Tropical Houses Living In Paradise:

Tropical Houses Tim Street-Porter, 2000 In the tradition of the highly successful and groundbreaking Los Angeles House Tim Street Porter now takes us with him to the magnificent colour and flavour of Asia Australia Africa and Central America into the homes and a few secluded hotels of the tropics The book's lavish photographs supported by Street Porter's fascinating and informed commentary capture the appeal and the meaning of the enviable dwellings he found on his journeys around the tropics showing the very best and most original of the regions diverse styles and serene home designs

Tropical Houses Michelle Galindo, 2012 The houses featured in this volume embrace the tropical lifestyle with exotic local materials and eco conscious features *Tropical Houses* Tim Street-Porter, 2000 Celebrates homes in paradise like settings bringing together 225 photographs of vernacular architecture by some of the world's most noted designers in jungle volcanic cliff and lagoon settings

Tropical Sustainable Architecture Joo Hwa Bay, Boon Lay Ong, 2007-03-14 The tropical belt where large areas of South East Asia India Africa and parts of both North and South America are located forms the biggest landmass in the world and has one of the highest numbers of rapidly developing cities Coincidentally architecture in these regions shares common problems the most easily identifiable being the tropical conditions of climate and natural environment The context for architecture here is fraught with conflicts between tradition and modernization massive influx of rural poor into urban areas poorly managed rapid urban development as well as the cultural and social strain of globalization Many local and overseas architects planners and city fathers are interested in the social and environmental dimensions of these areas that contribute towards short term solutions and long term sustainable developments This book developed from the first conference of the International Network for Tropical Architecture supplies a wealth of information from experts worldwide covering the cultural environmental and technical aspects of thinking researching and designing for the tropics

Beyond Bawa David Robson, 2007 Takes a look at Geoffrey Bawa's life and career and at the legacy of his influence through the work of contemporary architects working across southeast Asia **Islands Magazine**, 1986-11 *Saturday Review*, 1967 *Islands Magazine*, 1995-01 **Islands Magazine**, 1993-03 *The British National Bibliography* Arthur James Wells, 2005 **Karl Langer**, 2021-12-30 Despite a European training and an early career working with Peter Behrens a migration from Vienna to the Australian state of Queensland positioned the architect Karl Langer 1903-1969 at the very edge of both European and Australian modernism Confronted by tropical heat and glare the economics of affordable housing fiercely proud and regional architectural practices and a suspicion of the foreign Langer moulded the European language of international modernism to the unique climatic and social conditions of tropical Australia This book will tell Langer's story through a series of edited essays focused on key themes and projects Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects it is both an examination of an architect's work and international legacy and also a case study in the trans global dissemination of design ideas

Studying the architect's built and proposed work both regional and metropolitan the scale and reach of Langer's practice will be considered for the first time showing how given his continued influence on the contemporary culture of tropical design Langer has been unjustly ignored by the historiography of both Australian and Modernist architecture to date
