. Mann, 2016-04-30 Through the speeches essays and interviews of some of the most compelling individuals in American history who stood against the key conflicts of their lifetimes this book gives remarkable insight into wartime dissent in the U S from the revolutionary war to the war on terror *Wartime Dissent in America* R. Mann, 2010

Unshackling America Willard Sterne Randall, 2017-06-27 Unshackling America challenges the persistent fallacy that Americans fought two separate wars of independence Willard Sterne Randall documents an unremitting fifty year long struggle for economic independence from Britain overlapping two armed conflicts linked by an unacknowledged global struggle Throughout this perilous period the struggle was all about free trade Neither Jefferson nor any other Founding Father could divine that the Revolutionary Period of 1763 to 1783 had concluded only one part the first phase of their ordeal The Treaty of Paris of 1783 at the end of the Revolutionary War halted overt combat but had achieved only partial political autonomy from Britain By not guaranteeing American economic independence and agency Britain continued to deny American sovereignty Randall details the fifty years and persistent attempts by the British to control American trade waters but he also shows how despite the outrageous restrictions the United States asserted the doctrine of neutral rights and developed the world s second largest merchant fleet as it absorbed the French Caribbean trade American ships carrying trade increased five fold between 1790 and 1800 its tonnage nearly doubling again between 1800 and 1812 ultimately making the United States the world s largest independent maritime power Resowing the Seeds of War Stephen J. Heidt, 2021-03-01 Ending a war as Fred Charles Ikl wrote poses a much greater challenge than beginning one In addition to issues related to battle tactics prisoners of war diplomatic relations and cease fire negotiations ending war involves domestic political calculations Balancing the tides of public opinion versus policy needs poses a deep and enduring problem for presidents In a first of its kind study Resowing the Seeds of War explains how Presidents Truman Eisenhower Nixon and Obama managed the political policy and bureaucratic challenges that arise at the end of war via a series of rhetorical choices that reframe modify or unravel depictions of national enemies the cause of the conflict and the stakes for the nation and world This end of war rhetoric justifies ending hostilities rationalizes postwar national policy argues for the construction of postwar security arrangements and often sustains public support for massive financial investment in reconstruction By tracking presidential manipulations of savage imagery from World War II to the War on Terror this book concludes that even as metaphoric reframing facilitates exit from conflict it incurs unexpected consequences that make national involvement in the next conflict more likely *At War* David Kieran, Edwin A. Martini, 2018-04-05 The country s wars in Iraq and Afghanistan its interventions around the world and its global military presence make war the military and militarism defining features of contemporary American life The armed services and the wars they fight shape all aspects of life from the formation of racial and gendered identities to debates over environmental and immigration policy Warfare and the military

are ubiquitous in popular culture At War offers short accessible essays addressing the central issues in the new military history ranging from diplomacy and the history of imperialism to the environmental issues that war raises and the ways that war shapes and is shaped by discourses of identity to questions of who serves in the U S military and why and how U S wars have been represented in the media and in popular culture **The Movies as a World Force** Ryan Jay

Friedman,2019-02-04 Throughout the silent feature era American artists and intellectuals routinely described cinema as a force of global communion a universal language promoting mutual understanding and harmonious coexistence amongst disparate groups of people In the early 1920s film industry leaders began to espouse this utopian view in order to claim for motion pictures an essentially uplifting social function The Movies as a World Force examines the body of writing in which this understanding of cinema emerged and explores how it shaped particular silent films and their marketing campaigns The utopian and universalist view of cinema the book shows represents a synthesis of New Age spirituality and the new liberalism It provided a framework for the first official written histories of American cinema and persisted as an advertising trope even after the transition to sound made movies reliant on specific national languages *An Independent Empire* Michael S.

