Rivers of the Sultan Faisal Husain,2021 In the early sixteenth century a series of military campaigns between the Mediterranean Sea and Persian Gulf brought the entirety of the Tigris and Euphrates rivers under Ottoman control This book offers a history of this rare political unification of the longest rivers in West Asia and its impact on the Ottoman state provincial society and the environment 21st-Century Narratives of World History R. Charles Weller,2017-11-06 This book makes a unique and timely contribution to world global historical studies and related fields It places essential world historical frameworks by top scholars in the field today in clear direct relation to and conversation with one other offering them opportunity to enrich elucidate and at times challenge one another It thereby aims to 1 offer world historians opportunity to critically reflect upon and refine their essential interpretational frameworks 2 facilitate more effective and nuanced teaching and learning in and beyond the classroom 3 provide accessible world historical contexts for specialized areas of historical as well as other fields of research in the humanities social sciences and sciences and 4 promote comparative historiographical critique which a helps identify continuing research questions for the field of world history in particular as well as b further global peace and dialogue in relation to varying views of our ever increasingly interconnected interdependent multicultural and globalized world and its shared though diverse and sometimes contested history Routledge Handbook of Landscape and Food Joshua Zeunert,Tim Waterman,2018-02-02 Since the turn of the millennium there has been a burgeoning interest in and

literature of both landscape studies and food studies Landscape describes places as relationships and processes Landscapes create people's identities and guide their actions and their preferences while at the same time are shaped by the actions and forces of people Food as currency medium and sustenance is a fundamental part of those landscape relationships This volume brings together over fifty contributors from around the world in forty profoundly interdisciplinary chapters Chapter authors represent an astonishing range of disciplines from agronomy anthropology archaeology conservation countryside management cultural studies ecology ethics geography heritage studies landscape architecture landscape management and planning literature urban design and architecture Both food studies and landscape studies defy comprehension from the perspective of a single discipline and thus such a range is both necessary and enriching The Routledge Handbook of Landscape and Food is intended as a first port of call for scholars and researchers seeking to undertake new work at the many intersections of landscape and food Each chapter provides an authoritative overview a broad range of pertinent readings and references and seeks to identify areas where new research is needed though these may also be identified in the many fertile areas in which subjects and chapters overlap within the book

Plant-Forward Cuisine Ole G. Mouritsen, Klavs Styrbæk, Mariela Johansen, 2024-12-30 Plant Forward Cuisine is a beautifully illustrated book that promotes the environmental and health benefits of a plant forward diet and will inspire readers with a range of exciting recipes The book addresses the urgent need to make changes to those culinary cultures where animal sourced proteins play a central role To ensure that there is enough food for a growing world population to lessen the burden on the environment and to promote healthier sustainable eating patterns it is crucial to transition to a diet that focuses primarily on plants as the key ingredients Yet many people dislike the taste of plants because of their texture and lack of sweetness and umami Luckily the book provides a solution to these challenges It offers key scientific descriptions of the physical characteristics of plants mushrooms algae and fungi and their nutritional components along with information about creation of texture and flavour Armed with this knowledge the recipes then provide tips and tricks for transforming plants into delicious meals with pleasing textures and flavours The authors stress that it is not necessary to embrace a fully vegetarian or vegan diet Rather they suggest that taking a flexitarian approach which incorporates small quantities of animal products to elicit umami may be a more viable and lasting solution for people at large Throughout the text readers will find interesting narratives about various aspects of green gastronomy around the world The book concludes with two helpful reference sections a glossary of main ingredients used in the recipes and a compilation of ingredients that can be used to add taste and aroma This book will be of great interest to those concerned with building a sustainable food system and it will serve as a practical guide for those seeking to transition to plant rich diets without compromising their taste experience and enjoyment of food

Mushroom Cynthia D. Bertelsen, 2013-09-15 Known as the meat of the vegetable world mushrooms have their ardent supporters as well as their fierce detractors Hobbits go crazy over them while Diderot thought they should be sent back to the dung heap where they

are born In Mushroom Cynthia D Bertelsen examines the colorful history of these divisive edible fungi As she reveals their story is fraught with murder and accidental death hunger and gluttony sickness and health religion and war Some cultures equate them with the rottenness of life while others delight in cooking and eating them And then there are those magic mushrooms which some people link to ancient religious beliefs To tell this story Bertelsen travels to the nineteenth century when mushrooms entered the realm of haute cuisine after millennia of being picked from the wild for use in everyday cooking and medicine She describes how this new demand drove entrepreneurs and farmers to seek methods for cultivating mushrooms including experiments in domesticating the highly sought after but elusive truffles and she explores the popular pastime of mushroom hunting and includes numerous historic and contemporary recipes Packed with images of mushrooms from around the globe this savory book will be essential reading for fans of this surprising earthy fungus **Truffles and**

Trash Kelly Alexander,2024-10-25 On a fragile planet with spreading food insecurity food waste is a political and ethical problem Examining the collaborative sometimes scrappy institutional and community efforts to recuperate and redistribute food waste in Brussels Belgium Kelly Alexander reveals it is also an opportunity for new forms of sociality Her study plays out across a diverse set of locations including a food bank with ties to the EU a social restaurant serving low cost meals made from supermarket surplus by an emergent immigrant labor force and a social inclusion program in an urban market with a zero food waste pop up caf Alexander argues that these efforts in concert with innovative policy effectively recirculate wasted food to new publics and produce what she terms a spectrum of edibility According to Alexander these models face challenges including reproducing the very power dynamics across race class and citizenship status they seek to circumvent They also mirror the challenges of the everyday operations of the European social welfare state which is increasingly reliant on NGOs to meet provisioning promises Yet she finds that they also move the needle forward to reduce food waste across one city providing an example for major urban centers around the world *Architects of World History* Kenneth R. Curtis, Jerry
