readers about a list she made which includes the things in her life that she is not proud of. The items on this list include cheating, lying, and not being considerate of others. She even goes on to include her family members and the problems they had with each other. Remini has a good reason for including this list of things she is not proud of in the beginning of her book. She is worried that the Church of Scientology might make these faults known to the world in an attempt to defame her character. Because of this, Remini wanted to be the first one to tell her story to the world. Some of the things that she lists as being problems in her past are still plaguing her in the present moment. Remini has been a member of the Church of Scientology for about 30 years, and out of all this time, the Church of Scientology was unable to teach her how to eliminate her negative faults.

INTRODUCTION Leah Remini begins her autobiography by immediately discrediting herself. She starts by listing all the things she was done wrong in her life, as well as the different bad qualities of her personality that people close to her would happily point out. She does this because she is preempting anything the church of Scientology will say about her when the book comes out. This tactic of reverse self-preservation both protects her against any future public backlash from the church, as well as heightens the drama to come, as it suggests to the reader that what she is about to reveal will be worse than everything she is admitting in these first few pages. Remini explains how she left the church of Scientology in 2013, and this book is her way of not only explaining why, but revealing the truth behind the church and honoring those who have had to undergo experiences similar to hers but have had to keep them secret. She gives a basic definition of Scientology through a quote from its founder, L. Ron Hubbard. It is described as a set plan of rules, guidelines, and lessons that take an individual through a scientific type of process as a means to achieve spiritual enlightenment. In this way, the aims of Scientology are to create a higher and more self-aware civilization where there is less crime and violence, and humanity has been able to achieve a level of spiritual enlightenment. Remini explains that she was raised as a second-generation Scientologist, meaning a person has either been born into it or brought in to it as a child by their parents, as she was. She goes on to explain the allure of Scientology: a sense of empowerment, a clear-cut path to enlightenment, and a very comprehensible and achievable method of hard work and study that will lead directly to a moment of going clear or rising above the pain and irrationality of the mind. Being raised in the church helped form a very us-against-them mentality in her early on, a theme that would continue throughout her life.

particularly in Hollywood She delves into a hypothetical situation placing the reader directly in the shoes of a person being lured in by the church and showing just how persuasive and appealing it can be After demonstrating the ease with which it is to become a member Remini details the personal and monetary costs of being a Scientologist During her thirty years as a member she personally spent close to two million dollars on training and classes and donated nearly three million dollars to church causes Most members she states will end up spending five hundred thousand dollars or more regardless of their income or level to reach the level of going clear Everything she explains money work relationships personal emotions goes back to the church Remini finishes the introduction by explaining that this book will essentially separate her from the church for good By leaving the church two years earlier and now writing this she has become a SP or Suppressive Person someone who is a threat to Scientology and is now not only cut off from the church but open to aggressive discrediting by the leaders and members An interesting point she makes it that most people who leave the church do so because they have been penalized for being defiant questioning and independent thinkers yet these are the same qualities that made them perfect for joining the church in the first place Available on PC Mac smart phone tablet or Kindle device c 2015 All Rights Reserved