Kochin,Michael Taylor,2020-01-24 Foreign policies and diplomatic missions combined with military action were the driving forces behind the growth of the early United States In an era when the Old and New Worlds were subject to British French and Spanish imperial ambitions the new republic had limited diplomatic presence and minimal public credit It was vulnerable to hostile forces in every direction The United States could not have survived grown or flourished without the adoption of prescient foreign policies or without skillful diplomatic operations An Independent Empire shows how foreign policy and diplomacy constitute a truly national story necessary for understanding the history of the United States In this lively and well written book episodes in American history such as the writing and ratification of the Constitution Henry Clay s advocacy of an American System Pinckney s Treaty with Spain and the visionary but absurd Congress of Panama are recast as elemental aspects of United States foreign and security policy An Independent Empire tells the stories of the people who defined the early history of America s international relationships Throughout the book are brief entertaining vignettes of often overlooked intellectuals spies diplomats and statesmen whose actions and decisions shaped the first fifty years of the United States More than a dozen bespoke maps illustrate that the growth of the early United States was as much a geographical as a political or military phenomenon **The Primary Route** Tom Gallagher,2015 Like that proverbial donkey stranded between

those two bales of hay the American left has looked longingly in the direction both of third parties and the Democratic Party and gone nowhere Considering all of this history along with the experience of the American labor movement and the European Left the Primary Route argues that the route to relevance for an American electoral left has long been hiding in plain sight It runs through the presidential primaries And until the left figures out how to put its ideas out there in the main event every four years mainstream relevance will continue to elude it *Holy Humanitarians* Heather D. Curtis,2018-04-16

On May 10 1900 an enthusiastic Brooklyn crowd bid farewell to the Quito The ship sailed for famine stricken Bombay carrying both tangible relief thousands of tons of corn and seeds and a tender message of love and sympathy from God's children on this side of the globe to those on the other The Quito may never have gotten under way without support from the era's most influential religious newspaper the Christian Herald which urged its American readers to alleviate poverty and suffering abroad and at home In Holy Humanitarians Heather D Curtis argues that evangelical media campaigns transformed how Americans responded to domestic crises and foreign disasters during a pivotal period for the nation Through graphic reporting and the emerging medium of photography evangelical publishers fostered a tremendously popular movement of faith based aid that rivaled the achievements of competing agencies like the American Red Cross By maintaining that the United States was divinely ordained to help the world's oppressed and needy the Christian Herald linked humanitarian assistance with American nationalism at a time when the country was stepping onto the global stage Social reform missionary activity disaster relief and economic and military expansion could all be understood as integral features of Christian charity Drawing on rigorous archival research Curtis lays bare the theological motivations social forces cultural assumptions business calculations and political dynamics that shaped America's ambivalent embrace of evangelical philanthropy In the process she uncovers the seeds of today's heated debates over the politics of poverty relief and international aid

Party in the Street Michael T. Heaney, Fabio Rojas, 2015-02-02 Party in the Street explores the interaction between political parties and social movements in the United States Examining the collapse of the post 9/11 antiwar movement against the wars in Iraq and Afghanistan this book focuses on activism and protest in the United States It argues that the electoral success of the Democratic Party and President Barack Obama as well as antipathy toward President George W Bush played a greater role in this collapse than did changes in foreign policy It shows that how people identify with social movements and political parties matters a great deal and it considers the Tea Party and Occupy Wall Street as comparison cases

The True Flag Stephen Kinzer, 2017-01-24 The public debate over American interventionism at the dawn of the 20th century is vividly brought to life in this engaging well focused history Kirkus starred review Should the United States use its military to dominate foreign lands It's a perennial question that first raised more than a century ago during the Spanish American War The country's political and intellectual leaders took sides in an argument that would shape American policy and identity through the 20th century and beyond Theodore Roosevelt Henry Cabot Lodge and William Randolph Hearst pushed for imperial expansion Mark Twain Booker T Washington and Andrew Carnegie preached restraint Not since the nation's founding had so many brilliant Americans debated a question so fraught with meaning for all humanity As Stephen Kinzer demonstrates in The True Flag their eloquent discourse is as relevant today as it was then Because every argument over America's role in the world grows from this one

Not in Our Name Jesse Stellato, 2012 A collection of American antiwar speeches from every major conflict starting with the Mexican American War Includes critical analyses

biographical and bibliographical information and an appendix describing common rhetorical devices used by antiwar speakers Provided by publisher

