Play-Based Interventions for Childhood Anxieties, Fears, and Phobias Athena A. Drewes, Charles E. Schaefer, 2018-03-27 Illustrating the power of play for helping children overcome a wide variety of worries fears and phobias this book provides a toolkit of play therapy approaches and techniques Coverage encompasses everyday fears and worries in 3 to 12 year olds as well as anxiety disorders and posttraumatic problems Leading practitioners describe their approaches

step by step and share vivid illustrative case material Each chapter also summarizes the research base for the interventions discussed Key topics include adapting therapy to each child s developmental level engaging reluctant or less communicative clients and involving parents in treatment Parent Yourself First Bryana Kappadakunnel,2025-01-28 A fresh no nonsense parenting guide that shows you how to become a great parent even if you didn t have one yourself Many of us didn t have a perfect childhood But it s never too late or too early to transform into the parent you were always meant to be grounded present intentional compassionate and confident In Parent Yourself First licensed marriage and family therapist Bryana Kappadakunnel argues that the secret to successful parenting is to UN learn the wounded patterns you grew up with and create new ways to connect with your child Parenting from a place of connection may feel unlike anything you experienced as a child or what you thought parenting was meant to be But the results can be remarkable and transformative As the founder of the popular Conscious Mommy community on Instagram Facebook and TikTok Kappadakunnel explains that your upbringing is probably impacting your parenting style in ways you don t even fully recognize from how you manage your own emotions to how you connect with your kids in their vulnerable moments In Parent Yourself First she shares powerful stories from the families she s counseled and practical tools for managing common parenting woes like tantrums and defiance Her promise You can break free of past patterns that no longer serve you and liberate your soul from old traumas and wounds Everyone has baggage But it s your responsibility to make sure your baggage doesn t become your child s problem Healing yourself allows you to truly connect with your child understand their needs and guide them to live the happy authentic life that they deserve **Developing Social Competency in Young Children** Christine A. Schmidt,2019-07-02 Social

competency is a set of skills that provide children with the tools and abilities to successfully navigate the world around them Developing Social Competency in Young Children looks at each of the seven Cs of social competence communication community building coping confidence conflict resolution control and curiosity During any given day a child will enter and exit many group situations More often than not children lack the knowledge experience or emotional intelligence to be socially competent in all situations There is not a switch or a specific age when children automatically become socially competent and adults often assume that when children reach a certain age or milestone they will know how to effectively employ the seven Cs of social competency without being taught These skills must be taught and environments need to be designed to encourage the development of these skills while intentionally providing opportunities to test and hone them Developing Social Competency in Young Children examines the role of the adult in designing the environment and using intentional strategies to maximize a child s success At the end of each skill discussed there are parent and staff educational tips and strategies that can be used in everyday life Belonging Sian Phillips,Deni Melim,Daniel A. Hughes,2020-08-15 The call for trauma informed education is growing as the profound impact trauma has for the children s ability to learn in traditional classrooms is recognized For children who have experienced abuse and neglect their behavior is often highly

reactive aggressive withdrawn or unmotivated They struggle to learn to make positive relationships or be influenced positively by teachers and school staff Students become more and more at risk for mental health difficulties Teachers become more and more frustrated and discouraged as they attempt to teach this vulnerable group of students Even though it is relationships that have hurt students with developmental trauma it is known that they must find safe relationships to learn and heal Forming those relationships with children who have been hurt and no longer trust adults is not easy This book focuses on three important and comprehensive areas of theory and research that provide a theoretical clinical and integrated intervention model for developing the relationships and felt sense of safety children with developmental trauma need Using what is known from attachment theory intersubjectivity theory and interpersonal neurobiology the reader is helped to understand why children behave in the challenging ways they do This book offers successes and ongoing challenges as a means to continue the conversation about how best to support some of our most at risk youth
