Wax & Gold Donald Nathan Levine,1970 **Wax & gold: tradition and innovation in Ethiopian culture** Donald N. Levine,1967 Wax and Gold Donald Nathan Levine,1960 *Wax and Gold* Donald N Levine,1986-06-01 Wax and Gold Donald Nathan Levine (sociologue).),1966 Wax and Gold J. P. Feddema,1990 , **Ethiopians in an Age of Migration** Fassil Demissie,2018-10-11 The migration of Ethiopians across international borders is a recent phenomenon because of the limited integration of the country and society to the global economy Since it was never colonized aside from the Italian occupation of 1936 1941 Ethiopia s economy and society were not directly impacted by the ebb and flow of the global economy and thus never generated international migration Beginning in the 1970s due to factors such as famine rural poverty civil war and political repression an unprecedented number of Ethiopian migrants began to leave their country in search of better more secure lives Today this diaspora constitutes a distinctive community dispersed across the world but bound by a common feeling of collectiveness and a shared history of the homeland The contributors to this volume draw their work from a wide variety of interdisciplinary fields and provide new critical insight on Ethiopian migrants and their diaspora communities What has emerged from these scholarly works is the recognition that the Ethiopian diaspora although separated by oceans and nations by politics ethnicity class gender and age are carving out a social and material world born out of their particular circumstances both here and there This book was originally published as a special issue of *African and Black Diaspora* An International Journal **The Southern Marches of Imperial Ethiopia** Donald Donham,Wendy James,1986 This international collection of essays offers a unique approach to the understanding of imperial Ethiopia out of which the present state was created by the 1974 revolution After the 1880s Abyssinia under Menilek II expanded its ancient heartland to incorporate vast new territories to the south Here for the first time these regions are treated as an integral part of the empire The book opens with an interpretation of nineteenth century Abyssinia as an African political economy rather than as a variant on European feudalism and with an account of the north s impact on peoples of the new south Case studies from the southern regions follow four by historians and four by anthropologists each examining aspects of the relationship between imperial rule and local society In revealing the region s diversity and the relationship of the periphery to the centre the volume illuminates some of the problems faced by post revolutionary Ethiopia **Historical Dictionary of Ethiopia** Thomas P. Ofcansky,David H. Shinn,2004-03-29 An easily accessible reference guide for Ethiopian historical events important persons geographical locations ethnic groups key issues and common ephemera containing numerous cross references for related items and those known by more than one name **Social and Cultural Anthropology in Perspective** Ioan M. Lewis,2017-09-29 Social anthropology is in the classic definition dedicated to the study of distant civilizations in their traditional and contemporary forms But there is a larger aspiration the comparative study of all human societies in the light of those challengingly unfamiliar beliefs and customs that expose our own ethnocentric limitations and

put us in our place within the wider gamut of the world's civilizations. Thematically guided by social setting and cultural expression of identity, *Social and Cultural Anthropology in Perspective* is a dynamic and highly acclaimed introduction to the field of social anthropology which also examines its links with cultural anthropology. A challenging new introduction critically surveys the latest trends, pointing to weaknesses as well as strengths. Presented in a clear, lively and entertaining fashion, this volume offers a comprehensive and up-to-date guide to social anthropology for use by teachers and students. Skillfully weaving together theory and ethnographic data, author Ioan M. Lewis advocates an eclectic approach to anthropology. He combines the strengths of British structural functionalism with the leading ideas of Marx, Freud, and Levi Strauss, while utilizing the methods of historians, political scientists, and psychologists. One of Lewis' particular concerns is to reveal how insights from traditional cultures illuminate what we take for granted in contemporary industrial and post-industrial society. He also shows how, in the pluralist world in which we live, those who study other cultures ultimately learn about themselves. Social anthropology is thus shown to be as relevant today as it has been in the past.

Social Theory and Regional Studies in the Global Age Saïd Amir Arjomand, 2014-05-19. In this pioneering volume, leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age. *Social Theory and Regional Studies in the Global Age* moves beyond facile generalizations based on the historical experience of modernization in the West, by highlighting differences rather than similarities and contrasts rather than commonalities, and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions. Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities. Different patterns of modernization are compared within the framework of global, local, compressed communication and interaction that results from globalization. The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists, and what follows is a penetrating analysis of modernization and globality, opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory.

Persecution, Migration, and Nationalism Mesganaw Mihiret, 2024-12-21. This book investigates how first-generation immigrants who identify as Amhara in the United States craft their identities and establish both physical and social spaces for themselves. This sits alongside the rise of Amhara ethnic nationalism, which aims to counter anti-Amhara sentiments and practices embedded in Ethiopia's body politic since the second half of the 19th century. The author charts the historical development of the Ethiopian state, particularly how Italian colonial-era discord contributed to narratives of ethnic hatred toward the Amhara in a multiethnic Ethiopia. The book addresses key issues related to the after-migration experiences of the Amhara, particularly how they engage in placemaking centered on *tizita* nostalgia, a concept that encompasses remembering, memorializing, and yearning for places and experiences left behind. This holds deep significance in Amhara culture. The book explores the rise of nationalism as a

response to these dynamics and examines the transnational political processes that shape identity formation. Additionally, it analyzes how Amhara immigrants replicate cultural landscapes in their new environments. The experiences of Amhara immigrants in the USA provide unique insights into broader questions of how national political histories, colonial narratives, cultural heritage, and the negotiation between Western and non-Western cultures shape immigrant identity. Hierarchy and Value Jason Hickel, Naomi Haynes, 2018-08-01. Globalization promised to bring about a golden age of liberal individualism, breaking down hierarchies of kinship, caste, and gender around the world and freeing people to express their true authentic agency. But in some places, globalization has spurred the emergence of new forms of hierarchy or the reemergence of old forms as people try to reconstitute an imagined past of stable moral order. This is evident from the Islamic revival in the Middle East to visions of the 1950s family among conservatives in the United States. Why does this happen, and how do we make sense of this phenomenon? Why do some communities see hierarchy as desirable? In this book, leading anthropologists draw on insightful ethnographic case studies from around the world to address these trends. Together, they develop a theory of hierarchy that treats it both as a relational form and a framework for organizing ideas about the social good. **World**

This work examines the philosophical origins of Oromo egalitarian and democratic thoughts and practice, the Gadaa Qaalluu system, kinship organization, the introduction and spread of Islam, and the consequent socio-cultural change. It sheds light on the advent of the Ethiopian empire under Menelik II, its conquests, and Arsi Oromo fierce resistance, 1880-1900, the nature and legacy of Ethiopian imperial polity, centre-periphery relations, feudal political economy, and its impacts on the newly conquered regions, with a focus on Arsi Oromo country. The book also analyzes the root causes of the national political crisis, including but not limited to the attempts at transforming the empire-state to a nation-state around a single culture, contested definition of national identity, and state legitimacy, grievance narratives, uprisings, the birth and development of competing nationalisms, as well as the limitations of the current ethnic federalism to address the national question in Ethiopia.

Inequalities and Conflicts in Modern and Contemporary African History Jan Záhorký, 2018-11-16. The book deals with historical, social, economic, political, and international causes, contexts, and consequences of inequalities and conflicts in Africa. In particular, the book is to put conflicts and turbulences in Ethiopia in a broader African comparative perspective. It also identifies and analyzes multiple causes of conflicts which cannot be studied only as a result of one variable. Inequalities and conflicts have a whole set of causes stemming from historically inherited as well as global, international, socio-economic, political, and other contexts which cannot be analyzed separately.
