*Jiving At The Crossroads (New Edition)* John Waters, 2011-10-13 In 1991 Ireland

was in the midst of a devastating recession thousands of young Irish men and women had emigrated over the previous decade and divisive social and moral debates on abortion and divorce had rocked Irish society The great pillars of society politics and religion were beginning to crumble a process that continued in subsequent years as both institutions were hit by scandal A questioning of the values on which Ireland had been built had begun with an apparently unbridgeable divide opening between traditionalists and modernizers At the start of the decade the modernizers appeared to have won with the election as President of the iconic Mary Robinson Irish Times columnist John Waters captured the zeitgeist of the time with the hugely successful *Jiving at the Crossroads* which sold over 50 000 copies A defining book of the era its success was partly due to its remarkable blending of social cultural commentary with personal memoir At the emotional core of the book was the relationship between John and his father and the story of Ireland was intricately woven into this powerful narrative It was the first in a long line of books to question the very notion of modern Irish identity and to examine the deep rooted tensions at the heart of the Irish psyche Twenty years later much has changed in Ireland and yet *Jiving at the Crossroads* remains a deeply resonant book particularly in the light of the remarkable rise and precipitous fall of the Celtic Tiger and the fresh questioning of how we got where we are now This twentieth anniversary reissue of a landmark book with a new Afterword will be welcomed by those who remember it and will be a fascinating insight for a new generation of Irish people *Alliance News* ,1875

visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In *The Cult of Alien Gods* author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890-1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken *Chariots of the Gods* Graham Hancock *Fingerprints of the Gods* Zecharia Sitchin *Twelfth Planet* and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for *Skeptic* magazine among other publications
