Watch Book Gisbert L Brunner:

The Watch Book II Gisbert L. Brunner, 2024-11-11 The second part of the reference work for all watch enthusiasts. The world of wristwatches is undergoing radical change. So-called smart or connected watches, i.e. watches that communicate with the phone, are becoming increasingly important. Nevertheless, they will not displace the classic timepieces with mechanical movements from wrists, because the ticking of the mechanical watch is and remains the heartbeat of human culture. Following on from the successful *The Watch Book*, the second volume again generously presented is a must. Informative texts and numerous pictures present a further 24 watch brands and show their special features. This time, however, the protagonists cover a much broader spectrum. In addition to numerous watches that define the popular segment of affordable luxury, there are also timepieces from the top chronometric class. The Revised Edition of the bestseller for the 40th anniversary. To mark the 40th anniversary of the first *teNeues* illustrated book, some all-time favourites from the past are being celebrated in an affordable modern softcover edition that fits perfectly on any bookshelf. *The Watch Book* and *The Watch Book II* represent the beginning of a real success story. Together with the renowned wristwatch expert and historian Gisbert L. Brunner, high-quality illustrated books about the world of luxury watches have been produced ever since. These titles heralded the launch of the internationally renowned *The Watch Book* series in 2015 and the following year. Now the bestsellers are being reissued and offer sophisticated aesthetics in a small format.

The Watch Book I Gisbert L. Brunner, 2024-11-11 The reference work for all watch enthusiasts. Few objects combine function, elegance and status as skilfully as a wristwatch. The choice of personal timepiece can reveal a lot about us, as it shows the importance we attach to man's most precious possession. A mixture of precise mechanics, craftsmanship, precious materials and innovation characterises the true superlatives. In this volume, watch enthusiasts can delight all their senses in a splendidly illustrated and excellently documented chronicle of the world's finest timepieces. It begins with an excursus on the meaning of time and its measurement by ticking gears. It then captivates with portraits of 18 premium manufacturers such as Patek Philippe, Rolex and Cartier. These biographies trace the development of the most important names in the art of perfect watchmaking from their earliest beginnings to the latest innovations and current models. They explore what exactly makes these houses so exceptional and tell of the remarkable achievements that have earned them their position as outstanding authorities in the European watch industry.
