Time On Ice A Winter Voyage To Antarctica:

Time on Ice Deborah Shapiro, Rolf Bjelke, 1997 When Deborah Shapiro and Rolf Bjelke sailed from Sweden to Antarctica in 1992 their goal was to be alone with the last great wilderness on earth In fine prose and dramatic color photos the adventurers show fiery sunsets on snow and ice mountains rising from the mist and ethereal aquamarine ice caves as they share the storytelling in alternate chapters color insert Antarctica David Day, 2013-01-24 The first ever major international history of the world's most forbidding continent from the 18th century voyages of discovery to the fierce commercial and geopolitical rivalries of today **Through Ice & Fire** Sarah Laverick, 2019-08-27 The wild and desolate expanses of Antarctica have been the setting for many famous exploits and misadventures a place where every decision has life or death consequences Legendary explorers such as Shackleton Mawson and Scott continue to inspire to this day and their faithful ships the Endurance Aurora and Terra Nova are vivid characters in their fateful voyages of discovery The first and only Australian built Antarctic flagship Aurora Australis and her crews have likewise secured a place in Antarctic history This is the 30 year story of Aurora Australis and of her diverse charges crew technicians scientists explorers writers and artists It's the tale of a problem plagued construction two devastating fires a crippling besetment in ice and a blizzard induced grounding in Antarctica It tells of brave rescue missions of other ships and their grateful crews and of the heroic administering of medical help while battling life threatening temperatures and hurricane force winds This is a tale of engineering brilliance team tenacity and human resilience It brings polar research to life and unveils stunning scientific discoveries It transforms the Aurora Australis into a compelling character in Australia's chapter of Antarctic history and makes heroes of the men and women who have guided her through the most inhospitable seascapes on earth SHORTLISTED FOR THE FRANK BROEZE MEMORIAL MARITIME HISTORY BOOK PRIZE 2021 *Antarctic News Clips*, 1995 **The British National Bibliography** Arthur James Wells, 1999 *Antarctic Journal of the United States*, 1995 Antarctica: Earth's Own Ice World Michael Carroll, Rosaly Lopes, 2018-05-16 In 2016 scientist Rosaly Lopes and artist Michael Carroll teamed up as fellows of the National Science Foundation to travel to Mount Erebus the world's southernmost active volcano in Antarctica The logistics of getting there and complex operations of Antarctica's McMurdo Station echo the kinds of strategies that future explorers will undertake as they set up settlements on Mars and beyond This exciting popular level book explores the arduous environment of Antarctica and how it is similar to other icy worlds in the Solar System The bulk of this story delves into Antarctica's infrastructure exploration and remote camps culminating on the summit of Erebus There the authors explored the caves and ice towers on the volcano's flanks taking photographs and generating original art depicting scenes in Antarctica and terrestrial analogs on other planets and moons Readers will see an intimate side of Mount Erebus and Antarctica while surveying the region's history exploration geology and volcanology which includes research funded by the National Science Foundation's United States Antarctic Programs Richly illustrated with photographs and

stunning paintings showcasing the beauty of the harsh continent the book captures the spirit and splendor of the authors journey to Erebus **Antarctica** Jagadish Khadilkar,2017-07-31 The author spent one and half years as head of the country s first research station in Antarctica Dakshin Gangotri He discusses in details the frozen continent s unique environmental aspects the international presence world governance and the Indian Antarctic Programme IAP The book throws light on how perspectives and positions of leading countries represented in Antarctica such as the UK Australia New Zealand Argentina Chile US Russia China Japan Norway South Africa and India have shaped over the years Their strategic interests including those in the Arctic provide for an interesting kaleidoscope of factors with the potential for various global scenarios in the coming years The world will be surely and anxiously watching the developments in Antarctica in future According to the widely accepted geological theory of plate tectonics the Indian subcontinent was once a part of the supercontinent Gondwana so named after one of the tribes of central India along with Antarctica Africa Australia and South America However the general awareness about the continent in India is very poor The book in details traces the history of India s involvement in Antarctica its three permanent stations conducting valuable scientific research and efforts to make a presence among other nations in the continent It points out the country s total dependence on all its logistics needs by outsourcing which may prove to be detrimental to its influence and interests It would be interesting to see how India reacts to the positions of other nations in the changing global kaleidoscope and how it will gear itself to establish a truly influential Antarctic presence for safeguarding its own strategic interests India may do well to lay down a polar doctrine at the earliest The Journals of Captain James Cook on his Voyages of Discovery J.C. Beaglehole,2017-07-05 Captain James Cook s first two voyages of exploration in 1768 71 and 1772 75 had drawn the modern map of the South Pacific Ocean and had opened the door on the discovery of Antarctica These expeditions were the subject of Volumes I and II of Dr J C Beaglehole s edition of Cook s Journals The third voyage on which Cook sailed in 1776 was directed to the Northern Hemisphere Its objective was the discovery of a Northern Passage by sea from the Pacific to the Atlantic Ocean the North west Passage sought since the 16th century which would have transformed the pattern of world trade The search was to take Cook into high latitudes where as in the Antarctic his skill in ice navigation was tested Sailing north from Tahiti in 1778 Cook made the first recorded discovery of the Hawaiian Islands On March 7 he sighted the Oregon coast in 44 N The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70 nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy Returning to Hawaii to refit Cook met his death in a clash with the natives as tragic as it seems unnecessary Dr Beaglehole discusses with sympathy and insight the tensions which led Cook by then a tired man into miscalculations alien to his own nature and habits The volume and vitality of the records both textual and graphic for this voyage surpass those even for Cook s second voyage The surgeons William Anderson and David Samwell both admirable observers left journals which are also here printed in full for the first time The

documentation is completed as in the previous volumes by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber the artist of the expedition In Dr Beaglehole's words no one can study attentively the records of Cook's third and last voyage Bibliography of Nautical Books Alan Obin, 2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000