Critical Animal Studies John Sorenson, 2014-04-21 Engaging and passionate this contemporary work provokes new ways of thinking about animal human interaction A cutting edge volume of original essays Critical Animal Studies examines our exploitation and commodification of non human animals By inquiring into the contradictions that have shaped our understanding of animals the contributors of this collection have set out to question the systemic oppression inherent in our treatment of animals The collection closes with a thoughtful consideration of some of the complexities of activism as well as a discussion of how to further the progress of animal rights Analyzing economic ethical historical and sociological aspects of human animal relations this interdisciplinary volume is a must read for all upper level students in animal studies critical animal studies animals and society and anthrozoology courses Features draws together contributions from some of the most active and committed individuals advancing the field of critical animal studies takes a revolutionary approach to mainstream animal studies by advocating for justice from a politically progressive abolitionist perspective supports curricular objectives of animal studies courses by encouraging students to critically analyze the shifting roles of animals in contemporary Western society and their consequences

Finding Florida T. D. Allman, 2013-03-05 Offers a comprehensive look at the history of the state of Florida from its discovery exploration and settlement through its becoming a state to notable events in the early twenty first century

Propaganda and American Democracy Nancy Snow, 2014-03-10 Propaganda has become an inescapable part of modern American society On a daily basis news outlets politicians and the entertainment industry with motives both dubious and well intentioned launch propagandistic appeals In Propaganda and American Democracy eight writers explore various aspects of modern propaganda and its impact Contributors include leading scholars in the field of propaganda studies Anthony Pratkanis tackles the thorny issue of the inherent morality of propaganda J Michael Sproule explores the extent to which propaganda permeates the U S news media and Randal Marlin charts the methods used to identify research and reform the use of propaganda in the public sphere Other chapters incorporate a strong historical component Mordecai Lee deftly analyzes the role of wartime propaganda while Dan Kuehl provides an astute commentary on former and current practices and Garth S Jowett investigates how Hollywood has been used as a vehicle for propaganda In a more personal vein Asra Q Nomani recounts her journalistic role in the highly calculated and tragic example of the ultimate act of anti American propaganda perpetrated by al Qaeda and carried out against her former colleague Wall Street Journal reporter Daniel Pearl Propaganda and American Democracy offers an in depth examination and demonstration of the pervasiveness of propaganda providing citizens with the knowledge needed to mediate its effect on their lives Edited by Nancy Snow

Father, Son, and Constitution Alexander Wohl, 2013-04-30 When Supreme Court Justice Tom Clark resigned his seat on the bench at the youthful age of 67 after 18 years his decision was unique in the annals of Court history he was leaving so that his son Ramsey just nominated as Attorney General could assume

the job Clark himself had once held without conflict of interest As Alexander Wohl shows Tom and Ramsey Clark had a profound impact on American law and society For nearly three quarters of a century they influenced presidents policies and legal rulings during careers that tracked closely with some of the most significant and controversial episodes in modern American history Highlighting their consistent effort to balance individual liberties with government power Wohl examines how their work reflected the tensions that continue to resonate in today s legal and policy battles The two men however evolved quite differently As a young government lawyer Tom Clark was a key figure in enforcing the relocation of Japanese Americans and as Attorney General he was vilified by civil liberties advocates for the Cold War policies he implemented even as he promoted a progressive strategy on civil rights Ramsey began his career to the ideological left of his father was intimately involved in enforcement of civil rights laws during the turbulent 1960s as Attorney General fought to expand protections of individual rights and as a private attorney represented clients on the farthest reaches of the individual rights government power spectrum A unique approach for understanding our nation s history during the second half of the twentieth century Wohl s study addresses such salient issues as civil rights free speech government surveillance and rights of privacy presidential power and the role of judges in interpreting the Constitution The Clarks lives and careers also offer a veritable who s who of 20th century American law and policy from Tom s close relationships with Harry Truman Lyndon Johnson Sam Rayburn and Earl Warren to Ramsey s connections with Robert Kennedy LBJ and Martin Luther King Jr Both men befriended and battled J Edgar Hoover and both were targets of political attack twenty years apart by Richard Nixon At its fundamental core however Wohl s book presents a moving and intimate portrait of a unique father son relationship that endured through triumph and tribulation and that should appeal to anyone interested in how the personal and the political intertwine in a highly public setting

Caesar Ate My Jesus Meg Gorzycki, 2017-06-09 What the hell happened on the way to making the world a better place We boomers were told our success would be unlimited We had democracy and capitalism and God was on our side We took our religious teachings seriously and set out to end bigotry violence and destitution Inevitably we collided with American Caesars whose power and wealth was sufficient to dominate national and international affairs Political and religious Caesars appropriated Jesus and used him to justify war sexism racism dictatorships and poverty What were the faithful to do Lots of boomers I know tossed the spiritual baby out with the religious institution s bathwater and became cynical about civic engagement It is not time to abandon hope in our goodness however and it is not time to surrender our conscience to Caesar Our experiences as boomers teach us that it is possible to bring the love of God to bear in our lives despite Caesar s constant pressure to cherish power wealth celebrity and things more than we cherish people This book is for folks who are ready to get off Caesar s treadmill and dig deeply into their hearts and minds to see what remains of the Kingdom of God within

Encyclopedia of Media and Propaganda in Wartime America Martin J.

Manning, Clarence R. Wyatt, 2010-12-20 This fascinating compilation of reference entries documents the unique relationship

between mass media propaganda and the U S military a relationship that began in the period before the American Revolution and continues to this day sometimes cooperative sometimes combative and always complex The Encyclopedia of Media and Propaganda in Wartime America brings together a group of distinguished scholars to explore how war has been reported and interpreted by the media in the United States and what effects those reports and interpretations have had on the people at home and on the battlefield Covering press U S military relationships from the early North American colonial wars to the present wars in Iraq and Afghanistan this two volume encyclopedia focuses on the ways in which government and military leaders have used the media to support their actions and the ways in which the media has been used by other forces with different views and agendas The volumes highlight major events and important military political and cultural players offering fresh perspectives on all of America s conflicts Bringing these wars together in one source allows readers to see how media affected the conflicts individually but also understand how the use of the various forms of media print radio television film and electronic have developed and changed over the years

Senior High Core Collection Raymond W. Barber, Patrice Bartell, 2007 Features annotations for more than 6 200 works in the main volume 2007 and more than 2 400 new titles in three annual supplements published 2008 through 2010 New coverage of biographies art sports Islam the Middle East cultural diversity and other contemporary topics keeps your library s collection as current as today s headlines

The American Supreme Court Robert G. McCloskey, 2016-05-02 The sixth edition of the classic and concise account of the US Supreme Court its history and its place in American politics For more than fifty years Robert G McCloskey s classic work on the Supreme Court s role in constructing the US Constitution has introduced generations of students to the workings of our nation s highest court As in prior editions McCloskey s original text remains unchanged In his historical interpretation he argues that the strength of the Court has always been its sensitivity to the changing political scene as well as its reluctance to stray too far from the main currents of public sentiment In this new edition Sanford Levinson extends McCloskey s magisterial treatment to address developments since the 2010 election including the Supreme Court s decisions regarding the Defense of Marriage Act the Affordable Care Act and gay marriage The best and most concise account of the Supreme Court and its place in American politics McCloskey s wonderfully readable book is an essential guide to the past present and future prospects of this institution Praise for *The American Supreme Court* The classic account of the American Supreme Court by the mid twentieth century s most astute student of American constitutionalism updated by the early twenty first century s most astute student of American constitutionalism This is the first work constitutional beginners should and constitutional scholars do turn to Mark Graber University of Maryland School of Law Essential This fifth edition carries on the tradition of earlier iterations keeping McCloskey s keen insights analytical framework and normative instincts intact Levinson supplements the original argument with chapters that draw on his remarkable intellectual range and invite readers to continue asking the still salient questions McCloskey set forth a half century earlier Choice on the fifth edition

Thank you for reading **Wartime Dissent In America A History And Anthology**. Maybe you have knowledge that, people have search hundreds times for their chosen novels like this Wartime Dissent In America A History And Anthology, but end up in malicious downloads.

Rather than reading a good book with a cup of coffee in the afternoon, instead they are facing with some harmful virus inside their laptop.

Wartime Dissent In America A History And Anthology is available in our book collection an online access to it is set as public so you can download it instantly.

Our book servers saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the Wartime Dissent In America A History And Anthology is universally compatible with any devices to read
